

Chapter 224

1955 REPLACEMENT PART

City Sewers and Sanitation

CONSTRUCTION OF SEWER SYSTEM; ASSESSMENT PLAN

- 224.010 Definitions for ORS 224.010 to 224.170
- 224.020 Authority of city to construct sewage system
- 224.030 Authority of city to alter water flow; limitations
- 224.040 Assessment of property; collection
- 224.050 Rights of owners outside city limits
- 224.060 Right of appeal of owners outside city limits; joinder of appellants; filing
- 224.070 Effect of appeal; issues; judgment
- 224.080 Record and effect of judgment
- 224.090 Assessment lien on property outside city limits; priority
- 224.100 Records and indexes of transcripts; effect of appeal
- 224.110 Enforcing liens on property outside city limits
- 224.120 Sale without foreclosure
- 224.130 Assessment of property in drainage district
- 224.140 Authority to control sewer system
- 224.150 Federal aid
- 224.160 Procurement of funds for construction
- 224.170 Laws and charter provisions applicable to reassessments

CONSTRUCTION OF SEWER SYSTEM; BOND PLAN

- 224.210 Authority to construct sewer system
- 224.220 Service charges and collection
- 224.230 Bond election; issuance and payment of bonds

- 224.240 Bonds; form; maturity; sale price; interest
- 224.250 Application of debt limitations
- 224.260 Preparation of construction plans; public inspection
- 224.270 Validation of bond issues

SEWER CONSTRUCTION IN CITIES OF 3,500 OR LESS

- 224.310 Definitions for ORS 224.310 to 224.420
- 224.320 Municipalities eligible for state help in financing sewer systems
- 224.330 Conditions precedent to financing application
- 224.340 Bonds; form; interest; sale price
- 224.350 General powers of the commission
- 224.360 Investment limitations not applicable
- 224.370 Municipality not to assume further obligations
- 224.380 Limitations on authority of commission to purchase bonds
- 224.390 State Sewer Bond Revolving Fund
- 224.400 Control of commission over rates, collection of charges and delinquent assessments; budget approval
- 224.410 Authority to appoint receiver and withhold earmarked moneys on default
- 224.420 Duty of treasurer to keep funds separate and withhold bond payments; liability of treasurer
- 224.450 Validation of revenue bonds issued by cities of less than 100,000; sale of bonds to the Federal Government

**CONSTRUCTION OF SEWER SYSTEM;
ASSESSMENT PLAN**

224.010 Definitions for ORS 224.010 to 224.170. As used in ORS 224.010 to 224.170, unless the context requires otherwise:

(1) "City" means any incorporated city or town.

(2) "Council" means the council or other municipal authority of a city.

224.020 Authority of city to construct sewage system. Whenever the council of any city deems it necessary or expedient to construct a sewer partially within and partially without the city, or to construct a sewer outlet, or do any other work, acts or things without the city for proper disposal of sewerage and drainage, the city, through its council, may acquire by purchase, condemnation or otherwise, any property rights of way, easement and other rights without the city as may be needed or deemed essential for the construction of the sewer, sewer outlet, or other works. It may also provide for and do all things which may be necessary or deemed essential for proper construction of such sewer, sewer outlet, and for other works, acts and things which may be deemed necessary or essential for the proper disposal of sewerage and drainage from the city and adjacent territory.

224.030 Authority of city to alter water flow; limitations. A city, through its council, may divert water and waterways, fill or drain lakes, ponds or other waters, increase or diminish the flow of waters in natural channels or dam channels and do such other acts and things as may be found necessary or essential for the matters provided for in ORS 224.010 to 224.120 and in ORS 224.170. However, no property rights or other vested rights shall be taken without agreement with the owner or a proceeding of condemnation.

224.040 Assessment of property; collection. The council may provide for and make a local assessment for benefits against any and all property whether within or without the city or partially within or partially without the city and enforce a collection of such assessments.

