Ownership of the shore of the Pacific Ocean between ordinary high tide and extreme low tide, and from the Oregon and Washington state line on the north to the Oregon and California state line on the south, excepting such portions as may have been disposed of by the state prior to July 5, 1947, is vested in the State of Oregon, and is declared to be a state recreation area. No portion of such ocean shore shall be alienated by any of the agencies of the state except as provided by law.

[Formerly 274.070 and then 390.720]

390.620 Pacific shore not to be alienated; judicial confirmation. (1) No portion of the lands described by ORS 390.610 or any interest either therein now or hereafter acquired by the State of Oregon or any political subdivision thereof shall be alienated except as expressly provided by state law. The State Highway Commission, when necessary, shall undertake appropriate court proceedings to protect, settle and confirm all such public rights and easements in the State of Oregon.

(2) No portion of the ocean shore declared a state recreation area by ORS 390.610 shall be alienated by any of the agencies of the state except as provided by law.

[1967 c.601 §§2(4), 3; 1969 c.601 §5]

The State Highway Commission, in accordance with ORS 390.110, may acquire ownership of or interests in the ocean shore or lands abutting, adjacent or contiguous to the ocean shore as may be appropriate for state recreation areas or access to such areas where such lands are held in private ownership. However, when acquiring ownership of or interests in lands abutting, adjacent or contiguous to the ocean

shore for such recreation areas or access where such lands are held in private ownership, the commission shall consider the following:

(1) The availability of other public lands in the vicinity for such recreational use or access.

(2) The land uses, improvements, and density of development in the vicinity.

(3) Existing public recreation areas and accesses in the vicinity.

(4) Any local zoning or use restrictions affecting the area in question.

(Regulating Use of Ocean Shore)

390.635 Jurisdiction of highway commission over shore recreation areas. Except as provided by ORS 273.551, the State Highway Commission has jurisdiction over the state recreation areas designated or acquired under ORS 390.610, 390.615, 390.620 or 390.630 in order to carry out the purposes of ORS 390.610, 390.620 to 390.660, 390.680, 390.690 and 390.705 to 390.770.

[1969 c.601 §21]

390.640 Permit required for improvements on ocean shore; exceptions. (1) In order to promote the public health, safety and welfare, to protect the state recreation areas recognized and declared by ORS 390.610 and 390.615, to protect the safety of the public using such areas, and to preserve values adjacent to and adjoining such areas, the natural beauty of the ocean shore and the public recreational benefit derived therefrom, it is necessary to control and regulate improvements on the ocean shore. Unless a permit therefor is granted as provided by ORS 390.650, no person shall make an improvement on any property that is within the area described by ORS 390.770.

(2) This section does not apply to permits granted pursuant to ORS 390.715, or to rules promulgated or permits granted under ORS 390.725 or 390.735.

(3) This section does not apply to continuous extensions of densely vegetated land areas which are above the 16 foot contour and lying seaward of the line established by ORS 390.770 as of August 22, 1969. The elevation mentioned in this subsection refers to the United States Coast and Geodetic Survey Sea-Level Datum of 1929 through the Pacific Northwest Supplementary Adjustment of 1947.

[1967 c.601 §5; 1969 c.601 §7]

390.650 Improvement permit procedure.

(1) Any person who desires a permit to make an improvement on any property subject to ORS 390.640 shall apply in writing to the State Highway Engineer, on a form and in a manner prescribed by the engineer, stating the kind of and reason for the improvement.

(2) Upon receipt of a properly completed application, the engineer shall cause notice of the application to be posted at or near the location of the proposed improvement. The notice shall include the name of the applicant, a description of the proposed improvement and its location and a statement of the time within which interested persons may file a request with the engineer for a hearing on the application. The State Highway Engineer shall give notice of any application, hearing or decision to any person who files a written request with him for such notice.

(3) Within 30 days after the date of posting the notice required in subsection (2) of this section, the applicant or 10 or more other interested persons may file a written request with the engineer for a hearing on the application. If such a request is filed, the engineer shall set a time for a hearing to be held by the engineer or his authorized representative. The engineer shall cause notice of the hearing to be posted in the manner provided in subsection (2) of this section. The notice shall include the time and place of the hearing. After the hearing on an application or, if a hearing is not requested, after the time for requesting a hearing has expired, the engineer shall grant the permit if approval would not be adverse to the public interest. ORS 183.310 to 183.500 does not apply to a hearing or decision under this section.

(4) In acting on an application, the engineer shall take into consideration the matters described by ORS 390.655. If the engineer does not act on a satisfactory application within 60 days after the date of receipt thereof or, if a hearing is held thereon, within 30 days after the date of the hearing, the application shall be considered denied.

(a) If the permit is denied upon the grounds that the same would be adverse to the public interest or the State Highway Engineer's failure to act, said engineer shall make written findings setting forth the specific reasons for the denial or inaction.

(b) A copy of the written findings shall be furnished to the applicant within 30 days following denial of the application as provided in this subsection.

(5) Subsections (2) and (3) of this section do not apply to an application for a permit for the repair, replacement or restoration, in the same location, of an authorized improvement or improvement existing on or before May 1, 1967, if the repair, replacement or restoration is commenced within three years after the damage to or destruction of the improvement being repaired, replaced or restored occurs.

