670.010 Waiver of educational requirement for admission to examination for license or certificate to practice profession, trade or calling. Any state board or commission that examines applicants for license or certification to practice a profession or engage in a trade or calling may, in its discretion, waive the educational requirement for admission to such examination, provided that the applicant furnishes evidence satisfactory to such state board or commission that he meets all the following conditions:

(1) That he is probably to be called into service with the Armed Forces of the United States, or any auxiliary corps thereof, within a period of six months from the date of the examination and before the date of the next regularly scheduled examination.

(2) That he is currently enrolled in a school, college or university approved by such state board or commission and that he will satisfy the educational requirement for admission to such examination on satisfactory completion of courses for which he is currently enrolled and that this educational requirement will be met not later than two calendar months from the first day of the month following the month in which the examination is given.

[1953 c.103 §1]

670.020 Filing evidence of completion of educational requirements after taking examination. (1) Evidence of completion of the educational requirement waived as provided in ORS 670.010 shall be filed with such state board or commission not later than two calendar months from the first day of the month following the month in which the examination is taken. State boards and commissions shall withhold official certification of the successful completion of the examination until such evidence is furnished. The affidavit of the registrar or administrative head of the school, college or university shall be deemed satisfactory evidence.

(2) If any candidate admitted to an examination as provided in ORS 670.010 shall fail or neglect within said period to present satisfactory evidence of the completion of the educational requirement for such examination, then the completion of the examination by such candidate shall be null and void, and of no effect. The state board or commission which examined him, however, shall retain any examination fee paid by the candidate.
