(D) The Oregon law regulating solid waste imposes standards more stringent than the federal law requires.

(2) The applications shall be made in writing in a form prescribed by the department and shall contain information on the actual cost of the facility or facilities, a description of the materials incorporated therein, all machinery and equipment made a part thereof, the existing or proposed operational procedure thereof, and a statement of the purpose of prevention, control or reduction of air or water pollution or solid waste served or to be served by the facility or facilities and, for a facility qualifying under paragraph (a) of subsection (1) of this section, the portion of the actual cost properly allocable to the prevention, control or reduction of air or water pollution as set forth in subsection (2) of ORS 468.190.

468.170 Action on application; effect of rejection; appeal; issuance of certificate; effect of certification. (1) The commission shall act on an application for certification before the 120th day after the filing of the application under ORS 468.165. The action of the commission shall include certification of the actual cost of the facility and, for facilities qualifying under paragraph (a) of subsection (1) of ORS 468.165, the portion of the actual cost properly allocable to the prevention, control or reduction of air or water pollution as set forth in subsection (2) of ORS 468.190. Each certificate shall bear a separate serial number for each such facility.

(2) If the commission rejects an application for certification, or certifies a lesser actual cost of the facility or a lesser portion of the actual cost properly allocable to the prevention, control or reduction of air or water pollution or solid waste than was claimed in the application for certification, the commission shall cause written notice of its action, and a concise statement of the findings and reasons therefor, to be sent by registered or certified mail to the applicant before the 120th day after the filing of the application. Failure of the commission to act constitutes rejection of the application.

(3) If the application is rejected for any reason, including the information furnished by the applicant as to the cost of the facility, or if the applicant is dissatisfied with the certification of actual cost or portion of the actual cost properly allocable to prevention,

control or reduction of air or water pollution or solid waste, the applicant may appeal from the rejection as provided in ORS 468.110. The rejection or the certification is final and conclusive on all parties unless the applicant takes an appeal therefrom as provided in ORS 468.110 before the 30th day after notice was mailed by the commission.

The 10-year period shall begin with the tax year of the person in which the facility is certified under this section. However, such a facility certified after December 31, 1980, shall be certified pursuant to the procedures, costs properly allocable and all other matters as if it were a facility subject to certification under paragraph (a) of subsection (1) of ORS 468.165.

The request shall be in a form prescribed by the department.

(2) Within 30 days of the receipt of such request, the department may require, as a condition precedent to issuance of a preliminary certificate of approval, the submission of plans and specifications. After examination thereof, the department may request corrections and revisions to the plans and specifications. The construction must comply with the plans, specifications and any corrections or revisions thereto, if any, previously submitted.

(5) Within 20 days from the date of mailing of the order, any person against whom an order is directed pursuant to subsection (3) of this section may demand a hearing. The demand shall be in writing, shall state the grounds for hearing and shall be mailed to the director of the department. The hearing shall be conducted in accordance with the applicable provisions of ORS chapter 183.

(2) Subject to conditions imposed on federally granted funds, a municipal corporation, city, county or agency of the State of Oregon, or combination thereof, who is eligible for federal funds for a project during its construction or becomes eligible for reimbursement for funds expended, if the project has been constructed and placed into operation, shall apply for and pay to the commission such funds so received, or otherwise made available to it, in such amounts as determined by the commission as just and necessary, from an agency of the Federal Government. These funds shall first be used to reimburse the State of Oregon for the portion of any grant that was advanced to the municipal corporation, city, county or agency of the State of Oregon, or combination thereof, for construction of the project that exceeded the federal requirements for state matching funds and any remainder thereof shall be used to apply upon the retirement of any principal and interest indebtedness due and owing to the State of Oregon arising out of funds loaned for the project prior to federal funds becoming available.

(3) The refusal of a municipal corporation, city, county or agency of the State of Oregon, or combinations thereof, to apply for federal funds in such amounts as determined by the commission as just and necessary for which it would otherwise be eligible, shall be sufficient grounds to terminate any further participation in construction of a facility by the commission.

(4) The municipal corporation, city, county or agency of the State of Oregon, or combinations thereof, shall consent to and request that funds made available to it by an agency of the Federal Government shall be paid directly to the commission if required to do so under subsection (2) of this section.