(6) The engineer may, upon application therefor, either written or oral, grant an emergency permit for a new improvement, dike, revetment, or for the repair, replacement or restoration of an existing, or authorized improvement where property or property boundaries are in imminent peril of being destroyed or damaged by action of the Pacific Ocean or the waters of any bay or river of this state. Said permit may be granted by the engineer without regard to the provisions of subsections (1), (2), (3), (4) and (5) of this section. Any emergency permit granted hereunder shall be reduced to writing by the State Highway Engineer within 10 days after granting the same with a copy thereof furnished to the applicant.

[1967 c.601 §6; 1969 c.601 §10]

390.655 Standards for improvement permits. The State Highway Engineer shall consider applications and issue permits under ORS 390.650 in accordance with standards designed to promote the public health, safety and welfare and carry out the policy of ORS 390.610, 390.620 to 390.660, 390.680, 390.690, and 390.705 to 390.770. The standards shall be based on the following considerations, among others:

(1) The public need for healthful, safe, esthetic surroundings and conditions; the natural scenic, recreational and other resources of the area; and the present and prospective need for conservation and development of those resources.

(2) The physical characteristics or the changes in the physical characteristics of the area and the suitability of the area for particular uses and improvements.

(3) The land uses, including public recreational use if any, and the improvements in the area, the trends in land uses and improvements, the density of development and the property values in the area.

(4) The need for recreation and other facilities and enterprises in the future development of the area and the need for access to particular sites in the area.

[1969 c.601 §11]

390.658 Judicial review of engineer's decision on improvement permit application. Any person aggrieved by the decision of the State Highway Engineer under ORS 390.650 is entitled to petition the circuit court of the county where the property is located for a judicial review, de novo as in equity, of the action or failure to act by the engineer. A petition filed under this section shall be filed within 60 days after the entry of the findings provided for in subsection (4) of ORS 390.650 or after the expiration of the period prescribed for action, by the engineer under ORS 390.650.

[1969 c.601 §12]

390.660 Regulation of use of lands adjoining ocean shore. The State Highway Commission is hereby directed to protect, to maintain and to promulgate rules governing use of the public of property that is subject to ORS 390.640, property subject to public rights or easements declared by ORS 390.610 and property abutting, adjacent or contiguous to those lands described by ORS 390.615 that is available for public use, whether such public right or easement to use is obtained by dedication, prescription, grant, state-ownership, permission of a private owner or otherwise.

390.668 Motor vehicles and aircraft use regulated in certain zones; zone markers; proceedings to establish zones. (1) The State Highway Commission may establish zones on the ocean shore where travel by motor vehicles or landing of any aircraft except for an emergency shall be restricted or prohibited. After the establishment of a zone and the erection of signs or markers thereon, no such use shall be made of such areas except in conformity with the rules of the commission.

(2) Proceedings to establish a zone:

(a) May be initiated by the commission on its own motion; or

(b) Shall be initiated upon the request of 20 or more landowners or residents or upon request of the governing body of a county or city contiguous to the proposed zone.

(3) A zone shall not be established unless the commission first holds a public hearing in the vicinity of the proposed zone. The commission shall cause notice of the hearing to be given by publication, not less than seven days prior to the hearing, by at least one insertion in a newspaper of general circulation in the vicinity of the zone.

(4) Before establishing a zone, the commission shall seek the approval of the local government whose lands are adjacent or contiguous to the proposed zone.
[Formerly 274.090 and then 390.730]

390.670 [1967 c.601 §8; 1969 c.601 §13; repealed by 1971 c.780 §7]

390.680 Landowner declaration of continuing control of land along ocean shore; effect; revocation; failure to file. (1) In any court proceedings involving prescriptive rights of the public over property abutting, adjacent or contiguous to the lands described in ORS 390.615 or 390.770, an instrument executed and filed as provided by subsection (2) of this section shall be an act and declaration admissible as evidence of the intent of the owner or person in control of property to exercise dominion and control over his property.

(2) The declaration shall describe the property and shall be signed and acknowledged as provided by ORS 93.410. It shall state that the public is granted permission to use the property, or a specifically described portion of the property, and that the public use may be for certain purposes which shall also be described. The declaration shall be filed in the office of the county officer charged with the duty of filing and recording instruments or documents affecting title to real property.

(3) The permission granted may be revoked at any time by the grantor by a declaration revoking the permission signed, acknowledged and filed as provided by subsection (2) of this section. In any event, the permission granted shall terminate upon the assignment, grant, devise or other transfer or conveyance of the property or any interest therein by the owner or person in control of the property.

(4) Failure of the owner or person in control of property to execute and file the declaration as provided in subsection (2) of this section shall not imply an intent to relinquish dominion and control over his property.

[1967 c.601 §9; 1969 c.601 §17]

390.685 Effect of ORS 390.605, 390.615, 390.665, 390.668 and 390.685. Nothing in ORS 390.605, 390.615, 390.665, 390.668 and 390.685 is intended to repeal ORS 492.780 to 492.810.
[Formerly 274.110 and then 390.750]

390.690 Title and rights of state unimpaired. Nothing in ORS 390.610, 390.620 to 390.660, 390.680, 390.690 and 390.705 to 390.770 shall be construed to relinquish, impair or limit the sovereign title or rights of the State of Oregon in the shores of the Pacific Ocean as the same may exist before or after July 6, 1967.

[1967 c.601 §10]

(Special Permits)

390.705 Prohibition against placing certain conduits across recreation area and against removal of natural products. No person shall:

(1) Place any pipe line, cable line or other conduit across and under the state recreation areas described by ORS 390.635 or the submerged lands adjacent to the ocean shore, except as provided by ORS 390.715.

