ZONING AND BUILDING SETBACK ORDINANCES

227.210 to 227.200 - 268 p 2d 599
227.210 Definitions for ORS 227.220 to 227.280. As used in ORS 227.220 to 227.280, "council" means the city council, board of trustees or other legislative body of any incorporated city and town.

227.220 Zoning authority. For the public interest, health, comfort, convenience, preservation of the public peace, safety, morals, order and the public welfare, the council may by ordinance create or divide the city into districts within some of which it shall be lawful and within others of which it shall be unlawful to erect, construct, alter or maintain certain buildings, or to carry on certain trades or callings or within which the height and bulk of future buildings shall be limited.

227.230 Powers of city to create zones and districts; building restrictions. (1) The council may by ordinance regulate, restrict and segregate the location of industries, the several classes of business, trades or callings, the location of apartment or tenement houses, clubhouses, group residences, two family dwellings, single family dwellings and the several classes of public and semipublic buildings, and the location of buildings or property for specified uses, and may divide the city into districts of such number, shape and area as the council may deem best suited to carry out the purposes of ORS 227.220 to 227.280, subject to the provisions of ORS 227.250 and 227.260.

(2) The council may place reasonable regulations and limitations upon the height and bulk of buildings erected after May 29, 1919, and regulate and determine the area of yards, courts and other open spaces having due regard of the use and occupancy in such case.

227.240 Purpose, scope and matters considered in making regulations. (1) For each district provided for by subsection (1) of ORS 227.230, regulations may be imposed designating the class of use that shall be excluded or subjected to special regulations and designating the uses for which buildings may not be erected or altered, or

designating the class of use which only shall be permitted. These regulations shall be designed to promote the public health, safety and general welfare. The council shall give reasonable consideration, among other things, to the character of the district, its peculiar suitability for particular uses, the conservation of property values and the direction of building development in accord with a well considered plan.

(2) The regulations provided for by subsection (2) of ORS 227 230 shall be uniform for each class of buildings throughout each district. The regulations in one or more districts may differ from those in other districts. The regulations shall be designed to secure safety from fire and other dangers and to promote the public health and welfare, and to secure provision for adequate light, air and reasonable access. The council shall pay reasonable regard to the character of buildings erected before May 29, 1919, in each district, the value of the land, and the use to which it may be put to the end that the regulations may promote public health, safety and welfare.

227.250 Recommendations and reports on proposed zoning by planning commission. In municipalities having a city planning commission the council shall require such commission to recommend the boundaries of districts referred to in subsection (1) of ORS 227 230 and appropriate regulations and restrictions to be enforced therein. The commission shall make a tentative report and hold public hearings thereon at such times and places as the council requires before submitting its final report. The council shall not determine the boundaries of any district or impose any regulations until after the final report of the city planning commission is filed with the city clerk

227.260 Hearing and notice prior to final action. Upon receiving the final report required by ORS 227.250, the council shall afford persons particularly interested, and the general public, an opportunity to be heard at a time and place to be specified in a notice of hearing published in a newspaper to be designated for that purpose. This newspaper shall be a local newspaper, if there is one; otherwise, a newspaper of general circulation within the municipality. The notice shall be published not less than three times in any daily, or not less than once in any other newspaper of general circulation

within the municipality and within the week within which the meeting is to be held

227.270 Proceedings in cities not having planning commission. In municipalities where there is no city planning commission, the council may proceed in the manner prescribed in ORS 227 250 and 227 260. It shall make the tentative report, arrange for and hold the public hearings, make the final report and afford all persons particularly interested, and the general public, an opportunity to be heard at the time and place and in the manner prescribed in those sections.

227.280 Penalty for zoning violations. The council may establish penalties for violation of any ordinance established under ORS 227.210 to 227 270 and in effect.

227.290 Building setback lines established by city council. The council or other governing body of any incorporated city, under an exercise of its police powers, may establish or alter building setback lines on private property adjacent to any alley, street, avenue, boulevard, highway or other public way in such city. It may make it unlawful and provide a penalty for erecting after said establishment any building or structure closer to the street line than such setback line, except as may be expressly provided by ordinance. The council or body shall pass and put into effect such ordinances as may be needed for the purpose of providing for a notice to and hearing of persons owning property affected before establishing any such setback line. Such setback lines may be established without requiring a cutting off or removal of buildings existing at the time. The powers given in this section shall be so exercised as to preserve constitutional rights

227.300 Use of eminent domain power to establish setback lines. The council or other governing body of any incorporated city, under an exercise of the power of eminent domain, may establish or alter building setback lines on private property adjacent to any alley, street, avenue, boulevard, highway, or other public way in such city in cases where the establishment of such setback lines is for street widening purposes, and in cases where the establishment of such setback lines affects buildings or structures existing at the time. The council or other governing body of the city shall pass and put into effect such ordinances as

may be needed for the purpose of providing for a notice to and hearing of persons whose property is affected by such establishment. In case of the exercise of the power of eminent domain, provision shall be made for ascertaining and paying just compensation for any damages caused as the result of establishing such setback lines.