(c) To sell, exchange, donate and convey to others any or all facilities upon such terms as the governing body may deem advisable, including the power to receive for any such sale the note or notes of the purchaser of the facilities or property whenever the governing body finds any such action to be in furtherance of the purposes of ORS 468.263 to 468.272.

[1974 s.s. c.34 s.3]

468.266 Issuance of bonds. (1) All principal of and interest on bonds issued pursuant to ORS 468.263 to 468.272 shall be payable solely out of the revenues, proceeds and receipts from the lease or sale of the property, loan repayments, or out of the proceeds of revenue bonds issued pursuant to ORS 468.263 to 468.272 as shall be specified in the proceedings of the governing body by which the issuance of bonds shall have been authorized. The principal and interest shall not constitute nor give rise to a pecuniary liability of the municipality or a charge against its general credit or taxing powers, and such limitation shall be plainly stated upon the face of each bond.

(2) The bonds:

(a) May be executed and delivered at any time and from time to time;

(b) May be in such form, denomination, tenor and maturity;

(c) May be in registered or bearer form either as to principal or interest or both, and may provide for conversion between registered and coupon bonds of varying denominations;

(d) May be payable in such instalments and at such time or times not exceeding 40 years from the date thereof;

(3) Bonds may be sold at public or private sale in such manner and from time to time as may be determined by the governing body to be most advantageous.

(4) Issuance by the county of one or more series of bonds for one or more purposes shall not preclude it from issuing other bonds in connection with the same purpose or any other purpose, but the proceedings whereunder any subsequent bonds may be issued shall recognize and protect any prior pledge or mortgage made for any prior issue of bonds.

(5) Any bonds of the county at any time outstanding may be refunded if permitted by the conditions of issuance, at any time and from time to time by the issuance of its refunding bonds in such amount as the governing body may deem necessary but not exceeding an amount sufficient to refund the principal of the bonds so to be refunded, together with any unpaid interest thereon and any premiums and commissions necessary to be paid in connection therewith. Any such refunding may be effected whether the bonds to be refunded shall have then matured or shall thereafter mature, either by sale of the refunding bonds and the application of the proceeds thereof for the payment of the bonds to be refunded thereby, or by the exchange of the refunding bonds for the bonds to be refunded thereby with the consent of the holders of the bonds so to be refunded, and regardless of whether or not the bonds to be refunded were issued in connection with the same facilities or separate facilities, and regardless of whether or not the bonds proposed to be refunded shall be payable at the same date or different dates or shall be due serially or otherwise.

(6) All bonds issued under ORS 468.263 to 468.272 and interest coupons attached thereto shall be construed to be negotiable instruments.

[1974 s.s. c 34 s.4]

468.267 Security for bonds. The principal of and interest on any bonds shall be secured by a pledge of the revenues, proceeds and receipts or any portion thereof out of which the principal and interest are made payable, and may be secured by a mortgage covering all or any part of the facilities from which the revenues, proceeds or receipts so

pledged may be derived, including any enlargements thereof and additions thereto, by a pledge or assignment of the lease to such facility or by such other security as may be deemed to be prescribed in the proceedings of the governing body and authorizing the issuance of bonds. The proceedings under which the bonds are authorized to be issued and any mortgage securing such bonds may contain any agreements and provisions respecting the maintenance of the facilities and properties covered thereby, the fixing and collection of rents for any portions thereof leased by the municipality to others, the fixing and collection of proceeds from the sale of any facilities and properties by the municipality to others, the creation and maintenance of special funds from such revenues and the rights and remedies available in the event of default, and such other provisions not inconsistent with ORS 468.263 to 468.272, all as the governing body shall deem advisable and not in conflict with the provisions of ORS 468.263 to 468.272. Each pledge, lease, sublease, agreement and mortgage made for the benefit or security of any of the bonds shall continue effective until the principal of and interest on the bonds for the benefit of which the same were made have been fully paid.

[1974 s s c 34 s 5]

468.268 Enforcement of bond obligation. (1) The proceedings authorizing any bonds and any mortgage securing such bonds may provide that, in the event of a default in the payment of the principal of or the interest on such bonds or in the performance of any agreement contained in such proceedings or mortgage, such payment and performance may be enforced by suit, mandamus or by the appointment of a receiver with power to charge and collect rents and to apply the revenues from the facilities in accordance with such proceedings or the provisions of such mortgage by foreclosure of any mortgage or by any one or more remedies specified in the proceedings.

