The money in the fund shall be used for the purpose indicated in the order calling for election upon the question of the issuance of the bonds, and for no other purpose. However, if those purposes are entirely fulfilled, any balance remaining in the fund shall be used for payment of the principal and interest of the bonds.

If the board fails to levy a direct ad valorem tax sufficient to pay the interest on and the maturing principal of all outstanding general obligation bonds, the county board of any county in which any portion of the district is included shall levy such tax which shall be extended and collected the same as all other sanitary district taxes.

[Amended by 1969 c.563 §16]

[1971 c.532 §2]

450.182 Consolidation; approval by voters required; status of successor district.

(1) Two or more districts may consolidate and form a new district if the consolidation is approved by the voters as provided by ORS 450.186 to 450.202. The districts included in the consolidation shall be considered joined into a single new district.

Merger or consolidation may also be initiated by resolution adopted or approved by two or more district boards. The resolution shall contain all the matters required to be stated in a petition to merge or to consolidate.

(2) When proceedings have been initiated, the board of each affected district shall call an election in its district at which there shall be submitted to the voters of the districts the question:

(2) If the merger or consolidation is approved, the district board of the successor or surviving district shall, in accordance with the plan, levy taxes and assessments for the liquidation of any prior existing indebtedness. Such a levy shall be subject to ORS 450.005 to 450.245.

The secretary of the board calling the meeting shall give notice by certified mail of the time and place of the meeting to each member of the boards of the affected districts.

(2) At the joint meeting, a majority of the members of the board of each affected district constitute a quorum for the transaction of business. The board members so assembled shall from among the members elect five persons to serve as board members of the surviving or successor district until the next general election. An agreement between the boards is effective only in the event the proposed annexation is approved by the voters.

When the district assumes such obligations, it shall be liable to the other district, as provided by paragraph (a) or (b) of subsection (2) of ORS 222.520, at the option of the annexing district. After the district agrees to make the payments referred to in this subsection, neither the annexing district nor the annexed territory shall be charged by the other district with any future liabilities, obligations or functions of the other district.

(Districts with Valuation over \$250,000)

450.250 Definitions for ORS 450.250 to 450.300. (1) "District" means a sanitary district duly organized under the provisions of ORS 450.005 to 450.245, having an assessed valuation of not more than \$250,000.

(2) "Sewerage system" means complete or primary sewage treatment and disposal facilities, sewer mains, pumping stations, and all equipment and appurtenances necessary, useful or convenient for the treatment or disposal of sewage, or any portion of such a system, whether within or without the boundaries of a district.

[1955 c.577 §1; 1959 c.157 §9]

450.255 Districts eligible for state help in financing sewerage systems. Districts that have been certified by the Environmental Quality Commission as being in need of sewerage systems may apply to the State Treasurer for the financing of such costs under authority of ORS 450.250 to 450.300. The Environmental Quality Commission shall certify to the State Treasurer, in writing, a list of the districts that are in dire need of sewerage and sanitation facilities.

[1955 c.577 §2; 1959 c.574 §1]

450.260 Conditions precedent to financing application. A district shall not apply to the State Treasurer for financing under ORS 450.250 to 450.300 unless:

(1) It submits to the State Treasurer plans and specifications prepared by competent licensed engineers setting forth the type or character of sewer system or sewerage facilities proposed for the particular district and the estimated cost of the system and of the appurtenances thereto.

(2) It submits to the State Treasurer the proposed plan of the district for liquidation of indebtedness to be incurred for financing the cost of such system or facilities.

[1955 c.577 §3]

450.265 Bonds issued by district pursuant to ORS 450.250 to 450.300 are subject to State Treasurer control; refunding bonds issuable. The bonds issued by districts pursuant to ORS 450.250 to 450.300 shall bear such dates, be in such form, run for such periods of time, bear such rates of interest not exceeding four percent per annum, and be sold by the districts at such prices not less than the par value thereof and the full amount of accrued interest

thereon, as the State Treasurer may determine. Refunding bonds of like obligation, bearing interest at not more than four percent per annum payable semiannually, may be issued to replace outstanding bonds, provided the refunding bonds are sold publicly, at not less than par value and accrued interest, upon competitive bids.

