GENERAL PROVISIONS

341.005 Definitions. As used in this chapter and in ORS 328.245 and 352.370, unless the context otherwise requires:

(1) "Board" means the board of education of a community college district.

(2) "Board member" means a member of the board of education of a community college district.

(3) "Community college" means a public institution operated by a community college district for the purposes of providing courses of study limited to not more than two years' full-time attendance and designed to meet the needs of a geographical area by providing educational services, including but not limited to vocational or technical education programs or lower division collegiate programs.

(4) "Community college district" or "district" means a district formed under this chapter to operate one or more community colleges or to secure educational services available at a community college.

(5) "County fiscal officer" means the county treasurer or county fiscal officer of the county in which the chief administrative officer of the community college district maintains his office.

(6) "Full-time student" means a student who carries for three terms, each of which provides for not less than 10 weeks or its equivalent of instructional time:

(a) Fifteen term hours per week in lower division collegiate courses; or

(b) Twenty clock hours per week of other instruction.

(7) "Operating expenses" means the sum of the expenditures of a community college district for administration, instruction, necessary student services, operation and maintenance of plant and fixed charges, as determined in accordance with the rules of the State Board of Education.

(8) "Petitioning territory" means a community college district petitioning to have an area outside the district included in the district or to have an area inside the district excluded from the district, or an area outside the district petitioning to be included within the district.

(9) "Principal county" means the county in which the chief administrative officer of the community college district maintains his office.

(10) "Qualified voter" means any person who has registered under the general election laws at least 30 days before the election.

(11) "State board" means the State Board of Education.

(12) "Term hour" means a 50-minute period of course work a week per student for approximately one-third of a school year. [Formerly 341.510; 1971 c.513 §1]

341.009 Policy. The Legislative Assembly finds that:

(1) The community college is an educational institution which is intended to fill the institutional gap in education by offering broad, comprehensive programs in academic as well as vocational-technical subjects. It is designed to provide terminal two-year programs for some, serve a transitional purpose for others who will continue college work and serve to determine future educational needs for other students. For adults it can provide means for continuation of their academic education, vocational training or the attainment of entirely new skills as demands for old skills and old occupations are supplanted by new technologies.

(2) Each community college should be so located as to be within commuting time of a substantial majority of its students. As an economical method of providing education close to the student's home, the community college should remain a commuting institution.

(3) The community college should not follow the established organizational patterns of other secondary and higher education institutions in order to maintain a unique quality of flexibility, the ability to change to meet changing needs.

(4) The community college is a post-high school institution under the general supervision of the State Board of Education. It should not be a "starter" institution intended to evolve into a four-year baccalaureate institution. It should be concerned with programs terminating after two years or less, with exceptions made only for certain curricular offerings of a technical nature which may require more than two years for completion.

(5) The community college should continue to be prohibited by law from becoming a four-year institution.

(6) Admission to the community college should be open to high school graduates or to non-high school graduates who can profit from the instruction offered.

(7) There should be close cooperation between those directing the community college program and those responsible for higher

education, so that lower-division college transfer programs of the community college will provide adequate preparation for entering four-year institutions, and so that students will be able to transfer with a minimum of difficulty.

(8) The community college should offer as comprehensive a program as the needs and resources of the area which it serves dictate. Cost to student and quality of instruction in established private institutions should be among the factors in determining necessary duplication of effort.

(9) It should be the policy of the community college to open its facilities to the high schools of its area on a sound contractual basis, for appropriate secondary courses, either academic or vocational, when it is within its ability to provide facilities and it is determined that the high school cannot or does not offer them.

(10) To establish programs designed to meet the needs of the area served, surveys of the educational and service needs of the district should be made. Specific technical and vocational courses should be related not only to the employment opportunities of the area but of the state and nation as well. Such determination should be made in consultation with representatives of labor, business, industry, agriculture and other interested groups.

(11) The State Board of Education should be responsible for coordinating the community college program of the state and should have general supervisory responsibilities for that program. The State Board of Education should prepare estimates and make the requests for legislative appropriations for a reasonable and consistent basis of support and establish standards for the distribution of that support.