(2) Such proceedings or mortgage may also provide that any trustee under such mortgage or the holder of any of the bonds secured thereby may become the purchaser at any foreclosure sale if the highest bidder therefor.

[1974 s.s c 34 s 6]

468.269 Trustees; powers. The proceedings authorizing the issuance of bonds may provide for the appointment of one or more trustees for the protection of the hold-

ers of the bonds, whether or not a mortgage is entered into as security for such bonds. A bank with trust powers or a trust company within or without the State of Oregon may be appointed as trustee and shall be located in the United States, and shall have the immunities, powers and duties provided in said proceedings, and may, to the extent permitted by such proceedings, hold and invest funds deposited with it in direct obligations of the United States, obligations guaranteed by the United States or certificates of deposit of a bank, including the trustee, which are continuously secured by such obligations of or guaranteed by the United States. Any bank acting as such trustee may, to the extent permitted by such proceedings, buy bonds issued under ORS 468.263 to 468.272 to the same extent as if it were not such trustee. The proceedings authorizing the bonds may provide that some or all of the proceeds of the sale of the bonds, the revenues of any facilities, the proceeds of the sale of any part of a facility, or of any insurance policy or of any condemnation award shall be deposited with the trustee and applied as provided in the proceedings.

[1974 s.s. c.34 s.7]

468.270 Tax status of leasehold interest in facilities. Nothing in ORS 468.263 to 468.272 is intended to exempt from taxation or assessment the leasehold interest of any lessee in any facility nor are ORS 468.263 to 468.272 intended to affect any exemption or credit from taxation which might otherwise be available to any lessee under the laws of the State of Oregon. Such leasehold interest is classified for purposes of taxation as having the same value as the fee interest in that property.

[1974 s.s. c.34 s.8]

468.271 Effect on procedure of awarding contracts; construction. (1) The construction, reconstruction or improvement of any facilities shall be completed in the manner determined by the governing body and shall be free from any requirement of competitive bidding or any other restriction imposed on the procedure for award of contracts with public bodies.

(2) Nothing in ORS 468.263 to 468.272 is intended as a restriction or limitation upon any other powers which a county might otherwise have under the laws of this state, but shall be construed as cumulative.

(3) If any provision of ORS 468.263 to 468.272 or the application thereof to any

person or circumstance is held to be invalid, such invalidity shall not affect other provisions of ORS 468.263 to 468.272 which can be given effect without the invalid provision or application, and to this end the provisions of ORS 468.263 to 468.272 are declared to be severable.

[1974 s.s. c.34 s.9]

468.272 Application of other laws relating to bonds. Any restrictions, limitations, conditions or procedures provided by other statutes relating to the issuance and sale of bonds or other obligations including, but not limited to, any restrictions, limitations, conditions or procedures set forth in ORS 288.320, do not apply to the issuance and sale of bonds authorized by ORS 468.263 to 468.272.

(2) Within 30 days of receipt of such notice, the commission may require, as a

condition precedent to approval of the construction, the submission of plans and specifications. After examination thereof, the commission may request corrections and revisions to the plans and specifications. The commission may also require any other information concerning air contaminant emissions as is necessary to determine whether the proposed construction is in accordance with the provisions of ORS 448.305, 454.010 to 454.040, 454.205 to 454.255, 454.405, 454.425, 454.505 to 454.535, 454.605 to 454.745 and this chapter and applicable rules or standards adopted pursuant thereto.

The construction must comply with the plans, specifications and any corrections or revisions thereto or other information, if any, previously submitted.

(5) Any person against whom the order is directed may, within 20 days from the date of mailing of the order, demand a hearing. The demand shall be in writing, shall state the grounds for hearing and shall be mailed to the director of the department. The hearing shall be conducted pursuant to the applicable provisions of ORS chapter 183.

(6) For the purposes of this section, "construction" includes installation and establishment of new air contamination sources. Addition to or enlargement or replacement of an air contamination source, or any major alteration or modification therein that significantly affects the emis-

sion of air contaminants shall be considered as construction of a new air contamination source.

