The capital construction program shall contain the estimated physical construction requirements for each biennium of a period to be determined by the Governor, which period shall not be less than six years. The department shall assist the Governor in the preparation of the capital construction program.

(2) Except as otherwise provided in subsection (3) of this section and in accordance with regulations prescribed by the department, state agencies shall submit to the department their anticipated capital construction requirements for the period specified by the Governor. The department shall prescribe the basic assumptions relating to population changes, economic trends and other factors which might generally affect capital construction requirements and these basic assumptions shall be used by the state agencies in preparing their anticipated capital construction requirements. Each state agency is responsible for the basic assumptions which affect only its own program. The department shall prepare estimated capital construction requirements for any necessary capital construction not covered by the capital construction requirements submitted by the state agencies under this section.

(3) Each state agency, including the department, required under subsection (2) of this section to submit or prepare anticipated or estimated capital construction requirements, shall submit a copy of such requirements that relate to construction or im-

provements within the areas described in ORS 276.028 to the Capitol Planning Commission at a time specified by the Capitol Planning Commission, but not later than August 1 of each even-numbered year. The Capitol Planning Commission shall review capital construction requirements submitted as required by this subsection and, not later than November 1 of each even-numbered year, make recommendations to the department with respect to such capital construction proposals.

(4) In accordance with regulations prescribed by the department, each state agency shall separately submit its estimated office space requirements for the period specified by the Governor; and the department shall consolidate those needs and make an estimate for all state office buildings to be included in the capital construction program.

(5) The Governor shall consolidate the estimates, review all of them and make such revisions as he finds warranted.

(6) The budget report shall include the proposed expenditures for the capital construction program for the ensuing biennium and the proposed expenditures for preliminary planning of the construction projects included in the capital construction program for the biennium following the ensuing biennium. The budget report shall also include dollar estimates of the cost of the capital construction projects included in the capital construction program for the succeeding years of the period determined by the Governor under subsection (1) of this section and the recommendations submitted to the department pursuant to subsection (3) of this section.

(7) As used in this section, "capital construction program" does not include the acquisition, repair, improvement, enlargement, construction or maintenance of highways and highway bridges, or park improvements, by the Department of Transportation. [1959 c.500 §1; 1973 c.129 §5]

291.226 Budget item to replace lost and unrecovered public funds or property. When there has been a failure to recover a loss of public funds or property pursuant to ORS 297.120, the state agency sustaining the loss shall include the amount of the loss in its budget estimate and request for the following biennium clearly marked as to purpose, and the Governor shall include such item in his budget report for the consideration of the Legislative Assembly. [1963 c.617 §3]

ALLOTMENTS

291.232 Declaration of policy. It is declared to be the policy and intent of the Legislative Assembly that the total appropriations made by it, or the total of any budget approved by it, for any state agency, shall be deemed to be the maximum amount necessary to meet the requirements of such agency for the biennium, excepting as may otherwise be provided by law, and that the Governor and the Executive Department are given the powers granted by ORS 291.202 to 291.222 and 291.232 to 291.260 in order that savings may be effected by careful supervision throughout each biennium, with due regard to changing conditions, and by promoting more economic and efficient management of state agencies.

291.234 Department to make allotments to state officers and agencies of appropriations and funds; allotment period. (1) The department shall make allotments to state officers and agencies of appropriations and funds pursuant to the allotment system provided for in ORS 291.234 to 291.260.

(2) For the purposes of the allotment system, each fiscal year shall be divided into four quarterly allotment periods, beginning, respectively, on the first days of July, October, January and April. However, in any case where the quarterly allotment period is impracticable, the department may prescribe a different period suited to the circumstances, not exceeding six months nor extending beyond the end of the biennium.

291.236 Allotment system applicable to all appropriations; controlling expenditures and encumbering of emergency, contingent, revolving and trust funds. (1) The provisions of ORS 291.234 to 291.260 relating to the allotment system shall apply to all appropriations for state officers and agencies. For this purpose "appropriation" includes standing, continuing and annual appropriations, and dedicated funds. In those cases where periodical allotments are impracticable, the department may dispense therewith and prescribe such regulations as will insure proper application and encumbering of funds.

