HAZARD ABATEMENT

477.062 Inadequately protected forest land declared nuisance; notice to protect; work at expense of owner; collection of amount expended. (1) All forest land inadequately protected from fire, which by reason of its situation or condition or lack of protection endangers life or property, is declared to be a public nuisance.

(2) Whenever the forester learns thereof he shall direct the owner or operator of such forest land to take proper steps for its protection and advise him of means to that end. In case of refusal or neglect by either to take precautions against fire required by law or directed by the forester within 10 days after written notice has been given, then the forester or any warden, acting with consent of the forester, may have such work done as he considers necessary for the protection of life or property, summarily, without the necessity of court action.

(3) The cost of work under subsection (2) of this section and the expense of any patrol rendered necessary by the want of adequate protection of such forest land shall be recoverable from the offender by an action prosecuted in the name of the state.

(4) All moneys collected under this section shall be paid into the State Treasury, credited to the State Forestry Department Account and expended as other moneys in that account are expended.

[Formerly 477.032; amended by 1965 c.253 §50]

FIRE ABATEMENT

477.064 Uncontrolled fire declared nuisance. Any fire on any forest land in Oregon burning uncontrolled or without proper action being taken to prevent its spread, notwithstanding its origin, is declared a public nuisance by reason of its menace to life and property. The spread of fire in forest land across an ownership boundary is prima facie evidence of fire burning uncontrolled.

[Formerly 477.034]

477.066 Duty of owner and operator to abate fire; abatement by authorities. (1) Each owner and operator of forest land on which a fire exists or from which it may have spread, notwithstanding the origin or subsequent spread thereof, shall make every reasonable effort to control and extinguish such fire immediately when its existence comes to his knowledge, without awaiting instructions from the forester, and shall continue until the fire is extinguished.

(2) If the owner or operator fails so to do, or if the fire is burning uncontrolled, the forester, or any forest protective association or agency under contract or agreement with the board for the protection of forest land against fire, and within whose protection area the fire exists, shall summarily abate the nuisance thus constituted by controlling and extinguishing the fire.

[Formerly 477.036; 1961 c.603 §7; 1965 c.253 §51; 1967 c.429 §1]

477.067 Notice of fire. For the purpose of ORS 477.066, notification to the owner or operator of the forest land, is considered sufficient notification to the owner of the existence of a fire.

[Formerly 477.042 and then 477.071]

477.068 Liability for cost of abatement; lien; foreclosure. (1) In case an owner or operator fails to make the effort required by ORS 477.066, or is wilful, malicious or negligent in the origin of the fire, the actual cost incurred by the forester or a forest protective association or agency in controlling or extinguishing the fire shall be recovered from such owner or operator when necessary by an action prosecuted in the name of the State of Oregon, or such forest protective association or agency, or both.

(2) An itemized statement of the actual costs incurred by the forester or association or agency, or both, certified to by the forester, shall be accepted as prima facie evidence of such costs in any proceeding authorized by this section.

(3) The cost in cases covered by ORS 477.066 shall constitute a general lien upon the real and personal property of such owner or operator. A written notice of the lien, containing a description of the property and a statement of the cost, shall be certified under oath by the forester or any warden and filed in the office of the county clerk of the county in which the lands and personal property are situated within six months after the calendar year within which the fire originated, and

may be foreclosed in the manner provided by law for foreclosure of liens for labor and material.

(4) Upon request of the forester, the district attorney for the district in which the lands and personal property are situated or the Attorney General shall prosecute such action or foreclose the lien in the name of the State of Oregon or such forest protective association or agency, or both. Liens provided for in this section shall cease to exist unless suit for foreclosure is instituted within six months from the date of filing under subsection (3) of this section.

[Formerly 477.038; amended by 1955 c.218 §1; 1959 c.363 §6; 1961 c.603 §8; 1965 c.253 §53; 1965 c.428 §§11, 12]

477.069 Negligence in origin and in failure to control fire may be united in one complaint. Notwithstanding any other law, in any action authorized by ORS 477.068 to collect the costs incurred, the plaintiff may unite in the same complaint causes of action based upon any or all of the grounds therein mentioned.