[Formerly 449 712]

The commission shall grant such specific variance only if it finds that strict compliance with the rule or standard is inappropriate because:

(a) Conditions exist that are beyond the control of the persons granted such variance; or

(b) Special circumstances render strict compliance unreasonable, burdensome or impractical due to special physical conditions or cause; or

(c) Strict compliance would result in substantial curtailment or closing down of a business, plant or operation; or

(d) No other alternative facility or method of handling is yet available.

(2) The commission may delegate the power to grant variances to legislative bodies of local units of government or regional air quality control authorities in any area of the state on such general conditions as it may find appropriate. However, if the commission delegates authority to grant variances to a regional authority, the commission shall not grant similar authority to any city or county within the territory of the regional authority.

(3) A copy of each variance granted, renewed or extended by a local governmental body or regional authority shall be filed with the commission within 15 days after it is granted. The commission shall review the variance and the reasons therefor within 60 days of receipt of the copy and may approve, deny or modify the variance terms. Failure of the commission to act on the variance within the 60-day period shall be considered a determination that the variance granted by the local governmental body or regional authority is approved by the commission.

(4) In determining whether or not a variance shall be granted, the commission or the local governmental body or regional authority shall consider the equities involved and the advantages and disadvantages to residents and to the person conducting the activity for which the variance is sought.

(5) A variance may be revoked or modified by the grantor thereof after a public hearing held upon not less than 10 days'

notice. Such notice shall be served upon all persons who the grantor knows will be subjected to greater restrictions if such variance is revoked or modified, or are likely to be affected or who have filed with such grantor a written request for such notification.

FIELD BURNING REGULATION

468.450 Regulation of field burning on marginal days. (1) As used in this section:

(a) "Marginal conditions" means atmospheric conditions such that smoke and particulate matter escape into the upper atmosphere with some difficulty but not such that limited additional smoke and particulate matter would constitute a danger to the public health and safety.

(b) "Marginal day" means a day on which marginal conditions exist.

(2) In exercising its functions under ORS 476.380 and 478.960, the commission shall classify different types or combinations of atmospheric conditions as marginal conditions and shall specify the extent and types of burning that may be allowed under different combinations of atmospheric conditions. A schedule describing the types and extent of burning to be permitted on each type of marginal day shall be prepared and circulated to all public agencies responsible for providing information and issuing permits under ORS 476.380 and 478.960. The schedule shall give first priority to the burning of perennial grass seed crops used for grass seed production, second priority to annual grass seed crops used for grass seed production, third priority to grain crop burning, and fourth priority to all other burning and shall prescribe duration of periods of time during the day when burning is authorized.

(3) In preparing the schedule required under subsection (2) of this section, the commission shall weigh the economic consequences of scheduled burnings and the feasibility of alternative actions, and shall consider weather conditions and other factors necessary to protect the public health and welfare.

(4) None of the functions of the commission under this section or under ORS 476.380 or 478.960, as it relates to agricultural burning, shall be performed by any

regional air quality control authority established under ORS 468.505.
[Formerly 449 840]

468.455 Purpose of burning regulation. In a concerted effort by agricultural interests and the public to overcome problems of air pollution, it is the purpose of ORS 468.140, 468.150, 468.290 and 468.455 to 468.485 to provide incentives for development of alternatives to open field burning, to phase out open field burning and to develop feasible alternative methods of field sanitation and straw utilization and disposal.
[Formerly 449 930; 1975 c 559 s.4]

468.458 Permits for field burning; delegation of duty to deliver permits. (1) On and after January 1, 1975, permits for open burning of perennial grass seed crops, annual grass seed crops and cereal grain crops are required in the counties listed in subsection (2) of ORS 468.460 and shall be issued by the Department of Environmental Quality in accordance with air pollution control practices and subject to the fee prescribed in ORS 468.480. The permit described in this section shall be issued in conjunction with permits required under ORS 476.380 or 478.960.

(2) The Environmental Quality Commission may by rule delegate to any county court or board of county commissioners or fire chief of a rural fire protection district the duty to deliver permits to burn acreage provided such acreage has been registered pursuant to paragraph (a) of subsection (1) of ORS 468.480 and fees have been paid pursuant to paragraph (b) of subsection (1) of ORS 468.480.
[1975 c 559 s.2]

468.460 Commission rules to regulate burning pursuant to ORS 468.475. In order to regulate open field burning pursuant to ORS 468.475:

(1) In such areas of the state and for such periods of time as it considers necessary to carry out the policy of ORS 468.280, the commission by rule may prohibit, restrict or limit classes, types and extent and amount of burning for perennial grass seed crops, annual grass seed crops and grain crops.