(2) Remove any natural product from the ocean shore, other than fish or wildlife, agates or souvenirs, except as provided by ORS 390.725.

[1969 c.601 §20]

390.710 [Formerly 274.065; amended by 1969 c.601 §2; renumbered 390.605]

390.715 Permits for pipe, cable or conduit across ocean shore and submerged lands.

(1) The State Highway Commission may issue permits under ORS 390.650 to 390.658 for pipe lines, cable lines and other conduits across and under the ocean shore and the submerged lands adjacent to the ocean shore, upon payment of just compensation by the permittee. Such permit is not a sale or lease of tide and overflow lands within the scope of ORS 274.040.

(2) Whenever the issuance of a permit under subsection (1) hereof will affect lands owned privately, the State Highway Commission shall withhold the issuance of such permit until such time as the permittee shall have obtained an easement, license or other written authorization from the private owner, which easement, license or other written authority must meet the approval of the State Highway Commission, except as to the compensation to be paid to the private owner.

(3) All permits issued under this section are subject to conditions that will assure safety of the public and the preservation of economic, scenic and recreational values and to rules promulgated by state agencies having jurisdiction over the activities of the grantee or permittee.

[1969 c.601 §22]

390.720 [Formerly 274.070; renumbered 390.615]

390.725 Permits for removal of products along ocean shore. (1) No sand, rock, mineral, marine growth or other natural product of the ocean shore, other than fish or wildlife, agates or souvenirs, shall be taken from the state recreation areas described by ORS 390.635, except in compliance with a rule of or permit from the State Highway Commission as provided by this section. Permits shall provide for the payment of just compensation by the permittee as provided in subsection (5) of this section.

(2) Rules or permits shall be made or granted by the State Highway Commission only after consultation with the Fish Commission of the State of Oregon, the State Game Commission, the State Department of Geology and Mineral Industries and the Division of State Lands. Rules and permits shall contain provisions necessary to protect the areas from any use, activity or practice inimicable to the conservation of natural resources or public recreation.

(3) On request of the governing body of any coastal city or county, the State Highway Commission may grant a permit for the removal of sand or rock from the area at designated locations on the ocean shore to supply the reasonable needs for essential construction uses in such localities if it appears sand and rock for such construction are not otherwise obtainable at reasonable cost, and if such removal will not materially alter the physical characteristics of the area or adjacent areas, nor lead to such changes in subsequent seasons. Before issuing a permit the commission shall likewise take into consideration the standards described by ORS 390.655. The commission may grant a permit to take and remove sand, rock, mineral or marine growth from the area at designated locations. The commission shall also issue permits to coastal cities or counties to remove or authorize removal of sand from the ocean shore, under the standards provided by ORS 390.655, if the city or county determines that the sand

accumulation on the ocean shore constitutes a hazard or maintenance problem to the city or county.

(4) The terms, royalty and duration of a permit under this section are at the discretion of the commission. A permit is revocable at any time in the discretion of the commission without liability to the permittee.

(5) Whenever the issuance of a permit under this section will affect lands owned privately, the State Highway Commission shall withhold the issuance of such permit until such time as the permittee shall have obtained an easement, license or other written authorization from the private owner, which easement, license or other written authority must meet the approval of the commission, except as to the compensation to be paid to the private owner.

(1) The State Highway Commission may prescribe rules and issue permits governing the exploration for, and removal of, treasure-trove, semiprecious stones, petrified wood, and archaeological and paleontological objects from the recreation areas described by ORS 390.635. Such rules shall be designed to maximize the public benefit of these resources, and shall permit the free use of the areas for collection for noncommercial purposes of reasonable quantities of petrified wood, semiprecious stones, and archaeological and paleontological objects. Notwithstanding any other law, such rules may provide that not to exceed 25 percent of any treasure-trove shall be retained by the commission, subject to disposal by the commission as property of the State of Oregon, and that the remainder shall be retained by the finder.

(2) If any person removes treasure-trove, semiprecious stones or petrified wood from the state recreation areas in a manner contrary to rules prescribed under this section, all the materials or objects so removed shall be subject to disposal by the commission as property of the State of Oregon.

(3) Whenever the issuance of a permit under this section will affect lands owned privately, the State Highway Commission shall withhold the issuance of such permit until such time as the permittee shall have obtained

(1) The State Highway Engineer is directed to periodically reexamine the line of vegetation as established and described by ORS 390.770 for the purpose of obtaining information and material suitable for a re-evaluation and re-definition, if necessary, of such line so that the private and public rights and interest in the ocean shore shall be preserved.

(2) The State Highway Commission may, from time to time, recommend to the Legislative Assembly adjustment of the line described in ORS 390.770.

[1969 c.601 §27]

390.760 Exceptions from vegetation line. ORS 390.640 does not apply to any state-owned land or to headlands and other lands located at an elevation of more than 16 feet and seaward of a line running between the following designated and numbered points which are more particularly described by ORS 390.770. SCENIC WATERWAYS

Note: ORS 390.805 to 390.925 were adopted by initiative petition approved by the people November 3, 1970, effective December 3, 1970. The text of the petition appears as chapter 1, Oregon Laws 1971.

390.805 Definitions for ORS 390.805 to 390.925. As used in ORS 390.805 to 390.925, unless the context requires otherwise:

(1) "Commission" means the State Highway Commission.