(12) The initiative for the establishment of new community colleges should come from the localities to be served, as a response to demonstrated educational needs of an area. However, these localities must not only be willing to assume the responsibility for the institutions but must be able to provide resources needed for an adequate educational and service program.

(13) The governing board of the community college should be charged with the policy-making function. With respect to educational programming, the governing board should in cooperation with the State Board of Education: (a) Identify educational needs

of the district; and (b) bring together the resources necessary to meet the needs.

(14) The state should maintain a policy of substantial state participation in community college building costs and the maintenance of an adequate level of state support for operation. However, no state funds should be appropriated for buildings such as dormitories or athletic facilities for spectator sports. In the event that students from beyond commuting distance attend a community college, housing should be noncampus. The operating district should provide a substantial portion of the funds for capital improvement as well as for operation of a community college.

(15) State appropriations for community colleges should be made separately from those for other segments of education.

(16) The formula for the distribution of funds for operating costs should reflect the heavier operating costs and capital outlay for certain vocational-technical courses. Federal funds received for vocational-technical training should be used for that purpose only and be distributed separately from funds appropriated by the state and should be exempted from the computations of the present distribution formula for operating costs.

(17) The cost of education to the individual should be sufficiently low to permit students of low-income families to attend. This is particularly true of tuition costs. However, students should pay an amount sufficient to provide an incentive to profit from the instructional program offered.

(18) Any eligible Oregon resident should have the right to attend a community college even though not residing in a district operating one, subject to the right of the governing board to limit the size of classes and to give preference to students residing in the district. Local districts should have the authority to negotiate the terms and conditions with the governing boards for the enrollment of students residing in such local districts.

(2) The petition must be substantially in the form established by the state board which shall furnish the petition form and:

(a) Must contain the minimum number of signatures fixed by the state board of 500, or 10 percent of the qualified voters, whichever is the lesser from each county or part of a county within the designated territory;

(b) Must designate the boundaries of the territory to be included in the proposed district which may include all or part of the territory lying within the boundaries of a school district that maintains a community college and may be located in more than one county;

(c) Must request that the territory be organized into a district;

(d) May specify or reserve the right to specify the location for the proposed community college or may request the state board to determine the location;

(e) Must specify the method of election of the board of education of the proposed district from among the methods described in ORS 341.327;

(f) May specify that the proposed community college limit its vocational education offerings or lower division college program to those provided pursuant to a contract entered into with another community college district, an independent college or university, the State Board of Higher Education, a private vocational school or a public school district; and

341.037 Limits on authority of district that provides program through contract; mode of terminating limitations. (1) Any community college district for which the petition of formation specified the material described in paragraph (f) of subsection (2) of ORS 341.025 is not authorized to issue bonds or purchase real property.

(2) At any regular district election held not sooner than three years after the formation of a community college district that provides its courses through contract, the district board may submit to the qualified voters of the district the question of whether the district shall continue to provide courses through contract or shall commence to provide courses directly. If the qualified voters of the district authorize the providing of courses directly by the district, the district may exercise all of the powers vested in a community college.

[1971 c.513 §74b]

341.040 [Repealed by 1965 c.100 §456]

341.045 Feasibility study; hearing. (1) The state board shall examine the petition to determine whether it is complete. If the petition is complete and if formation of the district is consistent with the overall plan for all education in the state, the state board shall undertake a study of the feasibility of a community college in the geographical area proposed by the petition, including but not limited to:

(a) Educational needs of the area.

(b) Potential enrollment levels.

(c) Size and duration of a serial levy or size of a tax base required to meet the local share of operating and capital expenses.

(d) Relationship of proposed district to the overall plan for all education in the state.

(2) Upon completion of its study, the state board shall set a date for a public hearing on the petition and study and shall give notice of the hearing in the manner provided in ORS 341.357.

(3) The notice of hearing shall state:

(a) A study has been conducted on a proposed district.