(2) In addition to but not in lieu of the provisions of ORS 468.475 and of any other rule adopted under subsection (1) of this section, the commission shall adopt rules for Multnomah, Washington, Clackamas, Marion, Polk, Yamhill, Linn, Benton and Lane Counties, which provide for a more rapid

phased reduction by certain permit areas, depending on particular local air quality conditions and soil characteristics, the extent, type or amount of open field burning of perennial grass seed crops, annual grass seed crops and grain crops and the availability of alternative methods of field sanitation and straw utilization and disposal.

(3) Before promulgating rules pursuant to subsections (1) and (2) of this section, the commission shall consult with Oregon State University and the Oregon Field Sanitation Committee and may consult with the Soil Conservation Service, the Agricultural Stabilization Commission, the State Soil and Water Conservation Commission and other interested agencies. The Oregon Field Sanitation Committee shall act as a special advisory committee to the commission in the promulgation of such rules. The commission must review and show on the record the recommendations of the Oregon Field Sanitation Committee in promulgating such rules.

(4) No regional air quality control authority shall have authority to regulate burning of perennial grass seed crops, annual grass seed crops and grain crops.

Permits under ORS 468.458 for open field burning of cereal grain crops shall be issued in the counties listed in subsection (2) of ORS 468.460 only if the person seeking the permit submits to the issuing authority a signed statement under oath or affirmation that the acreage to be burned will be planted to seed crops other than cereal grains which require flame sanitation for proper cultivation.

(2) The department shall inspect cereal grain crop acreage burned pursuant to subsection (1) of this section after planting in the following spring to determine compliance with subsection (1) of this section.

(3) Any person planting contrary to the restrictions of subsection (1) of this section shall be assessed by the department a civil penalty of \$25 for each acre planted contrary to the restrictions. Any fines collected by the department pursuant to this subsection shall be used by the department for a smoke management program in cooperation with the Oregon Seed Council and for administration of this section.

(4) Any person planting seed crops after burning cereal grain crops pursuant to subsection (1) of this section may apply to the department for permission to plant

contrary to the restrictions of subsection (1) of this section if the seed crops fails to grow. The department may allow planting contrary to the restrictions of subsection (1) of this section if the crop failure occurred by reasons other than the negligence or intentional act of the person planting the crop or one under his control.

(2) Monitor and prevent unlawful field burning; and

(3) Aid fire districts in carrying out their responsibilities for administering field sanitation programs.

[1975 c 559 s 10]

468.475 When open burning permitted; maximum acreage; goals; emergency burning; when commission required to act on permit application. (1) No person shall open burn or cause to be open burned in the counties specified in subsection (2) of ORS 468.460, perennial or annual grass seed crops used for grass seed production or cereal grain crops, unless the acreage has been registered pursuant to ORS 468.480 and the permits required by ORS 468.450, 468.458, 476.380 and 478.960 have been obtained.

(2) Except as may be provided by rule under ORS 468.460, the maximum total registered acreage allowed to be open burned

pursuant to subsection (1) of this section shall be as follows:

(a) During 1975, not more than 235,000 acres may be burned.

The commission and the Legislative Committee on Trade and Economic Development shall report to the Fifty-ninth Legislative Assembly with their recommendations for possible modifications.

(3) In the event of the registration of more than the maximum allowable acres for open burning in the counties specified in subsection (2) of ORS 468.460, the commission, after consultation with the committee, by rule or order may allocate permits for acreage based on particular local air quality condition, soil characteristics, the type or amount of field burning or crops, the availability of alternative methods of field sanitation, the date of registration, proportional share, or any reasonable classification. Priority shall be given to use of available alternatives to open field burning in Lane County and priority areas in other counties listed in subsection (2) of ORS 468.460.

(4) It is the intention of the Legislative Assembly that permits shall be issued for the maximum acreage specified in subsection (2) of this section for each year recited therein only if the commission finds after hearing that:

(a) There are insufficient numbers of workable machines that can reasonably be made available to sanitize the acreage if an acreage reduction is ordered;

(b) There are insufficient methods available for straw utilization and disposal; and

(c) Reasonable efforts have been made to develop alternative methods of field sanitation and straw utilization and disposal, and such methods have been utilized to the maximum reasonable extent.