[1957 c.157 §1; 1961 c.603 §9; 1965 c.253 §54]

477.070 [Formerly 477.040; amended by 1955 c.218 §2; 1959 c.363 §7; 1961 c.603 §10; 1963 c.107 §4; repealed by 1965 c.253 §46 (477.056 enacted in lieu of 477.070)]

477.071 [Formerly 477.042; 1961 c.603 §11; 1965 c.253 §52; renumbered 477.067]

477.080 [Repealed by 1953 c.372 §22]

477.082 [Repealed by 1953 c.372 §22]

477.085 Liability for cost of protecting land in forest protection district. Any person who wilfully or negligently sets a fire or causes a fire to be set, which fire burns on land within the exterior boundaries of a forest protection district or within one-half mile of such boundaries, and for which efforts to control or extinguish the fire in order to protect forest land within the district from fire are exerted by the forester or any forest protective association or agency under contract or agreement with the board, is liable for the actual costs incurred by the forester, association or agency in such efforts. The costs shall be recovered from the person liable therefor in the same manner as costs recovered under ORS 477.068.

(1) The administrator appointed by the Emergency Fire Cost Committee, with the approval of the committee, may enter into uniform cooperative agreements with the board and any association of forest land owners engaged in forest fire protection and suppression for protected west side forest lands, as defined in ORS 321.005, under such terms as the committee considers advisable to carry out the purposes and intent of ORS 321.005 to 321.225 and 477.425 to 477.460.

(2) Such agreements shall provide for the certification and payment of fire suppression costs from the Forest Emergency Fire Cost Account, created by ORS 321.165,

to forest protective associations and forest protection districts. The agreements shall provide for additions to and advances from the Forest Emergency Fire Cost Account from and to such associations and districts.

(3) The Emergency Fire Cost Committee may require for any fiscal year that, prior to payment of costs from the account, a forest protective association or forest protection district expend for fire suppression on protected west side forest lands at least an amount fixed by order of the committee. The committee shall fix such an amount, not to exceed one cent per acre, as it considers necessary to carry out the purposes and intent of ORS 321.005 to 321.225 and 477.425 to 477.460. Such minimum amount per acre shall apply uniformly to each forest protective association and forest protection district.

Agreements by the State Forester made pursuant to section 3, chapter 89, Oregon Laws 1951, with respect to protected west side forest land, as defined in ORS 321.005, are considered to be agreements made pursuant to ORS 477.425. Such agreements shall be administered by the administrator and the Emergency Fire Cost Committee in the same manner as agreements made by the administrator and the committee pursuant to ORS 477.425.

CLOSED SEASONS

(General Provisions)

477.505 State Forester may declare closed season in district. (1) When conditions of fire hazard exist in a forest protection district or any part thereof, the State Forester may designate for that district or any part thereof the date of the beginning of a closed season for that year. The closed season shall continue for that district or part thereof until ended by order of the State Forester when conditions of fire hazard no longer exist in that district or part thereof.

(2) The State Forester may, during the same year and for the same district under circumstances similar to those described in sub-

section (1) of this section, designate one or more subsequent closed seasons.

[1965 c.253 §93; 1969 c.204 §3]

477.510 Acts prohibited during closed season. It is unlawful, during a closed season in a forest protection district, to:

(1) Smoke while working in or traveling through any operation area in the district.

(2) Use fuse and caps for blasting in the district unless approval is granted by the forester.

(3) Use explosives in the topping of trees in the district unless approval is granted by the forester.

[Formerly 477.165]

(Permits)

477.515 Permits required for fires on forest lands; waiver; permit conditions; smoke management plan; restricted areas; rules; excepted areas. (1) It is unlawful to set or cause to be set on fire any forest land, including flammable forest growth, forest refuse, slashing or forest debris, or any grass, grain, stubble, debris or other such flammable material, within the boundaries of a forest protection district or within one-eighth of one mile of a forest protection district for which a closed season has been designated under ORS 477.505, or when required under rules promulgated pursuant to subsection (3) of this section either on one's own land or on the land of another, without first securing a written permit from the forester or a warden and complying with the conditions of the permit. The forester may waive the requirement that the permit referred to in this section be secured prior to burning whenever conditions are such as to justify oral permission.

(2) In granting permits, the forester or any warden may prescribe conditions necessary to be observed in setting a fire and preventing it from spreading. Any permit obtained through wilful misrepresentation is void.

(3) (a) For the purpose of maintaining air quality, the State Forester and the Department of Environmental Quality shall approve a plan for the purpose of managing smoke in areas they shall designate. The plan shall delineate restricted areas to which this subsection applies. The plan shall also include but not be limited to considerations of weather, volume of material to be burned, distance of the burning from designated areas, burning techniques, and provisions for cessation of further burning under adverse air quality

conditions. All burning permitted within the restricted areas shall be according to the plan. The plan shall be developed by the State Forestry Department in cooperation with federal and state agencies, landowners and organizations which will be affected by the plan. The approved plan shall be filed with the Secretary of State and may thereafter be amended in the same manner as its formation.