(2) Subject to ORS 291.238, emergency or contingent funds, revolving funds and trust funds shall be subject to such regulations as the department may prescribe for controlling the expenditures and encumbering of such funds.

291.238 Expenditures without allotment prohibited; expenditures from dedicated, revolving and trust funds. (1) Except as expressly authorized in this section or ORS 291.236, no person shall incur, or order or vote to incur, any obligation against the state in excess of, or make or order or vote to make any expenditure not authorized by, an allotment. Any such obligation so incurred shall not be binding against the state, but where the obligation violates this section only for having been made in excess of an allotment, the department may authorize payment thereof from unallotted funds.

(2) Excepting as to administrative expenditures from dedicated, revolving and trust funds and to revolving funds established to provide services rendered by any state agency to other state agencies or to any body politic of the State of Oregon, expenditures from dedicated funds, revolving funds and trust funds may be made by any state agency without appropriation or allotment.

(3) No person shall make or order or vote to make any expenditure from or chargeable to a revolving fund or trust fund in excess of the amount standing to the credit of such fund or for any purpose for which such fund may not lawfully be expended.

291.240 [Repealed by 1953 c.168 §4]

291.242 Allotment required before expenditure of appropriation; submitting estimates. No appropriation to which the allotment system is applicable shall become available to any state agency for expenditure thereby during any allotment period until:

(1) The agency submits to the department an estimate, in such form as the department prescribes, for such allotment period, of the amount required for each activity to be carried on during that period; and

(2) The estimate is approved, increased or decreased by the department and funds allotted therefor.

291.244 Department action on estimates. The department shall act promptly upon all estimates required by ORS 291.242. If the estimate is within the terms of the appropriation as to amount and purposes, having due regard for the probable further needs of the agency for the remainder of the term for which the appropriation was made, and if

the department determines that there is a need for the estimated amount for the allotment period, the department shall approve the estimate and allot the estimated amount for expenditure. Otherwise the department shall modify the estimate so as to conform with the terms of the appropriation and the prospective needs of the agency, and shall reduce the amount allotted accordingly.

291.246 Allotments to be made for purpose or classification of expenditure prescribed in appropriation measure. Allotments shall be made according to purpose and classification of expenditures prescribed in the appropriation measure as enacted by the Legislative Assembly; provided, however, that the department may make allotments for agencies by purposes or by other classification of expenditures of amounts appropriated or authorized to be expended in appropriation measures enacted by the Legislative Assembly, whether or not such measures establish classification of expenditures. In making allotments, the department shall not authorize the expenditure of moneys for any purpose not authorized by the Act appropriating the money or authorizing it to be expended, and the funds allotted for each purpose or classification of expenditure shall be used for no other purpose or classification of expenditure.

[Amended by 1963 c.182 §7]

291.248 Notice of allotment. Upon the granting of any allotment, the department shall transmit a notice of the allotment to the agency concerned.

291.250 Claims and encumbrances limited by amount and purpose of allotment. The agency shall not create any claim or encumbrance for the future disbursement of appropriated moneys unless the proposed expenditure as estimated, together with expenses theretofore paid from or encumbered against such allotment, is within the total amount and for the purposes specified in the notice of allotment transmitted to such agency.

291.252 Modifying allotment previously made. The department may at any time modify or amend any allotment previously made by it, upon application of, or upon notice to, the agency concerned, but no such modification or amendment shall reduce an allotment below the amount required to meet

valid obligations or commitments previously incurred against the allotted funds.

291.254 Reducing allotment to prevent deficit. If the department determines at any time that the probable receipts from taxes or any other sources for any appropriation will be less than was anticipated, and that consequently the amount available for the remainder of the term of the appropriation or for any allotment period will be less than the amount estimated or allotted therefor, the department shall, with the approval of the Governor, and after notice to the agency or agencies concerned, reduce the amount allotted or to be allotted so as to prevent a deficit.

