377.010 Planting hedge or trees on line of highway. Any person or company may lawfully plant, for cultivation and growth, any hedge fence or trees for use or ornament along any public highway or road in this state, on the line of his or its land and the highway.

[Amended by 1959 c.382 §1]

377.020 Planting trees on roads with- in irrigation projects; protecting fences.

Where any county road within the limits of any irrigation project under the control of the United States Bureau of Reclamation exceeds 50 feet in width, the county court of the county in which the project is situated may, in its discretion:

(1) Upon a petition presented to it by the landowner or entryman, permit any such landowner or entryman whose land is contiguous to the road to use a portion of the road which adjoins the land for the purpose of planting trees therein.

(2) Permit the landowner or entryman to inclose and fence in the portion of road in order to protect the trees so planted.

In no case shall the permission so granted for said purposes cause any road to be decreased to a width of less than 50 feet.

377.030 Destruction or removal of trees on state highways without permission prohibited. No person shall dig up, cut down, injure, destroy or in any manner remove any trees growing upon the right of way of any state highway without first procuring the written consent of the Department of Transportation.

Whenever any person, firm or corporation, including any public, municipal or private corporation and any privately or publicly owned utility or cooperative association, desires to dig up, cut down, injure, destroy or in any manner remove any trees growing upon the right of way of any state highway, such person shall file with the Department of Transportation an application in writing, setting forth the reasons and purpose for the removal or destruction of the trees.

377.050 Consent of department for removal of trees along state highways. (1) Upon the filing of the application mentioned in ORS 377.040 the Department of Transpor-

(2) Such permits may be granted when it becomes necessary to cut or remove brush and tree growth which otherwise would be hazardous to the operation or maintenance of lines for the transmission of electric energy or communication, or which would impair the efficiency of the service of such lines to the public, but such cutting or removal shall be done in such manner as not substantially to impair the scenic beauty of the highway.

In the alternative, after the written notice, he may screen the junkyard from the right of way or enter upon the real property and perform the necessary screening. If the engineer determines that the junkyard cannot economically or feasibly be screened, he may remove the junk and store the same. After three months of storage, unless claimed sooner by the owner, the engineer may sell or otherwise dispose of the junk by sale or otherwise. In the alternative, 10 days after written notice, he may remove the personal property and store it. After 30 days of storage, unless claimed sooner by the owner, the engineer may sell or otherwise dispose of the personal property. (c) Contains, includes or is illuminated by any flashing, intermittent, revolving, rotating or moving light or moves or has any animated or moving parts; however, this paragraph does not apply to a traffic control sign or to portions of signs providing only public service information such as time, date, temperature, weather or similar information.

(d) Has any lighting, unless such lighting is so effectively shielded as to prevent beams or rays of light from being directed at any portion of the main traveled way of a state highway, or is of such low intensity or brilliance as not to cause glare or to impair the vision of the driver of a motor vehicle or otherwise to interfere with the operation thereof.

(e) Is located upon a tree, or painted or drawn upon a rock or other natural feature.

(f) Advertises or calls attention to a business or other activity or a profession, commodity, product, service or entertainment no longer carried on, produced, sold or offered.

377.725 Permits required to erect signs; application; fee; revocation; cancellation; transfer. (1) Unless an annual permit has been issued therefor, an outdoor advertising sign or a directional sign shall not be erected, maintained or replaced by any person.

(2) A person may apply for a permit to the highway engineer on forms furnished by the engineer. The permit application shall include a precise description of the sign and such other information as the engineer considers necessary or desirable to determine compliance with ORS 377.700 to 377.840. The engineer shall issue a permit for a sign that complies with ORS 377.700 to 377.840. A valid permit may be transferred to another person upon written notice to the engineer.

(3) A permit shall not be issued for an outdoor advertising sign or a directional sign located adjacent to an interstate highway or freeway unless the engineer determines that access to the sign from the interstate highway or freeway can be obtained without violating the access control line of the interstate highway or freeway.

(4) A permit shall be renewed annually on the first day of January. Application for renewal of a permit shall be filed prior to expiration of the term of the permit. If application for renewal of a permit is filed within 30 days after the expiration of the term the permit shall be granted if an additional fee equal to the fee specified by subsection (5) of this section is paid at the time the application is filed. Any permit not renewed in accordance with this section shall be canceled.