(b) The boundaries of the proposed district.

(c) Whether the proposed community college district specifies providing its courses through contract with agencies authorized to enter into such contracts.

341.050 [Repealed by 1965 c.100 §456]

341.055 Hearing; alteration of proposed boundaries. (1) At the time designated in the notice, the state board or its authorized representative shall conduct a public hearing on the study and may adjourn the hearing from time to time. The state board may alter the boundaries set forth in the petition submitted under ORS 341.025 to include all territory the residents of which will be materially benefited by formation of the community college district as determined by its study. The state board shall not modify the boundaries of the district as set forth in the petition so as to exclude from the district any territory the residents of which will be materially benefited by formation of the district, nor may there be included in the proposed district any territory the residents of which will not be materially benefited.

(2) If the board concludes that any territory has been improperly included or omitted from the proposed community college district and that qualified voters within the included or omitted territory have not appeared at the hearing, the board shall continue further hearing on the study and shall order notice given to the nonappearing qualified voters requiring them to appear and show cause why their territory should not be excluded or included in the proposed district. The notice shall be given either in the same manner as notice of the original hearing was given or by personal service on each nonappearing qualified voter. If notice is given by personal service, such service shall be made at least 10 days prior to the date fixed for the hearing.

341.065 Dismissal of petition. If, in the opinion of the state board, the study and the testimony presented at the hearing or hearings held under ORS 341.055 indicate that the formation of a community college district as petitioned is not warranted under the policies set forth by Senate Joint Resolution 5 (Fifty-third Legislative Assembly, Regular Session), the state board shall order dismissal of the petition. An appeal from this order may be taken within 60 days in the manner provided in ORS 183.480.

[1965 c.238 §2; 1967 c.465 §3; 1969 c.673 §4]

If no appeal from this recommendation is filed within 60 days after the date of the recommendation, the recommendation becomes final.

(2) If an appeal is filed, the recommendation becomes final on the date the recommendation is affirmed by the court. 341.085 Election to establish district. (1) An election for the purpose of presenting the question of formation of a district and establishing a tax base or authorizing a serial levy therefor, or both, and the boundaries of the zones, if the zones were recommended by the state board, shall be held to submit the question to the qualified voters of the proposed district designated in the recommendation of the state board. The election shall be held not less than 30 nor more than 90 days after the effective date of the appropriation required by ORS 341.102. The election date shall be uniform throughout the proposed district, and shall be set by the state board. However, if the question of establishing a new tax base is to be submitted, the election must be held on the same date as the next regular primary state-wide election or the

next regular biennial state-wide general election, as determined by the state board. Notice of the election shall be given in the manner provided in ORS 341.357. The state board shall make all necessary arrangements for the election, including provisions for election chairmen, size and location of precincts and location and number of polling places and shall pay all expenses therefor from funds appropriated therefor under ORS 341.102. 341.095 Election shall include question of tax base or serial levy and may include question of organizational expense. (1) The state board shall include as a part of the election called for formation of a district the question of a tax base therefor or the question of a serial levy for not to exceed five years, or both, to finance the district's share of operating and capital expenses. The amount of the tax base or serial levy shall be specified by the state board as a result of its study and the hearing held under ORS 341.055. The state board may also include the question of incurring indebtedness to pay organizational expenses of the district between the time the district is approved and the first budget is adopted. If the question of incurring indebtedness is approved, the district may borrow money on its negotiable, short-term, promissory notes in an aggregate amount not to exceed the limit approved at the election and may, notwithstanding ORS 294.326, expend such money without the preparation and adoption of a budget.

(2) In preparing its first budget, the board of the district shall provide for the repayment of the indebtedness incurred for organizational expenses under subsection (1) of this section.

[1965 c.129 §2; 1969 c.673 §10; 1971 c.513 §77]

(2) Poll books are required to be used at district elections. Persons voting in district elections shall be required to sign the poll book.

