"Public buildings" does not include private buildings rented by election officers solely for use as an election polling place.

(10) "Structural code" means the specialty code defined in subsection (9) of ORS 456.750. [1971 c.230 §2; 1973 c.539 §1; 1975 c.675 §35; 1979 c.133 §1]

**Note:** The amendment to subsection (4) of 447.210 (1977 Replacement Part), [printed above as subsection (9) of 447.210] takes effect January 1, 1981. See section 9, chapter 133, Oregon Laws 1979. 447.210 (1977 Replacement Part) is set forth for the users' convenience.

**447.210.** As used in ORS 447.210 to 447.280, unless the context requires otherwise:

(1) "Architectural barriers" are physical design features that restrict the full use of government buildings, public buildings and their related facilities by physically handicapped persons.

(2) "Facilities" include but are not limited to sidewalks, curbing and entrances giving access to government buildings and public buildings and accommodations in such buildings available for use by the public or employees generally such as bathrooms, restrooms including toilet stalls, dining areas or dining rooms, drinking fountains, phone booths and lodging rooms or quarters.

(3) "Government buildings" include all buildings and structures used by the public that are constructed, purchased, leased or rented in whole or in part by the use of state, county or municipal funds or the funds of any political subdivision of the state; and, to the extent not required otherwise by federal law or regulations or not beyond the power of the state to regulate, all buildings and structures used by the public which are constructed, purchased, leased or rented in whole or in part by the use of federal funds.

(4) "Public buildings" include all buildings and structures used by the public that are constructed, purchased, leased or rented in whole or in part by the use of private funds where the building or structure has a ground area of more than 4,000 feet and is more than 20 feet in height from the top surface of lowest flooring to the highest interior overhead finish of the building or structure. "Public buildings" does not include private buildings rented by election officers solely for use as an election polling place.

**447.220 Purpose.** It is the purpose of ORS 447.210 to 447.280 to make government buildings, public buildings and their related facilities in the state accessible to, and usable by, the physically handicapped. In requiring that buildings and facilities be usable by the physically handicapped, it is not the intention of the Legislative Assembly to require that items of personal convenience such as rest rooms, telephones and drinking fountains be provided for members of the public who are physically handicapped if they are not otherwise provided for members of the public who are not physically handicapped. [1971 c.320 §1; 1973 c.539 §2; 1979 c.133 §2]

**447.230 Standards and specifications to eliminate architectural barriers; advisory committee; application of ORS 447.210 to 447.280.** (1) The Director of Commerce or the director's designated representative shall, pursuant to ORS 183.310 to 183.500 and 456.785 establish standards and specifications in the structural code necessary to eliminate architectural barriers to entry to and use of government buildings, public buildings and their related facilities by disabled, physically handicapped or aged persons.

(2) The Director of Commerce or the director's designated representative shall, to assist in the identification of architectural barriers and in the development of the standards and specifications referred to in subsection (1) of this section, be assisted by an architectural

barriers advisory committee. The advisory committee shall be appointed by and serve at the pleasure of the director. The Director of Commerce or the director's designated representative shall be the chairman of the advisory committee but shall vote only in the case of a tie vote. The membership of the committee shall include an architect licensed as provided by ORS 671.010 to 671.060, 671.080 to 671.120 and 671.220 who is particularly knowledgeable in the field of architectural barriers, the chairman of the Governor's Committee on Employment of the Handicapped, the state architect employed by the Department of General Services, the Assistant Director for Vocational Rehabilitation and four members of the public. At least two of the four public members shall be handicapped citizens who use wheelchairs to ambulate.

(3) In the development of standards and specifications, the advisory committee and the Director of Commerce or the director's designated representative shall be familiar with and give full consideration to the standards and specifications developed by the American National Standards Institute and nationally recognized model codes for making buildings and facilities accessible to and usable by the physically handicapped.