(5) The Governor, upon finding of extreme hardship, disease outbreak, insect infestation or irreparable damage to the land, may by order permit emergency open burning of more acreage than allowed by

subsection (2) of this section. Upon a finding of extreme danger to public health or safety, the Governor may order temporary emergency cessation of all open field burning in any area of the counties listed in subsection (2) of ORS 468.460.

(6) The commission shall act on any application for a permit under ORS 468.458 within 60 days of registration and receipt of the fee provided in ORS 468.480. [Formerly 449.939, 1975 c 559 s.11]

468.480 Registration of number of acres to be burned; fees; where fees deposited. (1) (a) On or before July 1, 1975, and on or before April 1 of each subsequent year, the grower of a grass seed crop shall register with the county court or board of county commissioners or the fire chief of a rural fire protection district, or his designated representative, the number of acres to be burned in the remainder of the year. Any person registering after the dates specified in this subsection shall pay an additional fee of \$1 per acre registered if the late registration is due to the fault of the late registrant or one under his control. Late registrations must be approved by the department. Copies of the registration form shall be forwarded to the department. The required registration must be made and the fee paid before a permit shall be issued under ORS 468.458.

(b) Except as provided in paragraph (c) of this subsection, after July 2, 1975, the Executive Department shall collect a fee prior to the issuance of any permit by the Department of Environmental Quality for open burning of perennial or annual grass seed crops or cereal grain crops under ORS 468.140, 468.150, 468.290 and 468.455 to 468.485. The Executive Department may contract with counties and rural fire protection districts for the collection of the fees which shall be forwarded to the Executive Department. The amount of the fee shall be \$3 in 1975, \$4 in 1976, \$5.50 in 1977, and \$8 in any year thereafter, per acre of crop burned.

(c) The fee required by paragraph (b) of this subsection shall be refunded for any acreage where efficient burning of stubble is accomplished with equipment using an auxiliary fuel or mobile field sanitizer which has been approved by the committee and the department for field sanitizing purposes or for any acreage not burned.

(2) The Executive Department shall pay to the county or board of county commissioners or the fire chief of the rural fire protection district, not to exceed 20 cents per acre registered, to cover the cost of and to be used solely for the purpose of administering the program of registration of acreage to be burned, issuance of permits, keeping of records and other matters directly related to agricultural field burning. Fifty cents of the acreage fees shall be deposited in a separate fund to be used for the smoke management program which shall be conducted by the Department of Environmental Quality in cooperation with the Oregon Seed Council and other affected agencies. The Department of Environmental Quality shall contract with the Oregon Seed Council to organize rural fire protection districts and growers, coordinate and provide communications, hire ground support personnel, provide aircraft surveillance, provide such added other support services as are mutually agreed upon and advise the department when crops in each area are ready for burning. However, if a reasonable contract cannot be agreed upon, the department shall provide such services directly or by contracting with such other entity as it reasonably shall determine.

(3) The Executive Department shall cause the balance of acreage fees received pursuant to subsection (1) of this section to be deposited in the State Treasury to be credited to the account of the committee established under ORS 468.470 for use as provided in ORS 468.485.

[Formerly 449 941, 1975 c 559 s 12]

Such hearings shall be conducted in the manner prescribed in ORS chapter 183.

(2) If a majority of the board of directors has conducted the hearing, it shall enter its order within 60 days after the conclusion of the hearing. If the hearing is conducted by a hearing officer, or by a member or members constituting less than a majority of the board, the final decision shall be made and entered by the board within 60 days after conclusion of the hearing if no exceptions are filed, or within 60 days after final

arguments on written exceptions to a proposed decision are heard.

(a) All of the governing bodies of the participating counties and cities adopt ordinances or resolutions authorizing the inclusion of the additional territory; and

(b) The governing body of the proposed county or city adopts such ordinance or resolution as would be required to form a regional authority; and

(c) The commission approves the expansion.

(2) Any regional authority may be dissolved by written consent of the governing bodies of all participating counties and cities. Upon dissolution, any assets remaining after payment of all debts shall be divided among the participating counties and cities in direct proportion to the total amount contributed by each. However, all rules, standards and orders of the regional authority shall continue in effect until superseded by action of the commission.