224.050 Rights of owners outside city limits. The owners of property without the city shall be given like notice and shall have like opportunities of remonstrance and have

all other rights and remedies which the owners of property within the city may have or be given, including the privileges of the Bancroft Bonding Act or similar charter provisions relating to bonding of assessments.

224.060 Right of appeal of owners outside city limits; joinder of appellants; filing. Owners of any property beyond the limits of the city have a right of appeal to the circuit court for the county in which the land may lie by serving a notice of appeal upon the city within 10 days after the making of any assessment against the property of such owners. Two or more such persons may join in the appeal or separate appeals may be taken. In taking the appeal no pleading or other papers need be filed in circuit court other than the notice of appeal with proof of service thereof and a certified copy of that part of the ordinance or assessment roll covering the property of the appellants.

224.070 Effect of appeal; issues; judgment. The appeal shall operate as a stay of proceedings to collect an assessment authorized in conformity with ORS 224.040 against the property until after determination of the appeal. A right of trial by jury shall exist. The question to be determined by the court or jury upon the appeal shall be whether or not the property is benefited to the extent of the assessment and whether or not the assessment is fairly and equitably spread according to benefits upon the property within the district assessed. The judgment upon the appeal shall determine the amount of the assessment which shall be lawful and proper against the property.

224.080 Record and effect of judgment. Upon final determination of the appeal a transcript of the judgment shall be filed with the auditor, clerk or other official of the city having charge of the assessment records, whereupon it shall be entered in the records of the city and other records as provided in ORS 224.090 and 224.100 and shall constitute the assessment against the property. It shall bear interest from the date that other assessments for such sewer or work bear interest and shall be enforced and collected in like manner as the assessment is collected against other property which may have been assessed for such sewer or other work. In case the judgment on appeal is for the same amount as the assessment, no entries need be made of the transcript.

224.090 Assessment lien on property outside city limits; priority. No assessment under ORS 224.040 against property beyond the limits of the city shall be a lien on the property until a certified transcript of the assessment in so far as it affects such property has been filed with the county clerk or other person having custody and charge of the mortgage records of the county. From the date of such filing the assessment shall be a lien and charge against the property upon which it is imposed, prior and superior to all other liens and encumbrances whatsoever thereon, except general taxes.

224.100 Records and indexes of transcripts; effect of appeal. The clerk or officer referred to in ORS 224.090 shall record the transcript referred to in that section in the mortgage records of the county and properly index it. The taking of an appeal shall not prevent the filing, recording and indexing of such transcript, but upon the final determination of the appeal a further transcript shall be filed showing the amount of the assessment. A notation shall be made upon the margin of the record of the first transcript showing that it has been merged into the second transcript. The second transcript shall be indexed and recorded and the same shall, for the amount specified therein, have the same force and effect as the first transcript would have had.

224.110 Enforcing liens on property outside city limits. The city, through its council, may collect and enforce or provide for collecting and enforcing payment of liens created by virtue of ORS 224.090 or 224.100 by a sale of the property in the same manner and with the same force and effect as is or may be provided with respect to property within the city, or a proceeding in court to foreclose such liens.

224.120 Sale without foreclosure. In case of a sale without a foreclosure in court a duplicate certificate of sale shall be made by the city official making the sale and filed with the county clerk or other officer having charge of mortgage records of the county, who shall enter a memorandum of the sale upon the margin of the record where the lien is recorded. In case of redemption or issuance of a deed upon such certificate of sale a further certificate of such fact shall be made by the proper city official and shall be filed in the same manner and noted upon the margin of the mortgage records.

224.130 Assessment of property in drainage district. Nothing contained in ORS 224.010 to 224.170 shall authorize the city to assess any property now included in any drainage district organized under ORS 547.005 to 547.035 and beyond the limits of the city unless the owner of such property or the officers of such district consent thereto. However, if the owner of property in such district at any time desires to connect with and utilize any sewer or drain constructed pursuant to ORS 224.020, a just and equitable assessment may be made and charged against the property owned by him and especially and peculiarly benefited by such connection.