(b) The State Forester shall promulgate rules to carry out the provisions of the smoke management plan approved under this subsection.

(4) The requirements of this section do not apply to lands protected pursuant to ORS chapter 476 or 478, or lands protected within a city and for which lands a burning permit is required under such authority.

[1965 c.253 §95; 1969 c.204 §204; 1969 c.680 §1; 1971 c.297 §1]

477.520 Suspension or revocation of permits. (1) The forester or any warden may refuse, suspend or revoke a permit authorized by or issued under subsection (1) of ORS 477.515, when necessary in his judgment to prevent danger to life, health or property. He may also refuse, suspend or revoke a permit authorized by or issued under subsection (1) of ORS 477.515, when necessary in his judgment, and after consultation with the Environmental Quality Commission to prevent air pollution, as defined in ORS 449.760.

(2) On the advice of the forester that conditions in a forest protection district, or part thereof, so require, the Governor may suspend any or all such permits and prohibit the use of fire therein.

[1965 c.253 §96; 1969 c.680 §2]

477.525 [1965 c.253 §97; repealed by 1967 c.429 §14 (477.526 enacted in lieu of 477.525)]

477.526 [1967 c.429 §15 (enacted in lieu of 477.525); repealed by 1969 c.204 §8]

477.530 Fire permits in federal grazing districts. (1) It is unlawful during a closed season to set or cause to be set on fire any forest land, grass, grain or stubble within the area inclosed by the outside boundaries of a federal grazing district established by the United States Department of the Interior, for which area a closed season has been designated, either on one's own land or on the land of another, without first securing a written permit from a fire warden appointed for the grazing district pursuant to paragraph (b) of subsection (1) of ORS 477.355.

(2) In granting permits, a warden in a federal grazing district may prescribe condi-

tions necessary to be observed in setting a fire and preventing it from spreading. The warden may refuse, suspend or revoke a permit when necessary in his judgment to prevent danger to life or property, and may prescribe conditions under which permits are not required. Any permit obtained through wilful misrepresentation is void.

(3) This section does not apply to any land within the boundaries of a city or that does not border or corner on the federal range.

[1965 c.253 §98]

477.532 Regional air quality authority's functions limited. None of the functions of the Environmental Quality Commission under ORS 477.515 and 477.520 shall be performed by any regional air quality authority established pursuant to ORS 449.855.

[1969 c.680 §5]

(Restricted Uses)

477.535 Forester may proclaim forest land subject to restricted uses. (1) If the forester determines that any forest land is particularly exposed to fire danger, by proclamation he may designate such forest land as an extra fire hazard and may restrict the use of such forest land.

(2) The proclamation shall designate the area to which and the period during which the restrictions apply, and require that the area be subject to use only upon the condition that entrants comply with all the restrictions for the area.

(3) The proclamation shall designate the type of closure as:

(a) Regulated closure;

(b) Permit closure; or

(c) Absolute closure.

[Formerly 477.156; 1967 c.429 §45]

477.540 Notice of proclamation; suspension or termination; reinstatement. (1) The forester shall cause a notice of the type, restrictions and effective date of closure proclaimed under ORS 477.535 and the manner in which permits may be secured if the area is subject to permit closure, to be posted on the main traveled roads entering the designated areas. The forester shall also cause a notice of each proclamation to be published in at least one newspaper of general circulation in the state and, if the forester considers it practicable, one newspaper published in each forest protection district containing the designated areas. Each published notice shall

describe the area, type, restrictions and effective date of closure, and the manner in which permits may be secured if the area is subject to a permit closure.

(2) The proclamation shall remain in force until the time designated therein expires or until the forester finds that the restricted use is no longer requisite and by order suspends or terminates it. A reinstatement of a closure after a suspension does not require the notices described in subsection (1) of this section.

[Formerly 477.160; 1967 c.429 §46; 1969 c.204 §5]

477.545 Restricted uses during closure.

(1) Regulated closures require entrants into designated areas to comply with the requirements set forth in the proclamation under ORS 477.535, which requirements in the judgment of the forester are necessary to prevent danger to life or property.

(2) Permit closures make the area subject to entry only through permit issued by the forester or a warden. The permit shall contain requirements which in the judgment of the forester are necessary to prevent danger to life or property. The forester may, during periods of fire hazard conditions, refuse, suspend, revoke or restrict such permits.

(3) Absolute closures restrict the areas to all forms of use and shall be designated only during periods of extreme fire hazard conditions endangering life or property.

[Formerly 477.158; 1967 c.429 §47; 1969 c.204 §6]

477.550 Violation of restrictions; access for fire fighting permitted. (1) Except as provided in subsection (2) of this section, it is unlawful to enter any restricted area except in compliance with ORS 477.535 and 477.545, or to violate any of the requirements or restrictions under such sections.