[Formerly 341.770; amended by 1969 c.673 §11; 1971 c.513 §78]

341.115 Election results; proclamation.

When the polls are closed each election board shall certify and report the results to the state board which shall canvass the vote. If the vote is in favor of the formation of the community college district and establishes a tax base for the district or authorizes a serial levy, whichever question was submitted to the voters under ORS 341.095, the state board shall proclaim not later than the second regular meeting of the state board following the receipt of the tabulation of the votes that a community college district has been formed and shall furnish any affected county assessor with a copy of the proclamation. If the location of the community college or zone boundaries are specified on the ballot, and the vote favors formation, the state board shall include such location and boundaries in its proclamation. If the vote is in favor of the formation of a community college district but opposed to establishment of a tax base or the authorization of a serial levy in the amount submitted, the district shall not be formed.

[Formerly 341.780; amended by 1969 c.673 §13]

341.125 First board. (1) The first board of education of a district shall be elected at the same election as the election at which votes are cast for the formation of the district. Nominations for the board of education positions to be filled by nomination and election at-large shall be made by petition requesting that such person's name be placed on the ballot and signed with the signatures of at least 50 qualified voters residing in the proposed district. If the district has been

The petition shall be presented to the state board at least 70 days prior to the election. Upon receipt of petitions which comply with applicable law, the state board shall cause the names of such nominees to be placed upon the ballot.

(2) Seven members shall be elected to the first board, four to serve terms of four years and three for two years. The terms of office of the members of the first board shall be computed from the date of June 30 subsequent to the date of their election, but the members shall take office immediately following the election. If for any reason a district is not formed, the election of board members for that proposed district is void.

(3) If the district has been zoned, the state board shall designate the positions to be nominated or elected by zone and shall specify the length of the term to be served by each member of the first board elected by zone.

(4) The length of the term of office of members of the first board elected at-large shall be determined in accordance with the number of votes each receives in the election. Those receiving the highest number of votes may serve the four-year terms, subject to any term designations made by the state board under subsection (3) of this section.

341.165 Establishment of zones. He shall cause the bonds to be delivered promptly to the purchasers thereof upon payment therefor, and if the place of delivery is outside the city in which the county fiscal officer's office is situated, the cost of delivery of the bonds shall be paid by the issuing district.

(2) The county fiscal officer shall hold the proceeds of the sale of all bonds for the community college district subject to the order of the board of the district to be used solely for the purpose for which the bonds were issued. The county fiscal officer is authorized to deliver the proceeds of the sale of the bonds to the person designated as custodian of the community college district funds under ORS 341.703.

(3) When the bonds have been so executed, registered and delivered, their legality shall not be open to contest by the community college district, or by any person for or on its behalf, for any reason whatever.
[1971 c.513 §44]

341.690 Tax levy to meet annual bonded indebtedness; bond sinking fund. (1) The board of the district shall ascertain and levy annually, in addition to all other taxes, a direct ad valorem tax on all the taxable property in the district, sufficient to pay the maturing interest and principal of all community college district bonds outstanding promptly when and as such payments become due. The amount of the tax may be increased by an amount sufficient to retire any bonds which may be callable. The board shall annually file a copy of its budget and levies with the county fiscal officer. The board shall in each year include such taxes in the district budget for such year. Such taxes shall in each year be certified, extended upon the tax rolls and collected by the same officers in the same manner and at the same time as the taxes for general district purposes.

(2) The funds derived from such tax levies shall be retained by the county fiscal officer without being paid to the district or to any officer thereof, and shall be kept by him in a separate fund to be known as and designated "_____ Community College District Bond Interest and Sinking Fund," which shall be irrevocably pledged to and used solely for the payment of the interest accruing on and the principal of the bonds when due, so long as any of the bonds or the coupons thereto appertaining remain outstanding and unpaid. The interest earnings of such fund shall be credited thereto and become a part thereof. For failure to retain and account for such funds, as provided in this section, the county fiscal officer shall be liable upon his official bond.

(3) The fund shall not be diverted or used

for any other purpose; but if a surplus remains after all interest and principal have been paid on all community college district bonds then outstanding and unpaid, the surplus may be transferred to such other fund as the board of the district may direct.