224.140 Authority to control sewer system. A city, through its council, may enact and enforce such ordinances and other provisions as may be necessary or essential for the proper policing, protection, management and control of sewers, ditches, canals and other works beyond the city limits and constructed by the city under or by virtue of ORS 224.010 to 224.170. The city may construct extensions, laterals and branches to such sewer system upon the terms and provisions applicable to original construction.

224.150 Federal aid. The city may negotiate and obtain from the Federal Government financial aid in construction referred to in ORS 224.140 by a work relief program, grant, loan or other means of like or different nature.

224.160 Procurement of funds for construction. Pending the making of an assessment for all or part of any construction referred to in ORS 224.140, the city may make temporary loans or advances from the fund legally available under its charter in order to procure the federal aid or perform such construction, or both. Such loan shall be refunded from a local assessment when made and collected. If the city is without adequate funds to make such temporary loan it may from time to time borrow funds therefor and give its certificate of indebtedness for the money so borrowed. This certificate shall be paid only from funds collected from the local assessment authorized to be made for the construction. The rate of interest upon the certificates of indebtedness shall not exceed six percent per annum and no greater amount shall be borrowed than the amounts necessary for the purposes of construction.

224.170 Laws and charter provisions applicable to reassessments. The provisions of the city charter applicable to curative measures or reassessments shall be applicable to property without the city limits as well as to the property within the city. The owners of property beyond the city limits shall have like rights of objection, remonstrances, hearing and other remedies as the owners of property within the city or town. The right of appeal from any reassessment to the circuit court as provided by ORS 224.060 and 224.070 relative to an original assessment, and the provisions of ORS 224.060 to 224.080 and of 224.100 relative to an appeal from an original assessment shall be applicable to an appeal from a reassessment.

224.180 to 224.200 [Reserved for expansion.]

CONSTRUCTION OF SEWER SYSTEM; BOND PLAN

224.210 Authority to construct sewer system. (1) Any incorporated city or town, referred to in ORS 224.210 to 224.260 as the "municipality," may own, acquire, construct, equip, operate and maintain, either within or without its statutory or corporate limits, in whole or in part, sewers, sewer systems, sewage treatment, or disposal plant or plants, intercepting sewers, outfall sewers, force mains, pumping stations or ejector stations, with all appurtenances necessary, useful or convenient for the treatment and disposal of sewage, such plant or plants being referred to in ORS 224.210 to 224.260 as "facilities." The municipality may acquire by gift, grant, purchase or condemnation necessary lands and rights of way therefor, either within or without its statutory or corporate limits. For the purpose of acquiring property for such uses, the municipality may invoke and shall have the rights, powers and privileges granted to public corporations under the provisions of existing or future laws pertaining to this subject.

(2) The authority given by ORS 224.210 to 224.260 shall be in addition to, and not in derogation of any power existing in the municipality under any constitutional, statutory or charter provisions now or hereafter existing.

224.220 Service charges and collection. The governing body of the municipality may establish just and equitable rates or charges to be paid for the use of the facilities by each

person, firm or corporation whose premises are served thereby, or upon subsequent service thereto. If the service charges so established are not paid when due, the amounts thereof, together with such penalties, interests and costs as may be provided by the governing body of the municipality may be recovered in an action at law, or may be certified to the tax assessor of the county in which the municipality is situated and be by him assessed against the premises serviced. These charges shall thereupon be collected and paid over in the same manner as other taxes are certified, assessed, collected and paid over.

224.230 Bond election; issuance and payment of bonds. The governing body of the municipality may, after referring the question of acquiring and constructing the facilities to a vote of its qualified electors and after approval thereof by a majority of the electors, authorize the issuance of and cause to be issued bonds of the municipality for such purposes. The bonds may be general obligation, limited obligation or self-liquidating in character in a sum not more than the amount authorized at such election and subject to ORS 224.210 to 224.260. The bonds may provide for payment of principal and interest thereon from service charges to be imposed by the governing body for services to be extended through employment and use of the facilities. If service charges are imposed to be paid as provided in ORS 224.220, such portion thereof as may be deemed sufficient shall be set aside as a sinking fund for payment of interest on the bonds and the principal thereof at maturity.

