The city of Medford, any of its officers, and others on its behalf may appropriate all the waters for these purposes and an application therefor may be made for the benefit of the city, either by it in its own name, or by any of its officers or by any other person on its behalf. No person shall appropriate or be granted a permit to use any of the waters except as provided in this section, and for the use and benefit of the city. But the city of Medford may, under this grant, divert such waters from their watershed and convey them to the city and elsewhere for use by it for municipal purposes, either within or without the city limits. All of such waters are withdrawn from future appropriation, except for such use and benefit of the city of Medford.

providing a supply of water for domestic and municipal purposes; provided, however, that should the waters of the Deschutes River so acquired for the purpose of the exchange be appurtenant to lands calling for a different point of diversion, the place of use and point of diversion of the water may be changed to meet the requirements of this section.

(3) No person shall appropriate or be granted a permit to the use of any of such waters, except as provided in this section. But the city of Pendleton may, under this grant, divert such waters from their watershed and convey them to the city and elsewhere for use by it for public or municipal purposes or use or for the general use and benefit of people within or without the city. All of such waters are withdrawn from future appropriation, except for use and benefit of the city as set forth in this section.