(2) "Scenic waterway" means a river or segment of river that has been designated as such in accordance with ORS 390.805 to 390.925 or any subsequent Act, and includes related adjacent land.

(3) "Related adjacent land" means all land within one-fourth of one mile of the bank on each side of a river or segment of river within a scenic waterway, except land that, in the commission's judgment, does not affect the view from the waters within a scenic waterway.

(4) "Scenic easement" means the right to control the use of related adjacent land, including air space above such land, for the purpose of protecting the scenic view from waters within a scenic waterway; but such control does not affect, without the owner's consent, any regular use exercised prior to the acquisition of the easement, and the landowner retains the right to uses of the land not specifically restricted by the easement. ORS 271.750 does not apply to any acquisition of such a scenic easement under ORS 390.805 to 390.925.

[1971 c.1 §2]

390.815 Policy; establishment of system.

The people of Oregon find that many of the free-flowing rivers of Oregon and lands adjacent to such rivers possess outstanding scenic, fish, wildlife, geological, botanical, historic, archeologic, and outdoor recreation values of present and future benefit to the public. The people of Oregon also find that the policy of permitting construction of dams and other impoundment facilities at appropriate sections of the rivers of Oregon needs to be complemented by a policy that would preserve other selected rivers or sections thereof in a free-flowing condition and would protect and preserve the natural setting and water quality of such rivers and fulfill other conservation purposes. It is therefore the policy of Oregon to preserve for the benefit of the public selected parts of the state's free-flowing rivers. For these purposes there is established an Oregon Scenic Waterways System to be composed of areas designated in accordance with ORS 390.805 to 390.925 and any subsequent Acts.

[1971 c.1 §1]

390.825 Designated scenic waterways.

The following rivers, or segments of rivers, and related adjacent land, are designated as scenic waterways:

(1) The segment of the Rogue River

extending from the confluence with the Applegate River downstream a distance of approximately 88 miles to Lobster Creek Bridge.

(2) The segment of the Illinois River from the confluence with Deer Creek downstream a distance of approximately 46 miles to its confluence with the Rogue River.

(3) The segment of the Deschutes River from immediately below the existing Pelton reregulating dam downstream approximately 100 miles to its confluence with the Columbia River, excluding the City of Maupin.

(4) The entire Minam River from Minam Lake downstream a distance of approximately 45 miles to its confluence with the Willowa River.

(5) The segment of the South Fork Owyhee River in Malheur County from the Oregon-Idaho border downstream approximately 25 miles to Three Forks where the main stem of the Owyhee River is formed, and the segment of the main stem Owyhee River from Crooked Creek (six miles below Rome) downstream a distance of approximately 45 miles to the mouth of Birch Creek.

(6) The segment of the main stem of the John Day River from Service Creek Bridge (at river mile 157) downstream 147 miles to Tumwater Falls (at river mile 10).

[1971 c.1 §3]

390.835 Highest and best use of waters within scenic waterways; authority of fish and game commissions and State Engineer.

(1) Subject to subsection (12) of ORS 536.310, it is declared that the highest and best uses of the waters within scenic waterways are recreation, fish and wildlife uses. The free-flowing character of these waters shall be maintained in quantities necessary for recreation, fish and wildlife uses. No dam, or reservoir, or other water impoundment facility shall be constructed on waters within scenic waterways. No water diversion facility shall be constructed on such waters except as necessary to uses designated in subsection (12) of ORS 536.310 or as necessary to existing uses of related adjacent land. The submerged and submersible lands under and along such waterways shall not be modified by placering, dredging or by any other means.

(2) Nothing in ORS 390.805 to 390.925 affects the authority of the Fish Commission of the State of Oregon and the State Game Commission to construct facilities or make improvements to facilitate the passage or

propagation of fish or to exercise other responsibilities in managing fish and Wildlife resources. Nothing in ORS 390.805 to 390.925 affects the authority of the State Engineer to construct and maintain stream gauge stations and other facilities related to his duties in administration of the water laws.

(3) The State Engineer shall administer and enforce the provisions of this section. The State Water Resources Board shall carry out its responsibilities under ORS 536.210 to 536.590 with respect to the waters within scenic waterways in conformity with the provisions of this section.

[1971 c.1 §4]

390.845 Functions of the highway commission. (1) Except as provided in subsection (3) of ORS 390.835, scenic waterways shall be administered by the commission, each in such manner as to protect and enhance the values which caused such scenic waterway to be included in the system. In such administration primary emphasis shall be given to protecting the esthetic, scenic, fish and wildlife, scientific and recreation features, based on the special attributes of each area.

(2) After consultation with the State Board of Forestry and the State Department of Agriculture and with the concurrence of the State Water Resources Board, the commission shall adopt rules and regulations governing the management of related adjacent land. Such rules and regulations shall be adopted in accordance with ORS chapter 183. Such rules and regulations shall reflect management principles, standards and plans applicable to scenic waterways, their shore lines and related adjacent land and, if necessary, establish varying intensities of protection or development based on special attributes of each area. Such management principles, standards and plans shall protect or enhance the esthetic and scenic values of the scenic waterways and permit compatible agricultural, forestry and other land uses. Specifically, and not in limitation of the foregoing, such rules and regulations shall provide that:

(a) No roads, railroads or utilities shall be constructed within any scenic waterway except where necessary to serve the permissible uses, as defined in subsection (2) of this section and in the rules and regulations of the commission, of the related adjacent land or unless commission approval of such use is obtained as provided in subsection (4)

or (5) of this section. The commission wherever practicable shall require the sharing of land and air space by such roads, railroads and utilities. All permissible roads, railroads and utilities shall be located in such a manner as to minimize the disturbance of the natural beauty of a scenic waterway;

