It is further declared that the cattle industry of this state is affected with a public interest in that, among other things:

(a) The production, processing, manufacture and distribution of beef and beef products constitute a paramount industry of this state which not only provides substantial and required revenues for the state and its political subdivisions, and employment and a means of livelihood for many thousands of its population, but also furnishes essential foods that are vital to the public health and welfare.

(b) The stabilization, maintenance and expansion of the cattle industry of Oregon, and of the state, nation-wide and foreign markets for its products, are necessary to assure the consuming public an adequate supply of foods which are indispensable in a proper human diet, to protect, for the state and its political subdivisions, a necessary source of tax revenue, to provide and maintain an adequate standard of living for a great segment of the population of this state, to maintain proper wage scales for those engaged in the cattle industry and to maintain existing employment.

(c) The essentiality of beef and beef products in a proper human nutrition and to the maintenance of a high level of public health is such as to require that the public

be made thoroughly aware thereof, and be protected against misrepresentation and deception, by the dissemination of accurate and scientific information relative to the healthful qualities of beef and beef products, their various classifications and the food values and industrial and medicinal uses thereof, the methods, care and precautions necessary to their proper production, processing, manufacture and distribution, and the necessary costs and expenses thereof, and the necessity and desirability on the part of the public of using and consuming beef and beef products of the highest standards of quality.

(2) The purposes of this chapter are:

(a) To enable the cattle industry, with the aid of the state, to develop, maintain and expand the state, nation-wide and foreign markets for beef and beef products produced, processed or manufactured in this state, and the use and consumption of such beef and beef products therein.

(b) In aid, but not in limitation, of the purpose in paragraph (a) of this subsection, to authorize and enable the council to formulate and effectuate, directly or in cooperation with other agencies and instrumentalities specified in this chapter, sales stimulation and consumer or other educational programs designed to increase the use and consumption of beef and beef products.

The department shall provide a period of not less than 20 days during which such persons may register. Only the names and addresses of the persons who register are public record. The department thereafter shall compile and file the list of persons eligible to vote, in the Salem office of the department and may publish such list as it deems necessary for the benefit of producers.

[1961 c.384 §8]

**577.835 Determining result of referendum; filing declaration of result.** (1) The department, in accordance with the provisions of ORS 577.840, shall declare the council to be discontinued if more than two-thirds of the persons voting in an election called under the provisions of ORS 577.806 to 577.845 voted against continuance of the Oregon Beef Council, and further providing that the total voting persons in the referendum are currently producing more than one-third of the total number of cattle produced in Oregon during the calendar year preceding the year in which the election is held.

(2) In determining as of the date of the referendum, the total number of cattle each person voting is "currently producing," the department in its discretion may base its decision upon the answer it receives by the person voting on such question, which question may be made a part of the ballot or attached thereto, or by another reliable procedure or method.

(3) In arriving at the total number of cattle produced in Oregon during the calendar year preceding the year in which the election is held, the department may take into consideration the statistics and information furnished by the United States Department of Agriculture, Oregon State University and oth-

er governmental agencies, as of any given date or on any other fair and reasonable basis.

(4) Within 15 days after the close of the period during which a referendum is held, the department shall file with the Secretary of State a declaration of the result of such referendum. The Secretary of State shall file or record such declaration.

Notwithstanding the provisions of ORS 577.410, before the termination of such activities, any funds remaining in possession of the council may be expended as authorized by ORS 577.290 and any funds remaining thereafter shall be paid to the Department of Agriculture to be expended by the department in a manner which will best carry out the purposes of this chapter.