[1955 c.577 §4]

450.270 Powers of State Treasurer in connection with ORS 450.250 to 450.300. (1) The State Treasurer shall be the sole judge as to whether state funds shall be invested in the bonds of a district and as to which undertakings shall first be financed. The decision of the State Treasurer on the subject of investment and priority shall be final.

(2) The State Treasurer may enlist the technical services of any state officer or department in a study of the feasibility and cost of the sewerage project. The State Treasurer further may employ licensed engineers, at the cost of the district, to make such a study for the district and for the State Treasurer.

(3) The State Treasurer, in his discretion, may purchase with moneys from the revolving fund provided by ORS 450.250 to 450.300, general obligation sewerage system bonds of any district, issued under authority of ORS 450.250 to 450.300. If the State Treasurer deems it expedient in the acquisition and construction of a sewerage system for a district to furnish sewerage service for territory that is contiguous to or outside the boundaries of the district, the State Treasurer may authorize the district to furnish such service and to construct part of its system outside its boundaries for such purpose.

(4) The State Treasurer may authorize districts to issue sewerage system bonds with the right reserved to them to redeem bonds at par value and accrued interest prior to the final maturity dates of the bonds.

(5) The State Treasurer, in his discretion, may authorize deferment of payment of interest upon the sewerage bonds of the district for a period not exceeding three years, and may provide for the issuance of such bonds with graduated rates of interest.

(6) The State Treasurer may specify the procedure to be followed by a district in availing itself of the provisions of ORS 450.250 to 450.300.

[1955 c.577 §5]

450.275 State Treasurer approval of other bond issues by a district whose bonds are owned by state. So long as any of the sewerage bonds of the district are owned by the state, the district shall not issue other bonds of any character without prior written approval of the State Treasurer.

[1955 c.577 §6]

450.280 Circumstances and conditions under which State Treasurer may purchase sewerage system bonds. (1) The State Treasurer may purchase from a district at private sale sewerage system bonds bearing interest at a rate agreed upon by him and the district not exceeding four percent per annum payable semiannually. Such bonds shall qualify for investment by the state only if the sewer connection charges and revenues of the sewerage system of the issuing district, after the payment of operation and maintenance expenses, are pledged wholly to the payment of the principal of and interest upon the bonds, and the issuing district shall covenant to levy ad valorem taxes upon all of the taxable property within its boundaries to meet deficiencies in such charges and revenues for such purposes, and only if the combined indebtedness for all public purposes, other than state or federal, within the boundaries of the district, including the proposed sewerage system indebtedness, but excluding obligations issued for other utilities that are self-supporting or self-liquidating or are approximately so, does not exceed 25 percent of the total value of all taxable property within the district. Such value shall be determined by converting the assessed value to the true cash value, using as a basis of computation the percentage of true cash value at which property in the county or counties in which the district is located was assessed for state and county purposes, as indicated in the latest table of assessed valuations of counties filed by the Department of Revenue with the Secretary of State pursuant to ORS 309.370. The said limitation shall apply only to districts that finance the costs of their sewerage systems under ORS 450.250 to 450.300. The limitation shall include the ratios of indebtedness to the total valuation, determined in like manner, of other subdivisions that overlap the district to an extent of more than 50 percent of the total value of the district. Indebtedness within the 25 percent limitation may be incurred by a district if approved by the voters thereof at an election called and held for that purpose.

Notwithstanding that such revenues may have been pledged to the payment of the principal of and the interest upon a particular issue of general obligation bonds owned by the state, the same revenues, with the approval of the State Treasurer, may be pledged to the payment of the principal of and the interest on additional issues of such bonds purchased by the state from the district. The additional issues shall be on a parity with previous issues as to the pledge of such charges and revenues for such purposes. In order to complete the financing of a sewerage system, after bonds payable as to principal and interest from revenues and ad valorem taxation have been issued, the State Treasurer may purchase issues of general obligation sewerage system bonds of districts, payable only from ad valorem property taxes, provided such issues, together with other obligations of the district, do not exceed the debt limits specified in this section.