(4) If the tax required by subsection (1) of this section is not levied by the board of the district, the county fiscal officer shall certify the county share, based on the proportion of the assessed valuation of the community college district located in the county, to the governing body of each county in which territory of the district is located which shall then levy a tax on all taxable property within the county that is in the district sufficient to raise the required amount.

(5) The county assessors shall extend the tax so levied upon the county tax rolls for such district. The county sheriffs shall collect this tax and pay the sums collected into the fund kept by the county fiscal officer pursuant to subsection (2) of this section.
[1971 c.513 §45]

341.693 Payment of bond principal and interest. (1) The county fiscal officer must cause to be paid out of any money in his hands belonging to the community college district, the interest on or principal of, as the case may be, any bond issued by the district promptly when and as the same becomes due at the place of payment designated in such coupons or bonds. All coupons or bonds so paid must be immediately reported to the board of the district.

(2) The county fiscal officer shall not be required to remit to the purchaser of any bonds or coupons the amount necessary to redeem them until the day such bonds or coupons are due.
[1971 c.513 §46]

341.695 Bond redemption procedure. (1) Whenever the sinking fund mentioned in ORS 341.690 equals the amount, principal and interest, of any bond then due or subject at the option of the district to be paid or redeemed when authorized by the board of the district, the county fiscal officer shall notify the holder of such bond and publish a notice in the newspaper published in the district in compliance with ORS 193.010 to 193.100. The notice shall state that the county fiscal officer will, within 30 days from the date of the notice, redeem and pay any such bond then redeemable and payable, giving priority according to the date of issuance numerically.

Upon presentation of any such bond at the place of payment specified therein, the county fiscal officer shall cause the bond to be paid. If any holder of such bond fails to present it at the time mentioned in the notice, the interest thereon shall cease, and the county fiscal officer shall thereafter pay only the amount of such bond and the interest accrued thereon up to the last day of the time of redemption mentioned in the notice.

(2) When any bonds are so redeemed or paid, the county fiscal officer shall cause the same to be canceled and write across the face thereof "redeemed" and the date of redemption, and shall deliver it to the board of the district, taking its receipt therefor.

[1971 c.513 §47]

341.697 Refunding bonds. (1) Whenever any community college district has any outstanding bonded indebtedness, which is due or subject at the option of the district to be paid or redeemed, the district, by and through the board of the district, may:

(a) Issue and exchange, for any such indebtedness, its bonds bearing not to exceed seven percent (.07) per annum; or

(b) Issue and sell such bonds and apply the proceeds of such sale in payment of the indebtedness for the payment of which the refunding bonds are proposed to be issued.

(2) Refunding bonds issued under subsection (1) of this section shall in all respects conform to, and be governed, as to their issue, by ORS 287.008, subsection (3) of ORS 341.675, ORS 341.679 and 341.681 regardless of the exemption by ORS 287.008 of bonds issued to refund outstanding bonds.

(3) The refunding of indebtedness and issuing of bonds for such purpose shall not require an election, but may be done by resolution of the board of the district at any legally called board meeting. The debt limitations imposed by law shall not affect the right of any district to issue refunding bonds under authority of this section. The validity of any bonds so issued, or of the indebtedness thereby refunded, shall not thereafter be open to contest by the district, or by any person, for or on his behalf, for any reason whatever.

[1971 c.513 §48]

341.701 Advertisement of bond sale; bids; bonds to be sold at par. All bonds, including funding and refunding bonds, shall be advertised for sale in accordance with the provisions governing publication of notices in ORS 341.357. All bids shall be in writing and

publicly opened at the time and place specified in the advertisement, and the bonds shall be sold by the board to the highest bidder. If the bids are not satisfactory the board may reject any or all of them and readvertise as provided in this section. Bonds shall be sold for no less than par and accrued interest.