224.240 Bonds; form; maturity; sale price; interest. The governing body of the municipality may determine the maturities and tenor of bonds issued under ORS 224.230. However, the bonds shall be serial in character in accordance with present or future provisions of law or the charter. They shall be payable in not to exceed 30 years from the date of issuance thereof, and shall be sold at a price to net the municipality not less than the par value thereof with accrued interest. They shall bear interest at not to exceed six percent per annum.

224.250 Application of debt limitations. The amount of any self-liquidating bonds issued under ORS 224.230 shall not be within any limitation of indebtedness fixed by law or charter, but shall be in addition thereto. However, the aggregate thereof, after deducting sinking funds applicable to payment of

the principal of such bonds, shall not exceed 15 percent of the latest assessed valuation of the issuing municipality.

224.260 Preparation of construction plans; public inspection. Before calling any election under ORS 224.230, the governing body of the municipality shall cause to be prepared plans, specifications and estimates of costs of any proposed facilities to be voted upon, which may be examined by any qualified elector of the municipality.

224.270 Validation of bond issues. All proceedings and elections had prior to March 9, 1935, in cities of less than 100,000 population under ORS 224.210 to 224.270 are validated, notwithstanding any failure to comply with the provisions of ORS 224.260. All bonds voted prior to March 9, 1935, by any municipality, as defined in ORS 224.210, for a sanitary disposal of sewage under ORS 224.210 to 224.260 shall, when issued and sold, be legal and binding obligations of the municipality if the issuance of bonds for that purpose has been authorized and approved by a majority vote of the electors voting on the question and regardless of whether the question was submitted to the voters by the council or other governing body by resolution, ordinance or by charter amendment. The governing body of the municipality may, either before or after issuing the bonds, adopt plans, specifications and estimates for a sanitary disposal of sewage with or without following any previous plans, specifications, estimates or methods.

224.280 to 224.300 [Reserved for expansion]

SEWER CONSTRUCTION IN CITIES OF 3,500 OR LESS

224.310 Definitions for ORS 224.310 to 224.420. As used in ORS 224.310 to 224.420, unless the context requires otherwise:

(1) "Municipality" means a duly incorporated city or town having a population of not more than 3,500 inhabitants as determined from the latest official enumeration of inhabitants, either federal or state, made prior to the date of authorization of the construction and establishment by the municipality of a sewerage system or of an extension to an existing sewerage system.

(2) "Sewerage system" means complete or primary sewage treatment and disposal facilities, sewer mains, pumping stations, and

all equipment and appurtenances necessary, useful or convenient for the treatment or disposal of sewage, or any portion of such a system, whether within or without the corporate limits of a municipality.

(3) "Commission" means the State Bond Commission. [Amended by 1953 c.287 §9]

224.320 Municipalities eligible for state help in financing sewer systems. Municipalities that have been certified by the Sanitary Authority as being in need of sewerage systems and that are unable to sell bonds upon the public market, or are unable to obtain satisfactory offers for bonds upon such market, for the purpose of financing the costs of construction thereof may apply to the commission for the purpose of financing such costs under ORS 224.310 to 224.420. The Sanitary Authority shall furnish to the commission in writing a list of the municipalities that are in the greatest need of sewerage and sanitation facilities. [Amended by 1955 c.593 §1]

224.330 Condition precedent to financing application. A municipality shall not apply to the commission for financing under ORS 224.320 unless:

(1) It submits to the commission plans and specifications prepared by competent licensed engineers setting forth the type or character of sewer system or sewerage facilities proposed for the particular municipality and the estimated cost of the system and of the appurtenances thereto.