[Formerly 449.900]

468.565 Compliance with state standards required; hearing; notice. (1) The commission may require that necessary corrective measures be undertaken within a reasonable time if, after hearing, it finds that:

(a) A regional authority has failed to establish an adequate air quality control program within a reasonable time after its formation; or

(b) An air quality control program in force in the territory of a regional authority is being administered in a manner inconsistent with the requirements of ORS 448.305, 454.010 to 454.040, 454.205 to 454.255,

454.405, 454.425, 454.505 to 454.535, 454.605 to 454.745 and this chapter.

(2) Notice of the hearing required under subsection (1) of this section shall be sent to the regional authority not less than 30 days prior to the hearing.

(3) If the regional authority fails to take the necessary corrective measures within the time required, the commission shall undertake a program of administration and enforcement of the air quality control program in the territory of the regional authority. The program instituted by the commission shall supersede all rules, standards and orders of the regional authority.

(4) If, in the judgment of the commission, a regional authority is able to requalify to exercise the functions authorized in ORS 468.535, the commission shall restore those functions to the regional authority and shall not exercise the same functions in the territory of the regional authority.

[Formerly 449.905]

468.570 Payment of costs of services to authority by state. Any consultation and services provided to regional authorities or local air quality control programs by the commission may be paid for either from funds appropriated to the commission or under agreements between the parties on a reimbursable basis.

[Formerly 449 915]

468.575 State aid. (1) Subject to the availability of funds therefor:

(a) Any air quality control program conforming to the rules of the commission and operated by not more than one unit of local government shall be eligible for state aid in an amount not to exceed 30 percent of the locally funded annual operating cost thereof, not including any federal funds to which the program may be entitled.

(b) Any air quality control program exercising functions operated by a regional authority shall be eligible for state aid in an amount not to exceed 50 percent of the locally funded annual operating cost thereof, not including any federal funds to which the program may be entitled.

(2) Applications for state funds shall be made to the commission and funds shall be made available under subsection (1) of this section according to the determination of the commission. In making its determination, the commission shall consider:

(a) The adequacy and effectiveness of the air quality control program.

(b) The geographic and demographic factors in the territory under the program.

(c) The particular problems of the territory under the program.

(3) In order to qualify for any state aid and subject to the availability of funds therefor, the local government or the regional authority must submit all applications for federal financial assistance to the commission before submitting them to the Federal Government.

(4) When certified by the commission, claims for state aid shall be presented for payment in the manner that other claims against the state are paid.
[Formerly 449.920]

468.580 Payment of certain court costs not required. A regional authority shall not be required to pay any filing, service or other fees or furnish any bond or undertaking upon appeal or otherwise in any action or proceedings in any court in this state in which it is a party or interested.

AEROSOL SPRAY CONTROL

468.600 Findings. The Legislative Assembly finds that:

(1) Scientific studies have revealed that certain chlorofluorocarbon compounds used in aerosol sprays may be destroying the ozone layer in the earth's stratosphere;

(2) The ozone layer is vital to life on earth, preventing approximately 99 percent of the sun's mid-ultraviolet radiation from reaching the earth's surface;

(3) Increased intensity of ultraviolet radiation poses a serious threat to life on earth including increased occurrences of skin cancer, damage to food crops, damage to phytoplankton which is vital to the production of oxygen and to the food chain, and unpredictable and irreversible global climatic changes;

(4) It has been estimated that production of ozone destroying chemicals is increasing at a rate of 10 percent per year, at which rate the ozone layer will be reduced 13 percent by the year 2014;

(5) It has been estimated that there has already been one-half to one percent depletion of the ozone layer;

(6) It has been estimated that an immediate halt to production of ozone destroying chemicals would still result in an approximate three and one-half percent reduction in ozone by 1990; and

(7) There is substantial evidence to believe that inhalation of aerosol sprays is a significant hazard to human health.

[1975 c.366 s 1]

468.605 Prohibition on sale. After March 1, 1977, no person shall sell or offer to sell in this state any aerosol spray which contains as a propellant trichloromonofluoromethane, difluorodichloromethane or any other saturated chlorofluorocarbon compound not containing hydrogen.

[1975 c 366 s 2]

Note: 468 600 and 468 605 were not added to and made a part of ORS chapter 468, or any series therein, by legislative action.