(b) Forest crops shall be harvested in such manner as to maintain as nearly as reasonably is practicable the natural beauty of the scenic waterway;

(c) Occupants of related adjacent land shall avoid pollution of waters within a scenic waterway;

(d) The surface of related adjacent land shall not be disturbed for prospecting or mining unless the commission's approval is obtained under subsection (4) or (5) of this section; and

(e) Unless commission approval of the proposed use is obtained under subsection (4) or (5) of this section, no commercial, business or industrial structures or buildings other than structures or buildings erected in connection with an existing use shall be erected or placed on related adjacent land. All structures and buildings erected or placed on such land shall be in harmony with the natural beauty of the scenic waterway and shall be placed a sufficient distance from other structures or buildings so as not to impair substantially such natural beauty. No signs or other forms of outdoor advertising that are visible from waters within a scenic waterway shall be constructed or maintained.

(3) No person shall put related adjacent land to uses that violate ORS 390.805 to 390.925 or the rules or regulations of the commission adopted under ORS 390.805 to 390.925 or to uses to which the land was not being put before December 3, 1970, or engage in the cutting of trees, or mining, or prospecting on such lands or construct roads, railroads, utilities, buildings or other structures on such lands, unless the owner of the land has given to the commission written notice of such proposed use at least one year prior thereto and has submitted to the commission with the notice a specific and detailed description of such proposed use or has entered into agreement for such use with the commission under subsection (5) of this section. The owner may, however, act in emergencies without the notice required by ORS 390.805 to 390.925 when necessary in the interests of public safety.

(4) Upon receipt of the written notice provided in subsection (3) of this section, the commission shall first determine whether in its judgment the proposed use would impair substantially the natural beauty of a scenic waterway. If the commission determines that the proposal, if put into effect, would not impair substantially the natural beauty of the scenic waterway, the commission shall notify in writing the owner of the related adjacent land that he may immediately proceed with the proposed use as described to the commission. If the commission determines that the proposal, if put into effect, would impair substantially the natural beauty of the scenic waterway, the commission shall notify in writing the owner of the related adjacent land of such determination and no steps shall be taken to carry out such proposal until at least one year after the original notice to the commission. During such period:

(a) The commission and the owner of the land involved may agree upon modifications or alterations of the proposal so that implementation thereof would not in the judgment of the commission impair substantially the natural beauty of the scenic waterway; or

(b) The commission may acquire by purchase, gift or exchange, the land involved or interests therein, including scenic easements, for the purpose of preserving the natural beauty of the scenic waterway.

(5) The commission, upon written request from an owner of related adjacent land, shall enter into negotiations and endeavor to reach agreement with such owner establishing for the use of such land a plan that would not impair substantially the natural beauty of the scenic waterway. At the time of such request for negotiations, the owner may submit a plan in writing setting forth in detail his proposed uses. Three months after the owner makes such a request for negotiations with respect to use of land, either the commission or the owner may give written notice that the negotiations are terminated without agreement. Nine months after the notice of termination of negotiations the owner may use his land in conformity with any specific written plan submitted by the owner prior to or during negotiations. In the event the commission and the owner reach agreement establishing a plan for land use, such agreement is terminable upon at least one year's written notice by either the commission or the owner.

(6) With the concurrence of the State Water Resources Board, the commission may institute condemnation proceedings and by condemnation acquire related adjacent land:

(a) At any time subsequent to nine months after the receipt of notice of a proposal for the use of such land that the commission determines would, if carried out, impair substantially the natural beauty of a scenic waterway unless the commission and the owner of such land have entered into an agreement as contemplated by subsection (4) or (5) of this section or the owner shall have notified the commission of the abandonment of such proposal; or

(b) At any time related adjacent land is used in a manner violating ORS 390.805 to 390.925, the rules and regulations of the commission or any agreement entered into by the commission pursuant to subsection (4) or (5) of this section; or

(c) At any time related adjacent land is used in a manner which, in the judgment of the commission, impairs substantially the natural beauty of a scenic waterway, if the commission has not been given at least one year's advance written notice of such use and if there is not in effect commission approval of such use pursuant to subsection (4) or (5) of this section.

(7) In such condemnation the owner of the land shall not receive any award for the value of any structure, utility, road or other improvement constructed or erected upon the land after December 3, 1970, unless the commission has received written notice of such proposed structure, utility, road or other improvement at least one year prior to commencement of construction or erection of such structure, utility, road or other improvement or unless the commission has given approval for such improvement under subsection (4) or (5) of this section. If the person owned the land on December 3, 1970, and for a continuous period of not less than two years immediately prior thereto, he shall receive no less for the land than its value on December 3, 1970. The commission shall not acquire by condemnation a scenic easement in land. When the commission acquires any related adjacent land that is located between a river and other land that is owned by a person having the right to the beneficial use of waters in the river by virtue of his ownership of the other land:

(a) The right to the beneficial use of

such waters shall not be affected by such condemnation; and

(b) The owner of the other land shall retain a right of access to the river necessary to use, store or divert such waters as he has a right to use, consistent with concurrent use of the land so condemned as a part of the Oregon Scenic Waterways System.

(8) Any owner of related adjacent land, upon written request to the commission, shall be provided copies of rules and regulations then in effect or thereafter adopted by the commission pursuant to ORS 390.805 to 390.925.