(2) It submits to the commission the proposed plan of the municipality for liquidation of indebtedness to be incurred for financing the cost of such system or facilities. [Amended by 1953 c.287 §9]

224.340 Bonds; form; interest; sale price. Notwithstanding the provisions of any other Act or of any city charter, the bonds issued by municipalities pursuant to ORS 224.350 to 224.370 shall bear such dates, be in such form, run for such periods of time, bear such rates of interest not exceeding four percent per annum, and be sold by the municipalities at such prices not less than the par value thereof and the full amount of accrued interest thereon, as the commission may determine. [Amended by 1953 c.287 §9; 1955 c.593 §2]

224.350 General powers of the commission. (1) The commission shall be the sole judge as to whether state funds shall be in-

vested in the project and as to which undertakings shall first be financed. The decision of the commission on the subject of investment and priority shall be final.

(2) The commission may enlist the technical services of any state officer or department in a study of the feasibility and cost of the sewerage project.

(3) The commission, in its discretion, may purchase, with funds subject to investment by the commission, or with moneys from the revolving fund as provided in ORS 224.390, general obligation sewerage system bonds of any municipality including bonds issued under statutory or charter authority pursuant to applications to pay assessments in instalments. To facilitate the construction of a sewerage system for a municipality, the state may purchase at current market prices with such funds the outstanding water system bonds of the municipality. After the purchase of such bonds, the commission may agree with the municipality as to allocation of the net revenues of the water system of the municipality to the payment of the principal of and the interest upon the water system bonds, and upon the sewerage system bonds of the municipality. If the commission deems it expedient in the acquisition and construction of a sewerage system for a municipality to furnish sewerage service for territory that is contiguous to a municipality, or for territory outside the municipality that, in the judgment of the commission, can conveniently be served by the sewerage system thereof, the state may purchase the sewerage system bonds of a sanitary district or districts comprising such territory, or any part thereof, provided the public indebtedness for all purposes within said sanitary district or districts shall not exceed 50 percent of the latest assessed valuation of the assessable property therein.

(4) The commission may authorize municipalities or sanitary districts, or both, to issue sewerage system bonds with the right reserved to them to redeem bonds at par value and accrued interest prior to the final maturity dates of the bonds.

(5) The commission, in its discretion, may authorize deferment of payment of interest upon the sewerage bonds of the municipality or district for a period not exceeding three years, and may provide for the issuance of such bonds with graduated rates of interest.

(6) The commission may adopt rules and regulations specifying the procedure to be

followed by a municipality or sanitary district in availing itself of the provisions of ORS 224.310 to 224.420. [Amended by 1953 c.287 §9]

224.360 Investment limitations not applicable. The limitations of ORS 291.606 to 291.620 with respect to investments by the commission shall not apply to investments made under authority of ORS 224.350 to 224.380. Regardless of the limitations, the commission, until July 1, 1959, may purchase sewerage bonds or other obligations for any other state fund that is subject to investment by the commission. [Amended by 1953 c.287 §9; 1955 c.593 §3]

224.370 Municipality not to assume further obligations. So long as any of the sewerage bonds of the municipality or district are owned by the state, the municipality or district shall not issue other bonds of any character without prior written approval of the commission. [Amended by 1953 c.287 §9]

224.380 Limitations on authority of commission to purchase bonds. The commission may purchase sewerage bonds from a municipality or sanitary district at private sale if the municipality or district does not receive any bids for the bonds, or if bids received therefor are unsatisfactory. General obligation sewer bonds or sewerage system bonds, other than those issued pursuant to applications to pay assessments in instalments, may be purchased by the commission under the provisions of ORS 224.310 to 224.420 only if the revenues of the sewerage system of the issuing municipality or district, or both, after the payment of operation and maintenance expenses, are pledged wholly to the payment of the principal of and the interest upon the said bonds, and the municipality and the sanitary district, if any, served by the sewerage system of a municipality covenant to levy ad valorem taxes upon all of the taxable property within their corporate limits to meet deficiencies in such revenues for such purposes, and only if the combined indebtedness for all public purposes, other than state or federal, within the boundaries of the municipality, including the proposed sewerage system indebtedness, but excluding obligations issued for other utilities that are self-supporting or self-liquidating or are approximately so, does not exceed 50 percent of the assessed valuation of all the property that is by law assessable for state and county purposes within the limits of the municipi-