[1971 c.513 §49]

(Custody and Expenditure of Funds)

341.703 Custodian of funds; depositor-ies; signature on checks; warrants as checks.

(1) The board of a community college district shall designate a custodian of funds of the district. Funds shall be disbursed only in the manner provided by subsection (3) of this section.

(2) For the purpose of receiving deposits of community college funds, the board of the district shall designate such bank or banks within the county or counties in which the district is located, as the board deems safe and proper depositories for district funds. The custodian designated under subsection (1) of this section shall not be liable personally or upon his official bond for moneys lost by reason of failure or insolvency of any bank which becomes a depository under this subsection.

(3) When funds are available for payment, district obligations shall be paid by check bearing the original signature of the custodian of the district funds; or if authorized by the board of the district, the custodian's facsimile signature.

(4) Where a statute specifies a warrant as the means by which district obligations shall be paid, warrant means "check" if funds are available for payment.

[1971 c.513 §50]

341.705 Warrant procedure. (1) As used in this section, "community college district obligation" includes salaries of district employes and other regularly contracted services.

(2) Warrants in payment of district obligations shall be issued only when there are insufficient funds to pay the warrant and shall be indorsed "not paid for want of funds." Warrants may be issued at the end of each month, if necessary. Warrants shall not be issued without a vote of the board of the district. They must be signed by the chairman of the board and countersigned by the district clerk. If the chairman is absent or unable to

execute the warrants, the board may authorize any member of the board to act as chairman in executing the warrants.

(3) Unless the board of the district has designated a lower rate of interest, which rate must appear on the face of the warrants, warrants indorsed "not paid for want of funds" shall draw interest at a rate not to exceed seven percent (.07) from date of indorsement until called.

(4) Funds becoming available for payment of warrants indorsed "not paid for want of funds" shall be applied in payment in the order in which the warrants were so indorsed.

(5) At the last regular school board meeting of the district preceding July 1 in each year, the district clerk shall certify to the board a list of all district warrants which were called for payment more than seven years prior to July 1 next following the meeting, and which have not been paid. The certification shall state the amount of each of such warrants, to whom issued, and date of issuance. The board of the district shall cause notice to be published in some newspaper having a general circulation in the district. The notice shall contain a statement that if such warrants are not presented for payment within 60 days from July 1, they will be canceled, and payment thereof will be refused.

(6) At the first regular meeting of the board in each district after the expiration of 60 days from July 1 in each year, the board shall make an order that all such warrants which have not been so presented for payment, describing them, shall be canceled and the board shall so cancel.

(7) Nothing in this section prohibits a board from paying, upon any claim arising from the canceling of any such warrant, the principal of the warrant when presented without interest if not indorsed for want of funds and, if indorsed for want of funds, with interest to the date such warrant was called. [1971 c.513 §52]

(Audits)

341.709 Annual audit required. (1) The board of a community college district shall cause to have prepared an annual audit of the books and accounts of the district, including but not limited to student body funds, athletic funds, cafeteria funds, and other similar funds collected by the college. The audit statements must be filed with the administrative office for the district on or before November 1 of the year in which the audit is conducted.

(2) Accountants employed under this section must be selected from the roster of authorized municipal accountants maintained by the State Board of Accountancy under ORS 297.670.

(Notes)

341.715 Short-term promissory notes authorized. (1) The board of a community college district may contract indebtedness by the issuance of short-term promissory notes for the purpose of meeting current expenses, retiring outstanding bonds or warrants, or paying the interest thereon, whenever provision therefor has been made in its duly adopted budget. In the exercise of the authority given in this subsection, the board may contract or refund short-term loans which shall at no time exceed in the aggregate 80 percent of the ad valorem taxes upon real and personal property theretofore levied and remaining uncollected for such district for the tax year in which the notes are issued and 80 percent of other budgeted and unpledged revenues which the board estimates will be received from other sources during such tax year.

(2) The board of a district may, at its option, borrow moneys pursuant to this section or ORS 287.402 to 287.432.

(3) The board of the district in which indebtedness was incurred under this section shall levy an annual tax on all taxable property in the district sufficient to meet the interest payments and retire the indebtedness, but no tax shall be necessary where other provisions are made for payment of the indebtedness.