(5) An applicant shall pay a permit fee of:

Annual Fee	For Sign Area
\$10	50 square feet or less
\$15	51 to 400 square feet
\$20.....	More than 400 square feet

(6) A permit shall be issued for one year. The applicable fee shall accompany the permit application. A fee shall not be prorated for a fraction of a year or be refunded if the sign is removed.

(7) For the purpose of determining the permit fee:

(a) For a back-to-back sign, the permit sign area includes both sides of the sign.

(b) A double-faced sign or a back-to-back sign is one sign.

(c) A V-type sign is two signs.

(8) Advertising or information on the display surface of a sign may be changed or cutouts may be attached or removed within the sign area without obtaining a permit or paying an additional fee. However, a permit shall be obtained and the prescribed fee paid if the sign is reconstructed.

(9) A reconstruction permit may be issued for the addition of another face on the opposite side of an existing, conforming sign under permit, that is no larger than the existing sign face.

(10) The engineer shall cancel a permit and require removal of the sign as provided by ORS 377.775 if he finds a sign has been erected, maintained or serviced from the highway right of way at any portion of the right of way where the department has acquired rights of access to the highway or rights of access have not accrued to the abutting property. In addition, the department may recover from the owner of the sign or person erecting, maintaining or servicing the sign, the amount of damage to landscaping, sodding, fencing, ditching or other highway appurtenances resulting from such acts.

(11) The engineer may revoke a permit, unless a corrected application is filed or the sign is brought into compliance within 30 days after written notice thereof is mailed to the permittee, if he finds:

(a) The applicant has knowingly supplied materially false or misleading information in his application for a permit or renewal thereof; or

(b) The sign covered by the permit is in violation of ORS 377.700 to 377.840.

(12) The engineer shall cancel a permit

immediately upon failure of a permittee to erect or maintain the sign as described by the permit application and to attach a permit tag thereto within 120 days after the date of issuance of the permit therefor.

(13) The engineer shall assign to every permit when issued for an outdoor advertising sign and a directional sign a permit plate with identification number thereon and a current permit decal. The permittee shall attach the applicable permit plate with the current decal to the sign so as to be visible from the adjacent state highway. The absence of a permit plate and a current decal is prima facie evidence that the sign does not comply with ORS 377.700 to 377.840.

(14) No permits shall be issued for the erection of any new outdoor advertising sign after June 12, 1975.

(15) The engineer may establish more than one class or type of sign permit as necessary or desirable to carry out ORS 377.700 to 377.840.

The annual permit fee shall be as provided in ORS 377.725. The Oregon Transportation Commission shall establish by administrative rule the number, size, location and content of the signs and the criteria for the issuance of permits under this section.

(2) If the United States Secretary of Transportation notifies the State of Oregon that the issuance of permits under this section violates any provision of federal law or rules or regulations adopted pursuant to federal law, the issuance of permits under this section shall cease and signs found by the Secretary of Transportation to be in violation of the Federal Highway Beautification Act shall be removed and the permits for those signs shall be canceled.

[1977 c.265 §8]

Note: 377.726 was enacted into law by the Legislative Assembly but was not added to or made a part of ORS 377.700 to 377.840 by legislative action. See the Preface to Oregon Revised Statutes for further explanation.

(2) No directional sign may be located within 2,000 feet of an interchange or intersection at grade along the interstate system or other freeway measured along the interstate highway or freeway from the nearest point of the beginning or ending of pavement widening at the exit from or entrance to the main traveled ways.

(3) No directional sign may be located within 2,000 feet of a rest area, park land or scenic area.

(4) No directional sign shall be located within one mile of any other directional sign facing the same direction of travel.

377.755 Standards for signs on owned or leased premises. (1) Owners or lessees of real property may erect and maintain thereon on-premise signs subject to the limitations set forth by this section. Subject to any federal requirement, whether by statute, rule or contract with the department, on-premise signs may be erected or maintained as follows:

(a) All businesses located within 660 feet of a state highway, measured at right angles thereto, may erect and maintain on-premise signs with a total allowable area not greater than eight percent of the total square footage of the principal buildings on the premises and all utilized parking area, or a total of 2,000 square feet, whichever is less. The display area for one face of any one sign shall not exceed 825 square feet, or one-half of the total allowable sign area specified by this paragraph, whichever is less. Signs attached to or placed upon a building shall not extend more than 15 feet above the roof line or 15 feet above the highway grade, whichever is higher. A free-standing sign shall not exceed 65 feet above the grade of the premises or the highway grade, whichever is higher, if the land on which the sign is located is adjacent to an interstate highway and shall not exceed 35 feet if the land on which the sign is located is

adjacent to any other state highway. If a business is adjacent to both an interstate highway and any other state highway, then the sign height shall be determined by the height limitation for the highway toward which the sign is oriented.