pality. Notwithstanding that such revenues may have been pledged to the payment of the principal of and the interest upon a particular issue of general obligation bonds owned by the state, the same revenues, with the approval of the commission, may be pledged to the payment of the principal of and the interest on additional issues of such bonds purchased by the state from the municipality or district. The additional issues shall be on a parity with previous issues as to the pledge of such revenues for such purposes. Municipalities may provide that receipts from the payment of assessments levied under authority of chapter 593, Oregon Laws 1955, and the interest thereon shall be applied to payment of the principal of and the interest upon their general sewerage system bonds issued under authority of chapter 593, Oregon Laws 1955, rather than issue Bancroft or assessment bonds pursuant to such assessments. In order to complete the financing of a sewerage system, the commission may purchase issues of general obligation sewerage system bonds of municipalities or sanitary districts, payable only from ad valorem property taxes, provided the issues do not exceed the debt limits specified in this section. If, in addition to the net revenues of the sewerage system of the issuing municipality, the net revenues of the municipally-owned water system of the municipality that may become available in not more than five years from the issue date of the sewerage system bonds also are pledged to the said bonds, and the municipality further covenants to levy ad valorem taxes upon all the taxable property within its corporate limits to meet deficiencies in sewerage system and water system revenues for such purposes, the sewerage system bonds of the municipality may be purchased by the commission, provided the combined indebtedness for all purposes within the boundaries of the municipality, including the proposed sewerage system indebtedness, but excluding obligations issued for other utilities that are self-supporting or self-liquidating or are approximately so, does not exceed 61½ percent of the said assessed valuation of the property within the limits of the municipality. This limitation shall include the ratios of indebtedness to assessed valuation of other subdivisions that overlap the municipality to an extent of more than 50 percent of the assessed valuation of the

municipality. [Amended by 1953 c.287 §9; 1955 c.593 §4]

224.390 State Sewer Bond Revolving Fund. The State Sewer Bond Revolving Fund is created for investment under authority of ORS 224.310 to 224.420 and for payment of costs of the State Bond Commission in carrying out the provisions of those sections. The commission may engage such assistance and incur such expenses as may be necessary for that purpose. The earnings of the revolving fund shall accrue to the General Fund. Moneys repaid to the revolving fund as principal of investments thereof shall be used to replenish said fund and may be used for reinvestment under authority of this section.

224.400 Control of commission over rates, collection of charges and delinquent assessments; budget approval. (1) Each municipality financing the cost of a sewerage system under authority of ORS 224.310 to 224.420 shall submit to the commission for approval a schedule of its rates and proposed method of collection of its sewerage charges. The rates shall be such as, in the judgment of the commission, shall provide sufficient funds with other revenues, if any, and ad valorem property taxes to liquidate, during the period approved by the commission, the indebtedness incurred by the municipality to defray the cost of the sewerage system and its appurtenances. Should the rates prove to be insufficient for such purpose, the commission may direct the municipality to increase the rates to the point at which the sewerage project becomes self-liquidating, and the municipality shall establish forthwith the rates prescribed by the commission.

(2) If the commission so directs, delinquent assessments for sewerage charges shall be certified to the assessor of the county in which the municipality is located and shall be entered upon the tax rolls of the county and be collected and accounted for in the same manner in which city taxes are collected and accounted for. The charges shall constitute liens against the real property of the person against whom they are assessed.