AID FOR CONSTRUCTION

341.915 "Construction" defined. As used in ORS 341.915 to 341.950, "construction" means the construction of new facilities, purchase, expansion, modernization, remodeling or alteration of existing facilities, initial or additional equipment, including planning, engineers', architects' and legal counsels' fees, and all other expenses incidental to construction, but excluding the cost of acquisition of land and site development.
[1967 c.433 §9]

341.916 [1963 c.483 §3; 1965 c.100 §318; renumbered 341.175]

341.920 [1961 c.601 §1; repealed by 1965 c.100 §456]

341.925 Amount to which district eligible; credits; advances. (1) As used in this section:

(a) "Full-time equivalent students" means the total of Oregon resident full-time equivalent students, as computed under the provisions of ORS 341.005, enrolled in courses for which the state makes reimbursement under ORS 341.625.

(b) "State approved construction rate" means the following for the period of time indicated:

(A) July 1, 1965, through December 31, 1966, \$2,000 per full-time equivalent student;

(B) January 1, 1967, through December 31, 1970, \$2,400 per full-time equivalent student;

(C) On and after January 1, 1971, \$3,200 per full-time equivalent student.

(c) "State reimbursement rate for construction" means the following for each period of time indicated:

(A) July 1, 1965, through December 31, 1966, \$1,300 per full-time equivalent student;

(B) January 1, 1967, through December 31, 1970, \$1,560 per full-time equivalent student;

(C) On and after January 1, 1971, \$2,080 per full-time equivalent student.

(d) "Approved construction cost" means the dollar amount of the construction contract less any portion thereof reimbursed or otherwise funded by federal funds, or that portion of the remainder approved by the State Board of Education, whichever is the lesser, modified by change orders approved by the State Board of Education as provided in subsection (1) of ORS 341.945.

(e) "State payment" means the dollars paid to date by the state for construction purposes on the approved construction cost of a given project.

(f) "Full-time equivalent students housed" means the state dollars paid on a given project divided by the state reimbursement rate for construction applicable during the period in which the construction contract on that project was awarded.

(g) "Full-time equivalent students to be housed" for a community college means the difference between the maximum full-time equivalent students projected in the long-range plan of the community college and the total full-time equivalent students housed on all approved projects at that community college to date.

(h) The "unmet obligation of the state"

means the dollar difference between 65 percent of approved construction costs on a project and the state payment to date on that project. A limitation is placed on the unmet obligation of the state at any given point in time to the extent that the full-time equivalent students housed plus the full-time equivalent students to be housed in all approved projects at the community college shall not exceed the maximum number of full-time equivalent students projected in the long-range plan submitted by the community college to and approved by the State Board of Education. The state does not assume an unmet financial obligation on projects for which the contract date preceded July 1, 1965; however, the full-time equivalent students housed in such approved projects shall be computed and shall be deducted from the maximum number of full-time equivalent students projected in the long-range plan of the community college. The determination of the number of students housed during this period of time shall be based on the following computation: The state payments on all approved projects for which the contract award date was between July 1, 1961, and June 30, 1963, shall be divided by \$1,500; the state payments on all approved projects for which the contract award date was between July 1, 1963, and June 30, 1965, shall be divided by \$1,300. The resultant figure in each instance shall represent the number of full-time equivalent students housed during that period of time, and the combination of both shall represent the full-time equivalent students housed with state funds prior to July 1, 1965.

