Specifications and Materials for Public Highways

- 375.010** Adopting specifications for hard-surface pavements
- 375.020** Distribution of specifications

375.010 Adopting specifications for hard-surface pavements. (1) The Department of Transportation shall adopt standard specifications for laying and constructing the several kinds of hard-surface pavements which the department deems suited and adapted to the needs of the state, including asphaltic concrete pavement and hydraulic concrete pavement.

(2) None of these specifications shall infringe any patented pavement.

(3) All such specifications shall provide, in conformity with the best approved engineering practices to the end that the public body charged with the responsibility of improving any highway with any such pavement may secure the construction of highways in strict compliance with the specifications under which the work may be done:

(a) The quantity and proportions of the several materials and ingredients composing each of such pavements.

(b) The kind, quality and standard of the materials and ingredients.

(c) The manner of determining and testing the materials and ingredients for quality and standard.

(d) The manner of laying and constructing the pavement and mixing and preparing the materials and ingredients.

375.020 Distribution of specifications. The Department of Transportation shall furnish copies of all specifications adopted under ORS 375.010 to each county court or board of county commissioners.