(b) Businesses which have no buildings located on the premises or have buildings and parking area allowing a sign area of less than 250 square feet may erect and maintain on-premise signs with the total allowable area of 250 square feet.

(c) All on-premise signs existing on July 2, 1971, shall be permitted to remain for a period of 10 years. No such sign may be reconstructed or replaced if destroyed by natural causes.

(d) If compliance with this section, except for this paragraph, would preclude an owner or person in control of the premises from advising travelers upon the highway of the location and nature of his business, such person may file an appeal with the commission for relief from the requirements. The division shall, when directed by the commission, issue a conditional use permit for the noncomplying sign, as necessary to provide substantial compliance with the requirements of this section.

(2) In accordance with ORS chapter 183, the commission shall adopt rules relating to the location, size, construction and lighting of on-premise signs, providing for the issuance of permits by the division for on-premise signs and establishing the permit fee therefor. Permit fees shall be no greater than necessary to administer the regulations. No such regulation shall be effective prior to July 1, 1973. An on-premise sign lawfully erected prior to March 1, 1974, is not subject to any permit fee established by commission rule adopted pursuant to this subsection so long as the on-premise sign is not reconstructed or replaced. Once an on-premise sign has been lawfully erected the owner of the sign shall be entitled to maintain the sign for a period of 10 years after erection, even though rules or amendments to rules adopted thereafter would otherwise prohibit erection of such sign.

(3) In adopting rules relating to on-premise signs the commission shall take into account:

(a) The natural beauty and esthetic features of the highways;

(b) The safety and convenience of the traveling public; and

(c) The need for reasonable identification of available commercial services along the highways.

(4) Nothing in ORS 377.700 to 377.840 is intended to prohibit, regulate or limit any on-premise sign that is not visible to the traveling public from a state highway.

[1971 c.770 §13; 1973 c.790 §9; 1974 s.s. c.33 §4; 1977 c.256 §1; 1977 c.810 §11]

(d) If compliance with this section, except for this paragraph, would preclude an owner or person in control of the premises from advising travelers upon the highway of the location and nature of his business, such person may file an appeal with the council for relief from the requirements. The division shall, when directed by the council, issue a conditional use permit for the noncomplying sign, as necessary to provide substantial compliance with the requirements of this section.

(2) In accordance with ORS chapter 183, the council shall adopt rules relating to the location, size, construction and lighting of on-premise signs, providing for the issuance of permits by the division for on-premise signs and establishing the permit fee therefor. Permit fees shall be no greater than necessary to administer the regulations. No such regulation shall be effective prior to

(c) The need for reasonable identification of available commercial services along the highways.

(4) Nothing in ORS 377.700 to 377.840 is intended to prohibit, regulate or limit any on-premise sign that is not visible to the traveling public from a state highway.

(2) A city, with the prior approval of the commission, may, by ordinance, transfer the control and regulation of all signs within the city that are within 660 feet of the nearest edge of the right of way of state highways in such city to the control and regulation of the commission as provided by ORS 377.700 to 377.840. If the commission approves a city's exercise of its option to come under ORS 377.700 to 377.840, all on-premise signs shall, subject to federal laws and regulations and subject to any state law or city ordinance, be permitted, for a period of 10 years, to remain where located at the time of the transfer of control to the commission. Any such sign shall be maintained in a neat and attractive condition and in safe repair.

(3) On-premise signs erected or maintained within protected areas shall comply with the sign regulations for protected areas.

[1971 c 770 §26, 1973 c 790 §10, 1977 c 810 §12]

Note: Section 27, chapter 810, Oregon Laws 1977, provides that 377.760, as amended by that chapter and printed above, takes effect July 1, 1979. Until that date, 377.760 provides

If the council approves a city's exercise of its option to come under ORS 377.700 to 377.840, all on-premise signs shall, subject to federal laws and regulations and subject to any state law or city ordinance, be permitted, for a period of 10 years, to remain where located at the time of the transfer of control to the council.