(9) The commission shall furnish to any member of the public upon his written request and at his expense a copy of any notice filed pursuant to subsection (3) of this section.

(10) If a scenic waterway contains lands or interests therein owned by or under the jurisdiction of an Indian tribe, the United States, another state agency or local governmental agency, the commission may enter into agreement with the tribe or the federal, state or local agency for the administration of such lands or interests therein in furtherance of the purposes of ORS 390.805 to 390.925.

[1971 c.1 §5; 1971 c.459 §1]

390.855 Designation of additional scenic waterways. The commission shall undertake a continuing study and submit periodic reports to the Governor, with the concurrence of the State Water Resources Board, recommending the designation of additional rivers or segments of rivers and related adjacent land by the Governor as scenic waterways subject to the provisions of ORS 390.805 to 390.925. Consistent with such recommendation, the Governor may designate any river or segment of a river and related adjacent land as a scenic waterway subject to the provisions of ORS 390.805 to 390.925. The commission shall consult with the State Game Commission, the Fish Commission of the State of Oregon, the State Department of Agriculture, the Environmental Quality Commission, the Division of State Lands, and such other persons or agencies as it considers appropriate. The State Highway Commission shall conduct hearings in the counties in which the proposed additional rivers or segments of rivers are located. The following criteria shall be considered in making such report:

(1) The river or segment of river is relatively free-flowing and the scene as viewed from the river and related adjacent land is pleasing, whether primitive or rural-pastoral, or these conditions are restorable.

(2) The river or segment of river and its setting possess natural and recreation values of outstanding quality.

(3) The river or segment of river and its setting are large enough to sustain substantial recreation use and to accommodate existing uses without undue impairment of the natural values of the resource or quality of the recreation experience.

[1971 c.1 §6]

390.865 Authority of legislature over designation of additional scenic waterways. The designation of a river or segment of a river and related adjacent land, pursuant to ORS 390.855, shall not become effective until the day following the adjournment sine die of the regular session of the Legislative Assembly next following the date of the designation or that was in session when the designation was made. The Legislative Assembly by joint resolution may disapprove any such designation or a part thereof, and in that event the designation, or part thereof so disapproved, shall not become effective.

[1971 c.1 §7]

390.875 Transfer of public lands in scenic waterways to division; administration of nontransferred lands. Any public land within or adjacent to a scenic waterway, with the consent of the governing body having jurisdiction thereof, may be transferred to the jurisdiction of the commission with or without compensation. Any land so transferred shall become state recreational land and shall be administered as a part of the scenic waterway. Any such land within a scenic waterway which is not transferred to the jurisdiction of the commission, to the fullest extent consistent with the purposes for which the land is held, shall be administered by the body having jurisdiction thereof in accordance with the provisions of ORS 390.805 to 390.925.

[1971 c.1 §8]

390.885 Exchange of property within scenic waterway for property outside waterway. In acquiring related adjacent land by exchange, the commission may accept title to any property within a scenic waterway, and in exchange therefor, may convey to the grantor of such property any property under its jurisdiction that the commission is not

otherwise restricted from exchanging. In so far as practicable, the properties so exchanged shall be of approximately equal fair market value. If they are not of approximately equal fair market value, the commission may accept cash or property from, or pay cash or grant property to, the grantor in order to equalize the values of the properties exchanged.

[1971 c.1 §9]

390.895 Use of federal funds. In addition to State of Oregon funds available for the purposes of ORS 390.805 to 390.925, the commission shall use such portion of moneys made available to it by the Bureau of Outdoor Recreation and other federal agencies, including matching funds, as the commission determines are necessary and available to carry out the purposes of ORS 390.805 to 390.925.

[1971 c.1 §10]

390.905 Effect of ORS 390.805 to 390.925 on other state agencies. Nothing in ORS 390.805 to 390.925 affects the jurisdiction or responsibility of other state agencies with respect to boating, fishing, hunting, water pollution, health or fire control; except that such state agencies shall endeavor to perform their responsibilities in a manner consistent with the purposes of ORS 390.805 to 390.925.

[1971 c.1 §11]

390.915 Determination of value of scenic easement for tax purposes; easement exempt. For the purposes of assessing property for taxation, real property that is subject to a scenic easement shall be assessed on the basis of the true cash value of the property less any reduction in value caused by the scenic easement. The easement shall be exempt from assessment and taxation the same as any other property owned by the state.

[1971 c.1 §12]

390.925 Enforcement. The commission is vested with power to obtain injunctions and other appropriate relief against violations of any provisions of ORS 390.805 to 390.925 and any rules and regulations adopted under ORS 390.805 to 390.925 and agreements made under ORS 390.805 to 390.925.

[1971 c.1 §13]

RECREATION TRAILS

390.950 Short title. ORS 390.950 to 390.989 and subsection (4) of ORS 390.990

may be cited as the Oregon Recreation Trails System Act.
[1971 c.614 §1]

390.953 "Commission" defined. As used in ORS 390.950 to 390.989, unless the context requires otherwise, "commission" means the State Highway Commission.
[1971 c.614 §2]

390.956 Policy. (1) In order to provide for the ever-increasing outdoor recreation needs of an expanding resident and tourist population and in order to promote public access to, travel within and enjoyment and appreciation of, the open-air, outdoor areas of Oregon, trails should be established both near the urban areas of this state and within, adjacent to or connecting highly scenic areas more remotely located.