(2) Nothing in this section applies to an owner's right of entry upon his own land or prohibits free access to any area by anyone for the sole purpose of preventing or extinguishing fires.

[Formerly 477.162; 1967 c.429 §48]

SNAGS; SLASHING AND OTHER DEBRIS

477.565 Felling dead trees and snags.

(1) In an operation on forest land:

(a) If power-driven equipment is used at any location to load and assemble forest products, the operator shall fell all dead trees and snags of such size and within such distance of the equipment as may be required by rules promulgated by the forester.

(b) On forest land west of the summit of the Cascade Mountains, the operator shall fell all dead trees and snags within the operation area of such size, at such times and in such manner as may be required by rules promulgated by the forester.

(2) Rules promulgated under this section shall prescribe such felling as reasonably is necessary to prevent the spread of fire.

[Formerly 477.217; 1967 c.429 §49]

477.570 "Slashing" defined; annual burning required. (1) As used in ORS 477.570 to 477.585, "slashing" means the forest debris or refuse on any forest land resulting from the cutting, killing, pruning, severing or removal of brush, trees or other forest growth.

(2) Any person who conducts or permits an operation on any lands in this state, thereby creating a fire hazard, shall, unless relieved by the forester as provided in ORS 477.580, each year remove such hazard by burning the annual slashing at such time and in such manner, and with such provisions of help, as shall afford all necessary precautions against the spread of fire to other property.

[Formerly 477.242]

477.575 Burning slashing; methods. At any time of the year in a forest protection district, all burning of annual slashing in the district as required by ORS 477.570 shall be done in accordance with ORS 477.515 to 477.526. Before any such burning, the person shall first cut down all dead trees and snags over 25 feet in height for a distance of not less than 250 feet inward from any exterior boundaries of such slashings which are adjacent to standing timber or reproducing areas.

[Formerly 477.244; amended by 1969 c.680 §3]

477.580 Waivers and releases. (1) Upon written request of the owner or operator, the forester may waive the requirements of ORS 477.570 as to all or part of an operation area if he finds that additional protection will be provided to offset the hazard created by slashing and other debris resulting from the operation until the hazard has been satisfactorily reduced through deterioration or other means, and:

(a) That burning will create an additional hazard; or

(b) That burning will do excessive damage to forest reproduction or residual stands; or

(c) That burning will retard forest re-
stocking; or

(d) Other similar causes.

(2) Upon a finding by the forester that the hazard created by such slashing and other debris has been removed by burning, or that the hazard has been satisfactorily reduced through deterioration or other means, the forester shall issue to the owner or operator a release from all obligations imposed by ORS 477.570.

(3) The forester may, if he considers such action advisable, grant a release upon payment by the owner or operator of such sum of money as the forester finds necessary to provide the additional protection or burning required by the hazard created by such slashing and other debris. In no event may this sum exceed \$1 for each 1,000 board feet of timber harvested. Moneys received under this subsection shall be placed in the State Treasury, credited to the State Forestry Department Account and used exclusively for the purposes of forest protection within the district.

(4) Any owner of forest land may make written request to the forester to assume all obligations for the disposal or reduction of such slashing and other debris and fire hazard thereon. If the forester then determines that the owner can comply with such obligation, he shall immediately issue to all other persons involved a written release of such obligations.

(5) Any order made by the forester pursuant to this section is final unless modified or vacated in an appeal to the board taken within 30 days after issuance of the order.
[1965 c.253 §121; 1965 c.428 §16; 1967 c.429 §54]

477.585 Conditions of waiver; failure of owner or operator to perform conditions. (1) Any waiver made by the forester under subsection (1) of ORS 477.580 may provide that it is effective only if conditions to reduce the fire hazard set forth in the waiver are performed. Upon failure of the owner or operator to perform any of the conditions set forth in such an order, the forester may cause the conditions to be performed and may recover the cost thereof from the offender in the manner provided by subsection (3) of ORS 477.062.

(2) The forester pursuant to ORS 526.041 shall promulgate rules to carry out this section.
[1967 c.429 §56]

PLANT, MACHINERY AND EQUIPMENT REGULATIONS

(Enjoining Violations)

477.605 Enjoining violations of ORS 477.615 and 477.645 to 477.655. Any person violating any provisions of ORS 477.615 and 477.645 to 477.655 may be enjoined in an appropriate judicial proceeding from the further use of such logging equipment, mill or plant until he complies with these sections.
[Formerly 477.218]

477.610 Standardization of fire-fighting equipment used to protect forest land. (1) Notwithstanding any other law, the forester, in cooperation with other forest protection associations and agencies, shall carry on a continuous program for the standardization of equipment used for the protection of forest land from fire, and from time to time shall issue rules, with the approval of the board, for such standardization where it is the finding of the forester and board that such standardization is economically feasible and permits greater utility in the use of such equipment.