(2) All bonds heretofore issued under authority of ORS 450.250 to 450.300 and sold to the state, and the proceedings under which they were issued, hereby are approved, validated, ratified, and confirmed, and such bonds are the valid and legally binding general obligations of the issuing district.

[1955 c.577 §7; 1957 c.121 §1; 1959 c.574 §2; 1971 c.647 §91]

450.285 State Sanitary District Sewer Bond Fund. There hereby is created in the State Treasury a fund, separate and apart from the General Fund, to be known as "State Sanitary District Sewer Bond Fund," for investment under authority of ORS 450.250 to 450.300, and for payment of costs of the State Treasurer in connection therewith for which purposes such fund hereby is appropriated. The State Treasurer may engage such assistance and incur such expenses to carry out the purposes of ORS 450.250 to 450.300 as may be necessary. The earnings of the fund shall accrue to the General Fund, and the amounts received in payment of the principal of investments thereof shall be credited to the General Fund, to be available for the payment of general governmental expenses.

[1955 c.577 §8; 1957 c.702 §1; 1957 (s.s.) c.14 §1; 1963 c.341 §4]

450.290 Provisions concerning liquidation of indebtedness incurred by district financing a sewerage system under ORS

450.250 to 450.300. (1) Each district financing the cost of a sewerage system under authority of ORS 450.250 to 450.300 shall submit to the State Treasurer for approval, a schedule of its rates and sewer connection charges, and proposed method of collection thereof. The rates and charges shall be such as, in the judgment of the State Treasurer, are sufficient to pay the operation and maintenance costs of the system and to liquidate, during the period approved by the State Treasurer, the indebtedness incurred by the district in the construction of the system. The State Treasurer may further require as part of his agreement to purchase the bonds of the district, that the district levy and collect assessments in the manner provided by ORS 450.005 to 450.245, and that it pledge the receipts from such assessments, both principal and interest, to the payment of its bonds and the interest thereon. The district shall be fully authorized to levy and collect such assessments against properties within or without the boundaries of the district, that will be benefited by the sewerage system of the district. Should the receipts of the district prove inadequate to pay such costs and such indebtedness, the State Treasurer may direct the district to increase its rates and charges to make the sewerage project self-supporting and self-liquidating, and the district thereupon shall establish the rates and charges prescribed by the State Treasurer.

(2) If the State Treasurer so directs, delinquent charges for use of or connection with a sewerage system shall be certified to the assessor of the county or counties in which the district is located and shall be entered upon the tax rolls of the county and be collected and accounted for in the same manner in which city taxes are collected and accounted for. The said charges shall constitute liens upon the real property of the corporation or person against whom they are assessed.

(3) The district shall obtain from the State Treasurer approval of its annual budgets and tax levies before they are certified to the clerk and assessor of the county in which the district is located, for extension upon the county tax rolls.

[1955 c.577 §9]

450.295 Refinancing indebtedness of district; court-appointed receiver may operate system. If any district fails to meet, when due, any obligations sold to the state

under authority of ORS 450.250 to 450.300, the State Treasurer and the district may agree upon and put into effect, any plan they may consider expedient for refinancing the indebtedness of the district, or the State Treasurer, with the approval of the circuit court of the county in which the major portion of the assessed valuation of the district is located, may appoint a receiver to operate the sewerage system. The receiver shall act as such so long as the circuit court deems receivership necessary to protect the interests of the state and of the district.