(2) The purpose of ORS 390.950 to 390.989 and subsection (4) of ORS 390.990 is to provide the means for attaining these objectives by instituting a system of recreation trails in this state, by designating certain trails as the initial components of that system, and by prescribing the methods of which, and standards according to which, additional components may be added to the system.
[1971 c.614 §3]

390.959 Composition of trails system; establishment of markers. The system of Oregon recreation trails shall be composed of trails established as provided in ORS 390.962 and 390.965. The commission, in consultation with appropriate federal, state and local governmental agencies and public and private organizations, shall establish a uniform marker for the system of Oregon recreation trails.
[1971 c.614 §4]

390.962 Criteria for establishing trails; location; statutes authorizing trails for motorized vehicles unaffected. (1) Upon finding that such trails will meet the criteria established in ORS 390.950 to 390.989 and subsection (4) of ORS 390.990 and such supplementary criteria as the commission may prescribe, the commission is encouraged and empowered to establish and designate Oregon recreation trails:

(a) Over lands owned by the State of Oregon, by the Federal Government or by any county, municipality or other local governmental body, with the consent of the state agency, federal agency, county municipality or other local governmental body having jurisdiction over the lands involved; or

(b) Over lands owned by private persons, in the manner and subject to the limitations provided in ORS 390.950 to 390.989 and subsection (4) of ORS 390.990.

(2) In establishing such trails, the commission shall give special recognition to the need for the establishment of recreation trails in or near, or reasonably accessible to, urban areas. Upon the establishment of any such trail, the commission shall designate the primary kind of trail it is to be, based upon the mode or modes of travel to be permitted on such trail, including one or more of the following:

- (a) Footpath.
- (b) Horseback riding trail.
- (c) Bicycle path.

(3) Nothing in ORS 390.950 to 390.989 and subsection (4) of ORS 390.990 affects any other statute authorizing trails for motorized vehicles which is not inconsistent with ORS 390.950 to 390.989 and subsection (4) of ORS 390.990.
[1971 c.614 §5]

390.965 Hearing required; information to be considered. (1) The commission may establish trails after public meetings in the areas of the state where trails are planned and only in accordance with the following criteria:

(a) Emphasis shall be given to the development of trails across public lands.

(b) No trails shall cross private land occupied by a residential dwelling, or upon which a residential dwelling is under construction, within 300 feet of such residential dwelling, without the consent of the owner.

(c) Trails shall be selected to minimize the adverse effects on adjacent landowners or users and their operations.

(d) Development and management of trails shall be designed to harmonize with and complement any established forest, agricultural, or other use plan that is compatible with the purposes of ORS 390.950 to 390.989 and subsection (4) of ORS 390.990.

(2) Before establishing a trail the commission shall consider at a public meeting the following information:

(a) The proposed route of such trail (including maps and illustrations) and the recommended mode or modes of travel to be permitted thereon;

(b) The areas adjacent to such trails, to be utilized for scenic, historic, natural, cultural or developmental purposes;

(c) The characteristics that, in the judgment of the commission, make the proposed trail suitable as an Oregon recreation trail;

(d) The current status of land ownership and current and potential use along the designated route;

(e) The estimated cost of acquisition of lands or interest in lands, if any;

(f) The plans for developing and maintaining the trail and the cost thereof;

(g) Any anticipated problems of policing the use of such trail and any anticipated hazards to the use of any privately owned lands adjacent to such trail; and

(h) The extent to which the state or its political subdivisions and public and private organizations might reasonably be expected to participate in acquiring the necessary lands and in the administration thereof.

[1971 c.614 §6]

390.968 Selection of rights of way for trails. (1) The commission shall select the rights of way for trails designated as Oregon Recreation Trails by paragraphs (a) and (b) of subsection (1) of ORS 390.962. Such rights of way shall be:

(a) Of sufficient width and so located as to protect natural conditions, scenic and historic features, and any primitive character of the trail area; to provide campsites, shelters, and related public-use facilities along trails in more remote areas; and to provide reasonable public access.

(b) Located to avoid, in so far as reasonably practicable, established highways, motor roads, mining areas, power transmission lines, existing commercial and industrial developments, range fences and improvements, private logging operations, and any other activities that would be incompatible with the protection of the trailside environment in its natural condition and the use of the trail for outdoor recreation.

(2) Notwithstanding subsection (1) of this section, it is recognized that in many instances (especially in urban areas and for some types of trails across or near private land) it may be advisable to locate segments of trails in or near existing rights of way for roads, highways, or public utilities, excluding power transmission lines; and it is recognized that trail rights of way on occasion may be located, or from time to time relocated, through, or adjacent to, lands used for private timber (including logging), agriculture, commercial or industrial operations and that such location or relocation of a trail right of way,

of itself, shall not impose any limitation upon an otherwise lawful use of the adjacent private land except to the extent of the terms of any agreement with the private landowner as provided in subsection (1) of ORS 390.971 and except as may be provided by any zoning ordinance, law or regulation.

(3) The location and width of an Oregon recreation trail right of way across federal lands under the jurisdiction of a federal agency shall be by agreement between that agency and the commission.

(4) In selecting a right of way, the commission shall endeavor to obtain the advice and assistance of the local governments, private organizations, landowners, the land users concerned, and the advisory council established under ORS 390.977.

