VOCATIONAL EDUCATION

344.010 Purpose of ORS 344.010 to 344.060. (1) The establishment of vocational schools, departments and classes is necessary for the purpose of providing for the development of vocational education in Oregon to aid in meeting the occupational requirements and demands of agriculture, industry, business and the home; to offer opportunities to youth to select, train for and enter an occupation; to aid in the training and placement of youths on farms and to aid in the rehabilitation of physically disabled persons. ORS 344.010 to 344.060 shall continue and extend vocational education in agriculture, homemaking, trades and industries, and distributive occupations with standard high schools in cooperation with local school districts, assist in the establishment of regional schools, and aid in vocational rehabilitation of physically disabled persons.

(2) The provisions of ORS 344.010 to 344.060 are additional and cumulative to the provisions of any other law now or hereafter existing for vocational education, and shall be interpreted as providing additional powers and not in conflict with or exclusive of the provisions of existing laws on the same subject.

344.020 Regional vocational education facilities authorized. The State Board of Education may establish, operate and maintain, in centers it deems best adapted for the purpose, regional vocational schools, departments or classes, of less than college grade, for instruction in agriculture, homemaking, trades and industries, and distributive occupations, and may maintain any such school, department or class already established.

344.030 State board powers and duties as to ORS 344.010 and 344.020. The State Board of Education may make rules and regulations controlling the admission of students to any regional vocational school, department or class. The board may appoint and remove teachers; make rules for the management of and expend the funds provided for the support of such regional schools; repair, improve, lease or rent buildings for furthering the vocational program; purchase furniture, equipment, implements, materials and supplies; provide for the vocational rehabilitation of physically disabled persons and have such other duties and powers as are necessary to carry into effect the purposes stated in ORS 344.010. The

board shall make a biennial report to the legislature covering the condition, activities and financial affairs relating to such regional facilities.

344.040 School district powers as to regional facilities; local committee. Any school district in which a regional vocational school has been established or is to be established under ORS 344.020 may appropriate funds for maintenance, improvement, leasing or construction of buildings for such schools, and the district may purchase, receive, hold and convey any property, build and repair schoolhouses, levy taxes, and make contracts for the accommodations of such vocational schools, departments or classes. The State Board of Education shall appoint a committee from the area contiguous to any school to advise the board on matters pertaining to conducting the school.

344.050 Funds for vocational education; reimbursement to high schools. (1) There shall be made available for the purposes set forth in ORS 344.010 and for establishing, operating and maintaining regional vocational schools, departments or classes under ORS 344.020, all funds now or hereafter provided for vocational education.

(2) If funds are available therefor, reimbursement to standard high schools shall not be less than that made for the fiscal year 1939-1940.

344.060 Federal funds; gifts and donations. (1) The State Board of Education may:

(a) Accept from the United States of America or any of its agencies such funds as may be made available to this state for any of the purposes contemplated by ORS 344.010 and 344.020, and may enter into such contracts and agreements with the United States of America or any of its agencies as may be necessary, proper and convenient, not contrary to the laws of this state.

(b) Accept any grant or donation of land or any gift of money or other valuable thing made to the state for any of the purposes contemplated by ORS 344.010 and 344.020.

(2) Any funds received from the United States Government or any of its agencies, or from any other sources for any of the purposes contemplated by ORS 344.010 and 344.020, hereby are appropriated for such purposes.

344.070 School district revolving accounts for federally-sponsored education or training; advances; uses. (1) The Secretary of State may draw warrants upon any state fund to which federal funds for training or education have been credited, in payment of vouchers approved by the State Board of Education, in favor of first class school districts and high school districts, for such sums, not exceeding \$100,000 for a single district in the aggregate, as the state board, by duly adopted resolution, shall determine. The warrants, upon delivery thereof to the school districts, shall constitute advances from such state funds for the purpose of enabling the districts more readily to effectuate the purposes set forth in any federal law or regulation pertaining to vocational education or training of war workers, or other education or training sponsored by the Federal Government.

(2) The districts to which such moneys are advanced shall be responsible for the full repayment to the state of all sums advanced. The advances shall not be considered to be within any limitation upon any indebtedness prescribed by law for school districts of this state. The funds so disbursed to school districts shall not exceed in the aggregate the moneys to the credit of the state fund from which they are paid, and shall constitute advances to the recipient school district, in anticipation of verified vouchers to be supplied therefor. The advances are to be used as revolving funds for the payment of the costs of vocational training programs. The advances may be made only in those cases in which the Federal Government defrays all or part of the cost of such programs.