(2) The policy of the Legislative Assembly, as expressed in this section, is to assume a financial obligation in the name of the State of Oregon to the extent of 65 percent of approved construction costs on projects defined in ORS 341.915 and limited by subsections (4) and (5) of this section. Approval of such costs shall be determined by the State Board of Education subject to the requirement that the total obligation incurred by the state shall not exceed the dollar amount necessary to construct facilities for the number of full-time equivalent students designated in the long-range plan of the community college as submitted to and approved by the State Board of Education in compliance with ORS 341.930. In computing the maximum obligation to be incurred, the State Board of Education shall divide the dollar amount of construction finally approved on each project by the state

approved construction rate applicable at the time of awarding the construction contract for that project. The resultant figure shall represent the number of full-time equivalent students to be provided for in that project. The total of full-time equivalent students to be provided for in all projects approved by the State Board of Education for any single community college shall not exceed the maximum number of full-time equivalent students estimated in the long-range plan of that community college submitted to and approved by the State Board of Education in compliance with ORS 341.930.

(3) In any biennium, such funds as are appropriated by the Legislative Assembly for construction at the community college shall be allocated on a line item basis recognizing the number of full-time equivalent students for which the state has provided facilities at the time the appropriation is made in relation to the number of full-time equivalent students projected by the institution and accepted by the Legislative Assembly for the second year of the biennium for which the appropriation is made. The line item allocation to each community college shall consider the unmet obligation of the state and, in so far as is possible, equalize the percent of full-time equivalent students housed at the various community colleges in relation to the projected full-time equivalent students of the community colleges during the second year of the biennium.

(4) Subject to the conditions for receipt of funds in ORS 341.625, funds payable under this section shall be used to provide buildings for the administration, instruction and necessary student facilities of the community college but shall not be used for student or faculty housing or spectator facilities for athletics.

(5) State funds shall be made available pursuant to subsections (1), (2) and (3) of this section only for costs not reimbursed or otherwise funded from federal funds.

(6) The Superintendent of Public Instruction shall keep a continuing record of the unmet obligation and, as soon as possible during the first year of the biennium for which an appropriation has been made, shall cause to be paid to each community college for which a line item appropriation was made that portion of the appropriation required to satisfy the unmet obligation. The board of directors of each community college receiving such funds shall deposit the funds in either the

bond interest and redemption fund or the construction fund to be disbursed as the resolution creating either fund provides. Such funds shall not be used to support the operating functions of the community college.

(7) If the line item appropriation to a community college exceeds that required to pay the unmet obligation, the community college may apply to the State Board of Education for allocation of such funds to be applied in satisfaction of, or as a portion of, the state's contribution to a new construction project approved by the State Board of Education. If the community college does not make application for such excess by June 30 of the first year of the biennium for which such appropriation was made, the State Board of Education with the approval of the Emergency Board shall reallocate the funds to those community colleges wishing to make application for new construction funds.

[1961 c.601 §§2, 5; 1963 c.483 §15; 1965 c.100 §341; 1967 c.433 §10; 1969 c.633 §1; 1971 c.310 §5]

341.930 Long-range plan; review. (1) The board of a district operating a community college shall submit to the state board a long-range plan for the development of the community college, including the availability of a suitable site and such other information as the state board may require. The state board shall reexamine the long-range plan of each community college at least once every five years from the date submitted and shall make such adjustments in the approval of any estimated items as it deems advisable. Any community college may request periodic review by the state board of the long-range plan submitted by that community college to the state board.

(2) By July 1, 1971, each community college shall submit to the state board for its approval a yearly projection covering a 10-year period of the number of Oregon resident full-time equivalent students, as computed under the provisions of ORS 341.005, to be enrolled in courses for which the state makes reimbursement under ORS 341.625. A revised 10-year projection shall be submitted to the state board by July 1, 1972, and by July 1 of each even-numbered year thereafter.

[1961 c.601 §3; 1965 c.100 §342; 1967 c.433 §11; 1971 c.310 §6]

341.935 Content of application; priorities in allocation of funds. (1) The board of a community college district applying for funds under ORS 341.915 to 341.950 shall submit to the state board:

(a) A general description of construction proposed for the community college, including such information as the state board may require.

(b) Evidence of the ability to finance costs in excess of state funds available.

(c) Itemized estimate of the cost of the proposed construction.

(d) If the construction includes purchase of existing buildings, a certified statement of the purchase price and an appraisal of the value of the buildings.

(2) The state board shall determine priorities in the allocation of funds.
