(1) "Board" means the Oregon Board of Examiners in Watchmaking and Clockmaking.

(2) "Clockmaking" includes the repairing, replacing, rebuilding, reconditioning, cleaning, adjusting and regulating of the mechanical parts of clocks, and the manufacturing and fitting of parts designed for use or used in nonjewel, lever escapement, pendulum type and mechanical movements in electric clocks, but does not mean the repairing, replacing, rebuilding, reconditioning, cleaning, adjusting or regulating of electric motors or electric circuits in electric clocks.

(3) "Watchmaking" includes the repairing, replacing, rebuilding, reconditioning, cleaning, adjusting and regulating of the mechanical parts of watches, chronometers and time-recording instruments, and the manufacturing and fitting of parts designed for use or used in watches. The term does not include the manufacturing or repairing of watch cases but does include the repairing of any winding mechanism.

695.020 Registration certificate required for watchmakers and clockmakers.

(1) No person shall engage in watchmaking or clockmaking for profit or compensation of any kind without first obtaining a certificate of registration, as provided by ORS 695.010 to 695.100, which certificate shall at all times be conspicuously displayed in the place of business of the registrant.

(2) Unless he is registered as provided in ORS 695.010 to 695.100, no person shall solicit or receive any watch, clock, chronometer or time-recording instrument, for the purpose of his own work or for having the work done by another, unless the person who is to make the repair is a registered watch or clock maker in the employ of the person receiving the instrument, any repairing, replacing, rebuilding, reconditioning, cleaning, adjusting or regulating of the mechanical parts of any chronometer, clock, watch or time-recording instrument, for profit or compensation of any kind.

(3) No person not having a certificate of registration shall hold himself out as a watchmaker or clockmaker or as qualified to do watchmaking or clockmaking.

695.030 Examination required for certificate, scope, re-examinations. (1) An applicant, to be entitled to a certificate, shall pass an examination before the board. The examination shall be confined to such knowledge, practical ability and skill as is essential in the proper repairing of watches, chronometers, clocks and time-recording instruments, as the case may be. It shall include an examination of theoretical knowledge of watch or clock construction and repair, and also a practical demonstration of the applicant's skill in the manipulation of watchmaker's or clockmaker's tools.

(2) The board shall make all necessary rules and regulations for conducting examinations, and shall define the standards of workmanship and skill.

(3) In case of failure at any examination, the applicant shall have the privilege of taking another examination at any other examination period upon the payment of a \$15 fee for watchmakers and a \$10 fee for clockmakers.

695.040 Examination, time and place, applications and fees; applicant's qualifications. (1) Examinations for certificates shall be held at least three times a year at a time and place fixed by the board. Applications for examination shall be filed with the board at least 10 days before the date set for the examination. Applications for watchmakers shall be accompanied by an examination fee of \$25 and applications for clockmakers shall be accompanied by an examination fee of \$15.

(2) The applicant shall be of good moral character, at least 19 years of age, shall possess such general education and knowledge as the board deems necessary and shall have served an apprenticeship of two years or its equivalent as determined by the board.

695.050 Issuance of certificate; reciprocity; renewal of certificates. (1) If the applicant successfully passes the examination, the secretary of the board shall register such fact and shall issue to him a certificate of registration.

(2) A watchmaker or clockmaker in good standing, registered and licensed in another state and having engaged in watchmaking or clockmaking therein for two years immediately preceding his application for a certificate, upon filing with the board satisfactory proof thereof, may, in the discretion of the board, provided the standards in such other state are at least as high as those de-

financed and established by the board, be issued a certificate without examination upon payment of a fee of \$25.

(3) Certificates of registration shall expire on December 31 of each year, and may be renewed for one year upon payment of a fee of \$10. Application may be made for renewal after December 15 each year.

695.060 Apprentice certificates, display, fees. Any person 16 years or over, of good moral character, apprenticed to a registered watchmaker or clockmaker, in accordance with the regulations established by the board, may pursue the trade of watchmaking or clockmaking upon obtaining from the board a certificate of registration as an apprentice. The certificate shall be conspicuously displayed at all times at the place of employment of such apprentice. Apprentice watchmakers or clockmakers shall pay a fee of \$2 for the certificate and shall pay a renewal fee of \$2 annually.