[1955 c.577 §10]

As soon as practicable after the election of the first members of the board, the board shall make a study and survey of the existing sewage disposal facilities and systems in the authority and of its sewage disposal needs, both present and future, and prepare an overall coordinated plan for the authority which incorporates, so far as practicable, existing sewage disposal and drainage systems, future sewage treatment plants, including connecting trunk and lateral sewers, and future drainage systems. Such plan shall be revised from time to time as circumstances may require. In preparing the plan or revisions thereto, the board shall take into consider-

ation expected fluctuations in population and in business and industrial activity.
[1955 c.614 §28]

450.830 Authority may construct and operate sewage disposal and drainage systems; operation beyond authority boundaries. Portions of such systems may be constructed outside the authority where necessary or expedient. The authority may furnish sewage disposal service to areas outside the authority on a contract basis.
[1955 c.614 §29]

450.835 Contract for or purchase of sewage disposal and drainage systems. The authority may, in performing the powers conferred by ORS 450.830:

(1) Contract with any city or county, any district organized for a public purpose, any other governmental agency or any person, partnership, association or corporation for the use or joint operation of all or any portion of any sewage disposal or drainage system owned or controlled by such city, county, district, agency, person, partnership, association or corporation; or

(2) Purchase all or any portion of any sewage disposal or drainage system from such city, county, district, agency, person, partnership, association or corporation on such terms as are fair and reasonable. Where the area served by such system, or part thereof, is situated within the authority, the authority may agree, on such terms as are fair and reasonable, to furnish sewage disposal or drainage functions for the area then served by such sewage disposal or drainage system. Under this subsection, as a part of the purchase agreement and on such terms as are fair and reasonable, the authority may assume liability for any outstanding bonded or other indebtedness incurred prior to the time of purchase in connection with the facilities to be purchased.
[1955 c.614 §30]

(Finances)

450.840 Costs for construction and operation of systems and general expenses of authority, how borne. (1) The cost of construction of a sewage disposal system, including treatment plants and trunk or lateral

sewers, or a drainage system shall be borne by the area directly benefited by the system. The property within such area shall bear such cost in the manner provided in ORS 450.855.

(2) The cost of operation and maintenance of sewage disposal systems and drainage systems shall be borne by the area directly benefited by such systems. The property within such area shall bear such cost in the manner provided in ORS 450.880.

(3) The costs and expenses of the authority which are not chargeable under ORS 450.675 to 450.980 to any particular area within the authority such as over-all planning, expenses of the board, conduct of elections and hearings and mosquito and other insect control shall be borne by the entire authority in the manner provided in paragraph (a) of subsection (1) of ORS 450.885.

[1955 c.614 §31]

450.845 Areas needing sewerage installations to be determined and plans for installations to be made. Whenever the board deems it expedient or necessary for the protection of the public health, safety and welfare to cause to be constructed treatment plants or trunk or lateral sewers or drains, or any combination thereof, the board shall determine the proposed boundaries of the area to be directly benefited thereby and have a registered professional engineer prepare plans and specifications for such plants, sewers or drains. Such plans and specifications must be approved by the State Board of Health and the Environmental Quality Commission and shall be filed in the office of the authority. Parcels of land which may be served practicably by lateral sewers or drains connected with treatment plants or trunk sewers or drains and are not adequately served by existing plants, sewers or drains, as the case may be, are considered to be directly benefited by the plants, sewers or drains of the authority. If all or any portion of the cost of construction is to be specially assessed against individual property, the engineer shall include in the plans and specifications, a description of the location and assessed value of each lot, tract or parcel of land, or portion thereof, to be specially benefited by the improvement, with the names of the record owners thereof and an estimate of the unit cost of the improvement to the specially benefited property.

[1955 c.614 §32]

450.850 Hearing on board's proposed construction plans and estimated special assessments; notice of hearing. (1) After plans and specifications have been prepared and filed as provided in ORS 450.845, the board shall hold a hearing in the area which is to be directly benefited by and to pay for the proposed treatment plants, trunk or lateral sewers or drains and may adjourn the hearings from time to time.