(5) The commission shall hold a public hearing in the area of the state where the selection of such right of way is to be made. Subject to ORS 390.971, after public hearing, the commission may revise the location and width of a right of way from time to time as required by circumstances, with the consent of the head of any federal agency involved, and with such advice and assistance of the local governments, private organizations, landowners, land users, and the advisory council, as the commission considers necessary or advisable.

[1971 c.614 §7]

390.971 Commission duties and powers, generally. (1) Within the exterior boundaries of areas under its administration that are included in the right of way selected for an Oregon recreation trail as provided in ORS 390.950 to 390.989 and subsection (4) of ORS 390.990, the commission may:

(a) Enter into written cooperative agreements with landowners, federal agencies, other state agencies, local governments, private organizations and individuals, in order to provide for the development, operation, maintenance, location and relocation of the trail; where the trail crosses commercial forest land, such agreement shall make reasonable provision for temporary relocation reasonably required for commercial forest management; and

(b) Subject to limitations set forth in ORS 390.950 to 390.989 and subsection (4) of ORS 390.990, acquire lands or interests in lands by donation, purchase with donated or appropriated funds or exchange, or with funds obtained under ORS 390.980.

(2) The commission, in the exercise of its

exchange authority, may accept title to any nonstate-owned property within a trail right of way, and in exchange therefor it may convey to the grantor of such property any state-owned property under its jurisdiction (or the jurisdiction of any state agency consenting to such exchange) and which it (or the applicable consenting state agency) classifies as suitable for exchange or other disposal. The values of the properties so exchanged either shall be approximately equal, or if they are not approximately equal the values shall be equalized by the payment of cash to the grantor or to the commission (or applicable consenting state agency) as the circumstances require.

(3) If lands included in an Oregon recreation trail right of way are outside the exterior boundaries of state or federally administered areas, the commission shall attempt, and any local governments involved shall be encouraged, to enter into written cooperative agreements with landowners, local government, private organizations, and individuals in order to develop, administer, and maintain the trails, and to acquire, develop, and administer such lands or interests therein. However:

(a) If the commission or local governments fail or are unable to enter into such agreements or to acquire such lands or interests therein within one year after the selection of the right of way, the commission may acquire private lands or interest therein by donation, exchange, or purchase with donated or appropriated funds, and may develop and administer such lands or interests therein.

(b) Exchanges shall be governed by the provisions of subsection (2) of this section.

(4) Oregon recreation trails shall be administered, protected, developed and maintained by the commission, or as provided under paragraph (a) of subsection (1) of this section, to retain their natural, scenic and historic features. Along trails in more remote areas provision may be made for campsites, shelters and related public-use facilities; and other uses, including reasonable crossings (for motor vehicles, public utilities and water pipes and ditches), that will not substantially interfere with the nature and purposes of the trails may be permitted or authorized, as appropriate. The use of motorized vehicles by the general public along any such Oregon recreation trail is prohibited. However, the commission shall authorize the use of motorized vehicles when, in its judgment, such ve-

hicles are necessary to meet emergencies, trail construction and maintenance needs or to enable adjacent landowners or land users to have reasonable access to their lands or timber rights. The fact that private lands are included in an Oregon recreation trail by cooperative agreement of a landowner does not preclude the owner of such lands or his agents from using motorized vehicles on or across such trails or adjacent lands from time to time in accordance with such agreement. Except to the extent otherwise provided by law, the state laws, rules and regulations applicable to lands or areas included in any Oregon recreation trail shall continue to apply. Nothing in ORS 390.950 to 390.989 and subsection (4) of ORS 390.990 prohibits the use of roads existing on private lands on September 9, 1971, which may cross or traverse portions of the trail right of way, nor shall ORS 390.950 to 390.989 and subsection (4) of ORS 390.990 prevent trails from crossing such roads.

(5) The commission shall endeavor to induce agreements with appropriate state and federal agencies to provide for youth work projects to assist in the construction and maintenance of trails that are part of the Oregon recreation trails system.

(6) The commission shall endeavor, when it considers such to be appropriate, to develop and enhance the educational values and opportunities of Oregon recreation trails; and in this connection it shall cooperate with schools, educators and other interested persons or groups in developing and utilizing techniques and materials to demonstrate to and inform the trail-using public of various scenic and natural features visible along or from such trails (including geological, botanical, historical, zoological and similar features).

(7) The commission shall place and endeavor to maintain signs at such places as it considers appropriate along Oregon recreation trails advising users of the Oregon laws of criminal trespass and encouraging users to protect the trails and the rights and property of adjacent landowners.

(8) The commission, with the concurrence of any federal agency administering lands through which an Oregon recreation trail passes, and after consultation with the local

governments, private organizations and landowners which the commission knows or believes to be concerned, and the advisory council established under ORS 390.977, may issue rules and regulations that may be revised from time to time governing protection, management, use, development and administration of an Oregon recreation trail.

(9) The commission, on lands not within a forest protection district, upon recommendation of the State Forester, shall have the authority to close trails during periods of high fire danger. The commission shall also have the authority to close trails if it deems it necessary to protect the safety of the public.

(10) Notwithstanding the provisions of ORS chapter 477, forest land on which a fire exists which was caused by a person using, for recreational purposes, a trail established pursuant to ORS 390.950 to 390.989 and subsection (4) of ORS 390.990, shall not be considered an operation area as defined by subsection (13) of ORS 477.001, provided the fire did not start within an operation as defined by subsection (12) of ORS 477.001.

[1971 c.614 §9]

390.974 Intergovernmental cooperation to obtain property for use in trail system.