291.256 [Repealed by 1959 c.608 §1]

291.258 Approval of department required for establishment of new personnel position or classification. A new personnel position or classification, not provided in the budget of an agency upon which appropriations have been based, shall not be established without prior approval of the department.

291.260 Approving, modifying or disapproving requests and budgets to be submitted to the Federal Government. Every state agency, when making requests or preparing budgets to be submitted to the Federal Government for funds, equipment, materials or services, other than for highway purposes, and purposes for which the state was legally committed on August 2, 1951, shall, upon completion of such request or budget, first submit it to the department. The department shall have authority to approve, disapprove, modify or amend any such request or budget before it is submitted to the proper federal authority.

291.274 Determination of funds and appropriations to be assessed. The department shall determine and may at any time redetermine which state funds or appropriations shall be assessed a reasonable share of governmental service expenses. In determining or redetermining the funds that shall be so assessed:

(1) A fund consisting of moneys the use of which is restricted by the Oregon Constitution shall be assessed only those governmental service expenses ascertained as being necessarily incurred in connection with the purposes set forth in the Oregon Constitution.

(2) The department, in accordance with the procedures and methods prescribed under subsection (3) of this section, shall determine and may at any time redetermine the reasonable share of governmental service expenses to be assessed against any fund or appropriation. Such expenses shall be a charge against any fund so designated and be considered an administrative expense of the agency administering the fund or appropriation.

(3) The department, with the approval of the Governor, shall prepare and prescribe the procedures and methods used in determining and redetermining the reasonable share of governmental service expenses assessed against any fund or appropriation.

(2) In the case of a state agency that collects or receives moneys for fees, fines, licenses or taxes not by law made a part of the General Fund available for general governmental purposes, if moneys available to such state agency are not sufficient to permit the transfer under subsection (1) of this section, the department shall notify the

state agency of the amount certified with respect to the state agency under ORS 291.274 and 291.276, less any amount transferred out of moneys appropriated to such state agency under subsection (1) of this section. Thereafter, until such balance has been paid into the General Fund, 10 percent of all moneys collected or received by the state agency for fees, fines, licenses or taxes not by law made a part of the General Fund available for general governmental purposes shall be:

(a) Transferred by the department to and made a part of the General Fund available for general governmental purposes if such moneys are paid to the State Treasurer by the state agency; or

(b) Paid to the State Treasurer by the state agency receiving such moneys at the time when they are received by the state agency if such moneys are authorized by law to be kept and disbursed other than by and through the State Treasurer, and be credited by the State Treasurer to and made a part of the General Fund available for general governmental purposes.

(3) The transfer and payment to the General Fund required by this section shall be made notwithstanding any law that appropriates such moneys or any of them to any other purposes, and such portion so paid and transferred is not subject to any special uses thereby provided.

(2) In the laws enacted by the Legislative Assembly, the establishment of maximum limits for expenditures from, or for the payment of administrative expenses from, fees, moneys or other revenues collected or received by any agency is not intended as an appropriation of moneys not otherwise available to such agency.

(2) The department shall prepare a statement, summarizing:

(3) There shall be segregated from the total of the items tabulated in accordance with subsection (2) of this section the amount necessary for the payment of bonded indebtedness and interest thereon, and this amount shall constitute the state tax levy on property.

(b) If the application is to be submitted to the Federal Government when the Legislative Assembly is not in session, the application shall be submitted to the Emergency Board for review.

(2) If the legislative agency authorized under subsection (1) of this section to review applications described therein approves the application, it may be submitted to the appropriate federal agency. If the legislative agency disapproves of the application, it shall not be submitted to any federal agency unless it is or can be modified to meet the objections of the legislative agency.

(3) Notwithstanding subsection (1) of this section, the Joint Committee on Ways and Means and the Emergency Board may exempt any state agency from the requirements of this section. Project grants for departmental research, organized activities related to instruction, sponsored research or other sponsored programs carried on within the Department of Higher Education, for which no biennial expenditure limitations have been established, are exempt from the requirements of this section.

(4) The review required by this section is in addition to and not in lieu of the requirements of ORS 293.550.