(2) The board shall post notice of the time and place of the hearing in at least three conspicuous places in the area directly benefited, for two weeks prior to the hearing and publish such notice in a newspaper of general circulation printed and published in the area once a week for two successive weeks prior to the hearing or, if there is no such newspaper, in a newspaper of general circulation printed and published in the county in which the area, or the largest portion thereof, is situated. Such notice shall contain a statement that the board proposes to construct a sewage treatment plant or trunk or lateral sewers or drains, or any combination thereof, for the area and a statement, if special assessments are to be levied against property specially benefited, showing the estimated total cost of the improvement which is to be paid for by special assessment of benefited property and the engineer's estimated unit cost of the improvement to the specially benefited property, clearly indicating that this is an estimate and not an assessment; and set forth the proposed boundaries of the area and that all interested persons may appear and be heard.

[1955 c.614 §33]

450.855 Action board may take at hearing concerning boundaries, installations to be constructed, costs and financing. At the hearing under ORS 450.850 the board may:

(1) Modify the proposed boundaries of the area directly benefited by and to pay for the proposed installations except that no land in the authority which could not be directly benefited by the proposed installation may be included and no land in the authority which could be directly benefited by the proposed installation may be excluded. If it appears that land should be included in the area which was not included within the boundaries designated in the notice of the hearing and that the owners of such land have not appeared at the hearing the board shall adjourn the hearing and give notice to

such owners by registered mail or by posting and publishing notice in the area to be included in substantially the same manner that notice is given under subsection (2) of ORS 450.850. If the notice is given by registered mail, the notice shall be mailed at least 10 days prior to the date fixed for the further hearing. The notice shall contain the date, time and place of the adjourned hearing, a statement that the board proposes to construct sewage treatment plants or trunk or lateral sewers or drains for an area within the authority, a description of the additional area to be included within such area and a statement that all persons interested may appear and be heard.

(2) Determine what installations shall be constructed and the total cost of the construction. The cost of making engineering plans and specifications shall be borne by the area directly benefited by the installation as a part of the construction costs.

(3) Determine the manner in which the property within the area shall bear the cost of the proposed installations. The board may provide, in its sound discretion, that the cost shall be borne by assessments against the property directly benefited, by collection of sewer service charges in the area or, if general obligation bonds are to be issued and sold to finance the construction of the installations, by annual levies of taxes against property in the area, or by any combination of these methods. Such cost shall be apportioned, so far as practicable, in accordance with the special and peculiar benefit each parcel of land in the area could receive from the installation. Where parcels of land in the area are partially or wholly undeveloped or are devoted to uses which in no way require sewage disposal service, the board may, in its sound discretion, defer assessing, imposing or levying all or any part of the assessments, sewer service charges or taxes against such parcels until the parcels or the undeveloped portions thereof are connected with the installations.

(4) Determine the method of financing the construction of the proposed installations and the amount and type of bonds, if any, to be issued and sold under ORS 450.895 to 450.920 to finance the construction of the proposed installations.

[1955 c.614 §34]

The proceeds of such assessments or charges shall be used by the board, in its discretion, for payment of bonds issued to construct such plants, sewers or drains or for future improvements or additions to or maintenance of such plants, sewers or drains. The determination made under this section shall be made at the hearing of the board in connection with any proposed construction of sewage disposal or drainage systems for the area.

[1955 c.614 §57]

450.865 Ordinance specifying action of board at hearing may be adopted; remonstrances thereto. (1) After the board has concluded the hearing under ORS 450.850 and 450.855 it may adopt an ordinance specifying the installations to be constructed for the area, the boundaries of the area, the method of apportioning the construction cost to the area directly benefited, whether by assessment, by sewer service charges or annual levy, or combinations thereof, and the method of financing the construction of the installations. A copy of the ordinance shall be published once a week for two successive weeks in a newspaper of general circulation printed and published in the area directly benefited or, if there is no such newspaper, in a newspaper of general circulation printed and published in the county in which the area, or the largest portion thereof, is situated.

(2) If within 30 days after the last publication of such ordinance written remonstrances against the proposed construction are filed in the office of the authority by two-thirds or more of the owners of the land in the area directly benefited, no further proceedings shall be had in connection with the proposed construction. However, a modified proposal may be initiated within six months thereafter.