(3) If required by the commission, the municipality shall obtain from the commission approval of the annual budgets and tax levies of the municipality, before they are certified to the clerk and assessor of the

county in which the municipality is located, for extension upon the county tax rolls. [Amended by 1955 c.593 §5]

224.410 Authority to appoint receiver and withhold earmarked moneys on default. If any municipality fails to meet, when due, any obligation sold to the state under authority of ORS 224.310 to 224.420, the commission, with the approval of the circuit court of the county in which the major portion of the assessed valuation of the municipality is located, may appoint a receiver to operate the system. The receiver shall act in his capacity so long as the circuit court deems receivership necessary to protect the interests of the state and of the municipality. In order to insure prompt payment of interest or principal of bonds acquired by the commission pursuant to ORS 224.380, the commission may withhold and apply to the payment of such obligations, any moneys which may accrue to the municipality from state sources. Moneys so withheld shall be repaid to the municipality when the funds with which to meet the obligations for the payment of which funds were withheld are paid by the municipality to the state. The right to withhold said moneys for the purpose provided in this section shall exist only so long as any of the sewerage bonds of the municipality are owned by the state.

224.420 Duty of treasurer to keep funds separate and withhold bond payments; liability of treasurer. The treasurer of each municipality and of each sanitary district that finances the cost of a sewerage system or facilities under authority of ORS 224.310 to 224.420 shall keep collections or assessments for sewerage service separate and distinct from other funds of the municipality and shall withhold from tax receipts not less often than quarterly the full amounts proportionate to the elapsed portion of the tax year that have been levied for the payment of interest on and the principal of the sewerage system bonds of the city or sanitary district. For failure to account for sewerage revenues and taxes as provided in this section, such treasurers shall be liable upon their official bonds. [Amended by 1953 c.287 §9]

224.430 to 224.440 [Reserved for expansion]

224.450 Validation of revenue bonds issued by cities of less than 100,000; sale of bonds to the Federal Government. All bonds

or other obligations issued prior to November 15, 1936, by any city or town of less than 100,000 population, for the purpose of financing in whole or in part the construction, enlargement, extension, repair or improvement of a sewer system, including a sewage treatment or disposal plant and all facilities appurtenant to such system or connected therewith, where such bonds or other obligations are payable or will be payable solely from the gross or net revenues of such sewer system or any part thereof, including the revenues of improvements, additions and extensions thereto which may thereafter be constructed or acquired, as well as the revenues of the existing sewer systems, plants or properties, if any, so enlarged, extended, repaired or improved, and all proceedings for the authorization and issuance of such bonds or other obligations and the sale, execution and delivery thereof, hereby are validated, ratified, approved, authorized and confirmed, notwithstanding that the amount of such bonds or other obligations, together with the amount of bonds or other obligations of such city or town outstanding at the time of the issuance thereof, exceeds or will exceed any limitation or restriction on the amount or percentage of indebtedness or of outstanding bonds or other obligations of such city or town contained in the charter of such city or town or in any general or special law, and notwithstanding any defects or irregularities in such proceedings, and without regard to the fact that such bonds or other obligations may have been issued pursuant to the charter of such city or town or pursuant to any general or special law. Notwithstanding any provision in such proceedings that such bonds or other obligations shall be issued in manner and form satisfactory to the Reconstruction Finance Corporation, or that such bonds or other obligations shall be sold to the Reconstruction Finance Corporation, such bonds or other obligations may be sold to the United States of America, through the appropriate federal officer, agency or instrumentality in manner and form satisfactory to such officer, agency or instrumentality. The bonds or other obligations issued and sold prior to November 15, 1936, are the binding and legal obligations of the city or town issuing them in the actual form in which those bonds and obligations have been issued.

CITIES

CERTIFICATE OF LEGISLATIVE COUNSEL

Pursuant to ORS 173.170, I, Sam R. Haley, Legislative Counsel, do hereby certify that I have compared each section printed in this chapter with the original section in the enrolled bill, and that the sections in this chapter are correct copies of the enrolled sections, with the exception of the changes in form permitted by ORS 173.160 and other changes specifically authorized by law.

Done at Salem, Oregon,
on October 15, 1955.

Sam R. Haley
Legislative Counsel