(2) The provisions of ORS 476.410 to 476.440 shall not apply to equipment used for the protection of forest land from fire.
[1965 c.76 §§2, 3]

(General Regulations)

477.615 Additional water supply. (1) When, in the judgment of the forester, a logging operation is of sufficient size and so planned and operated as to justify additional protection from fire, the owner or operator, within 30 days after having been so directed by the forester in writing, shall provide additional water supply, and equipment for its use in fire suppression, that is in conformity with rules promulgated by the forester.

(2) All such equipment, during a closed season, shall be kept in constant readiness for instant use in fighting forest fires. However, nothing in this section prohibits the use of the equipment by the operator for sprinkling roads or other uses within the operation area.

(3) Rules promulgated under this section shall prescribe such water supply and equipment as reasonably are necessary to provide immediate and effective suppression of fires on forest land.
[Formerly 477.212; 1967 c.429 §17]

477.620 Requirements concerning installation or operation of mill or plant. (1) Any person operating a mill or plant from which refuse is burned in or within one-eighth of one mile of forest land shall provide and maintain a closed refuse burner of a type and size which, in the judgment of the forester, is adequate to prevent the spread of fire, unless the forester specifies other measures as equally adequate to prevent the spread of fire. The ground around the mill or plant, including the required refuse burner, shall be cleared for a distance of not less than 200 feet unless a lesser distance is specified by the forester.

(2) Any person operating a mill or plant for the prefabrication or manufacture of forest products, from which refuse is disposed of in forest land without burning, shall clear the ground around the mill or plant for a distance of not less than 200 feet, unless a lesser distance is specified by the forester. The forester, during a closed season affecting such forest land, shall require a cleared fire line around such refuse which in his judgment is adequate to reduce fire hazard conditions.

(3) Any person who constructs or installs a mill or plant for the prefabrication or manufacture of forest products in or within one-eighth of one mile of forest land shall first obtain a written permit from the forester. The permit shall contain requirements which in the judgment of the forester are adequate to prevent the spread of fire from the mill or plant or refuse.
[Formerly 477.215]

477.625 Permit to use fire or power-driven machinery; conditions. Every person conducting an operation using fire in any form or power-driven machinery shall first obtain from the forester a written permit for the calendar year, which shall require that the holder of the permit:

(1) Take reasonable precautions which in the judgment of the forester are necessary in the use of fire and to prevent the spread of fire on or from an operation.

(2) Designate a representative authorized to act on all matters having to do with fire control, which representatives shall be available at all times by direct means of communication with the forester.

(3) If operating west of the summit of the Cascade Mountains, close down any part

or all of the operation during any period of time when notified that, in the judgment of the forester, conditions exist as described in ORS 477.670.

(4) If operating west of the summit of the Cascade Mountains, furnish and maintain such weather instruments as the forester may prescribe as adequate in his judgment to indicate fire hazard conditions.
[Formerly 477.286]

477.630 Description of area. Each permit issued under ORS 477.625 shall state by legal subdivisions the area upon which any operation is being conducted.
[1965 c.253 §108]

477.635 Authority to issue, refuse, suspend or revoke permit. The forester may issue the permits required in ORS 477.625 and suspend or revoke such permits because of violation of the terms thereof or noncompliance with this chapter. He shall refuse to issue a permit to any person for the conduct of an operation when, in his judgment, an excessive amount of forest debris in and around the operation results in extreme danger of fire damage to adjoining property.
[Formerly 477.288]

477.640 Use and refueling of portable power saws. Any person using, operating or fueling a portable power saw on or within one-eighth of one mile of forest land, which saw is powered by an internal combustion engine, shall comply with the rules of the forester relating thereto, promulgated for the prevention and suppression of fire.
[Formerly 477.290]

(Closed Season Regulations)

477.645 Steam or internal combustion engines. (1) During a closed season in a forest protection district, every person operating a steam or internal combustion engine inside or within one-eighth of one mile of the district shall equip and maintain the engine in conformity with rules promulgated by the forester. These rules shall prescribe such equipment as reasonably is necessary to prevent the escape of fire from such an engine.

(2) Escape of fire from any engine described in this section is prima facie evidence that it has not been equipped and maintained adequately in compliance with rules promulgated under this section.