(3) If such remonstrances are not filed by two-thirds or more of the owners of the land in the area directly benefited, the board

may proceed with the construction of the installation in accordance with the ordinance. [1955 c.614 §35]

450.870 Assessments against benefited property. (1) All assessments made pursuant to subsection (3) of ORS 450.855 shall be determined and made by an order of the board adopted in accordance with such procedures as shall be established by a general ordinance adopted by the board. Such general ordinance shall establish a procedure for notice of the proposed assessment, provide for correction of errors, establish the form of the assessment order and such other procedures as are necessary to the adoption of the assessment order. It shall not be necessary to issue a separate order for each parcel of land, and any number of parcels in the same area and the same county may be included in one order. A copy of the order making an assessment, certified and acknowledged by the manager of the authority, shall be filed with the county clerk of the county in which the land is located. Upon being filed, the assessment shall constitute a lien against the land assessed.

(2) Notice of all assessments levied by an authority shall be given to the landowner by mail and shall be payable on the 30th day after such notice is mailed unless agreements for payment of such instalments are made pursuant to ORS 450.940. All assessments paid after the due date shall be charged interest at the rate of six percent per annum. All assessments shall be paid to the county treasurer who is custodian of the funds of the authority and a receipt shall be issued therefor. From time to time the board shall order the satisfaction of the liens against lands on which assessments have been paid, and a copy of such order shall be filed with the county clerk of the county in which the lands are located.

[1955 c.614 §36]

450.875 Collection of delinquent assessments by lien foreclosure procedure; reassessment procedure. (1) In case the whole or any portion of the cost of sewage treatment plants, trunk or lateral sewers or drains is assessed against property directly benefited and the owner of the property fails to pay the amount of the lien, or any portion thereof, or the interest thereon, when due, the board may proceed to foreclose the lien in any manner provided by law for the col-

(2) The board may contract with any city or district serving water in such area to collect such service charges with the water bills, and the serving agency may cut off water for nonpayment of such service charges. The board may pay the water-serving agency for the reasonable cost of such collection services.

(3) Service charges may also be collected and enforced in substantially the manner provided in ORS 224.220.

(b) Levy an additional tax on the property in any particular area within the authority to provide funds with which to pay any part of the principal and interest on general obligation bonds which are to be paid by such area where sewer service charges or assessments will not be sufficient to pay such principal and interest.

(2) Assessment and collection of taxes levied on property within the authority shall be made by the county officers charged with assessment and collection of other property taxes in the county in which the property lies.

(3) Each year, immediately after his necessary records are made, the county assessor of each county in which the authority is situated shall transmit to the board a statement in writing, showing the total value of all property within the authority and within each area within the authority which is subject to levy under paragraph (b) of subsection (1) of this section as ascertained for that year from the assessment rolls of each county in which property of the authority lies, as equalized and corrected by the county board of equalization.

(4) The board shall prepare a budget in the form, manner and time prescribed in the Local Budget Law and in accordance therewith fix the amount of money to be raised by taxation for carrying out its functions and activities and for the payment of the principal and interest of outstanding indebtedness of the authority which will become due during the year. (5) The board shall, in the manner and time prescribed by law, transmit to the county assessor of each county a statement of taxes which are to be collected in such county. If the board fails to levy taxes under this section sufficient to pay the interest on and the maturing principal of all outstanding general obligation bonds of the entire authority or on property in areas which are primarily obligated to pay the bonds, the governing body of the counties in which the authority is situated shall cause such taxes to be levied, extended and collected and, if necessary, cause a tax on all the property in the authority to be levied, extended and collected to pay general obligation bonds of the authority. The actual value shall be the amount obtained by dividing the assessed value of the property within the authority, as shown upon the assessment roll as of January 1 of the latest calendar year for which a valuation has been certified pursuant to ORS 311.105, by the assessment ratio for such year for the county or counties in which the authority is located, as shown in the statement filed by the Department of Revenue with the Secretary of State, pursuant to ORS 309.370.