344.080 Reimbursement vouchers; accounts and records; bond. (1) All reimbursement vouchers for claims paid from the revolving funds mentioned in ORS 344.070 shall be approved by the State Board of Education or by such person as the board, by appropriate and duly recorded action taken at a meeting thereof regularly called and held, shall designate, and shall be audited by the Secretary of State. When vouchers are so approved and audited, warrants covering the same shall be drawn by the Secretary of State, payable from the appropriate fund, and be used to reimburse the revolving funds.

(2) The school districts receiving such advances shall maintain their accounts and records so as to disclose at all times the

true status of the unpaid vouchers issued for the reimbursement of said funds, the school district warrants drawn against the funds advanced and the balances to the credit thereof.

(3) The revolving funds and accounts shall be subject to examination and audit by the state in the manner provided by law for other state funds and accounts. The State Board of Education may require an audit of the revolving accounts and shall take proper precautions as to the safety of, and accountability for, all funds advanced.

(4) The State Board of Education may require the filing with it of a bond of a corporate surety duly licensed to transact business in this state to insure the proper handling of and responsibility for any funds advanced. The bond shall be cumulative and supplemental to fidelity insurance coverage already held by the school district concerned. The state may have recourse to any and all fidelity bonds of clerks or other financial officers of the district to protect such advances.

344.090 Procedure when training programs are no longer needed, or when advances are improperly handled or accounted for. When it appears to the State Board of Education that the training and educational programs for which funds are advanced under ORS 344.070 have been completed, or that the need for such advances or revolving funds no longer exists, or that the sums advanced are not being properly handled or accounted for, the board, by appropriate and duly recorded action taken at a meeting regularly called and held, may require that all or part of the amounts advanced to any school district shall be returned, with any interest earned, to the state funds or accounts from which the amounts originally were withdrawn. Upon receipt of notification from the board that funds advanced are to be returned, the school district concerned shall immediately repay the same to the State Treasurer, for credit to the proper fund or account. To the extent that funds advanced are so repaid, security or protection theretofore required by the board to insure the safety of such funds may be released.

344.100 Acceptance of provisions of federal vocational education Act. The State of Oregon hereby accepts all provisions and benefits of an Act of Congress entitled "An act to provide for the promotion of vocational education; to provide for cooperation

with the states in the promotion of such education in agriculture and the trades and industries; to provide for cooperation with the states in the preparation of teachers of vocational subjects; and to appropriate money and regulate its expenditure."

The State Treasurer is designated and appointed custodian of all moneys received by the state from the appropriation made by the Act of Congress accepted by ORS 344.100. He is authorized to receive and provide for the proper custody of the moneys and to make disbursements thereof in the manner provided in that Act and for the purposes therein specified. He shall also pay out of any moneys appropriated for vocational education purposes by the State of Oregon upon the order of the State Board of Education.

344.120 Audit and payment of claims approved by board. The Secretary of State shall audit all lawfully incurred claims duly approved by the State Board of Education, including all claims to be paid from the moneys received by the state from the Federal Government for vocational education purposes and for which the State Treasurer is made custodian, and shall draw his warrants on the State Treasurer in payment thereof out of the proper appropriations or funds.

344.130 Cooperation by district school boards to establish vocational training. Any district school board may cooperate with the State Board of Education in establishment of vocational schools or classes giving instruction in agricultural subjects, the trade or industrial subjects, or in home economics subjects, and may use any moneys raised by public taxation in the same manner as moneys for other school purposes are used for the maintenance and support of public schools.

344.140 Special Vocational Trust Fund. There is created a Special Vocational Trust Fund. The State Board of Education shall deposit in such fund all gifts, contributions and bequests for vocational education and moneys received as reimbursements for funds theretofore expended. The State Board of Education may expend said fund for the promotion, development and carrying on of vocational education in such manner as the

board shall direct. All claims after being approved by the State Board of Education shall be audited by the Secretary of State and paid out of said fund.

The State Board of Education shall maintain detailed accounts of such revenues to and disbursements from such fund. [1955 c.632 §2]