(4) ORS 447.210 to 447.280 applies to government buildings and their related facilities and to public buildings and their related facilities unless the cost of eliminating the architectural barriers exceeds 25 percent of the total cost of the construction, renovation, alteration or modification. [1971 c.320 §3; 1973 c.539 §3; 1979 c.133 §3]

(2) Requirements adopted under this section for government buildings and publicly maintained or operated parking facilities shall not require more than one disabled parking space for each 50 parking spaces or fraction thereof that are provided.

(3) Requirements adopted under this section shall not apply to parking facilities at the Portland International Airport. [1979 c.809 §2]

**447.235 Renovation of government and public buildings required to meet standards.** Except as provided in subsection (4) of ORS 447.230, this state, any political subdivision thereof, a county, city or person that owns a government or public building and its related facilities shall renovate that building and its related facilities so that they meet the standards and specifications of the Director of Commerce relating to making government and public buildings and their related facilities accessible to, and usable by, the physically handicapped. [1973 c.539 §11]

**447.240 Construction of government building with one primary entrance accessible to handicapped required; identification; renovation to meet standards.** (1) After January 1, 1973, no person shall construct or permit the construction of a government building unless there is at least one primary entrance into the government building that is accessible by an appropriate ramp or entrance that meets the requirements of ORS 447.210 to 447.280. The location of the primary entrance into the government building shall be as close to adjacent parking spaces as possible, identified by signs showing a uniform, nationally recognized physically handicapped symbol and the government building and its related facilities shall meet the standards and specifications of the Director of Commerce or his designated representative relating to making government buildings and their related facilities accessible to, and usable by, the physically handicapped.

(2) After January 1, 1973, no person shall renovate or permit the renovation of a government building unless the portions or areas being renovated will meet, after renovation, the standards and specifications of the Director of Commerce or his designated representative relating to making government buildings and their related facilities accessible to, and usable by, the physically handicapped. [1971 c.320 §4; 1973 c.539 §4; 1973 c.540 §1; 1974 s.s. c.36 §14]

**447.243 Construction of public building with one primary entry accessible to handicapped required; identification; renovation to meet standards.** (1) No person shall construct or permit the construction of a public building unless there is at least one primary entrance into the public building that is accessible by an appropriate ramp or entrance that meets the requirements of ORS 447.210 to 447.280. The location of the primary entrance to the public building shall be

as close to adjacent parking spaces as possible, shall be posted clearly as the main entrance to the public building and the public building and its related facilities shall meet the standards and specifications of the Director of Commerce or his designated representative relating to making public buildings and their related facilities accessible to, and usable by, the physically handicapped.

(2) No person shall renovate or permit the renovation of a public building unless the portions or areas being renovated will meet, after renovation, the standards and specifications of the Director of Commerce or his designated representative relating to making public buildings and their related facilities accessible to, and usable by, the physically handicapped. [1973 c.539 §6]

**447.245 Identification of certain government building entrances.** Entrances to government buildings constructed before January 1, 1973, accessible by a ramp or entrance which meets the standards of ORS 447.210 to 447.280 shall be identified as provided in ORS 447.240. [1973 c.539 §17; 1973 c.540 §3]

**447.250 Waivers or modifications of standards and specifications; municipal appeals board; procedures; fees.** (1) When a person or governmental entity undertaking the construction, renovation, alteration or modification of a government building, public building or their related facilities determines that full compliance with a particular standard or specification is impractical in that it would defeat the purpose of the project proposed or in process, it may apply to the appeals board established under subsection (4) of ORS 456.755 by the municipality having jurisdiction over the project for a waiver or modification of such standard or specification, setting forth the reasons for its determination and a proposal for the work complying with the particular standard or specification to the maximum extent that it considers practical.

(2) The municipal appeals board shall thereupon investigate the application. The board in its investigation shall seek the advice of an organization or group representing the physically handicapped in dealing with architectural barrier waivers. If the appeals board finds that the proposal submitted with the application would constitute a substantial compliance with, or an acceptable alternative to, the particular standard or specification in view of the objectives of ORS 447.210 to

447.280, the waiver shall be granted. If the board finds otherwise, the application shall be promptly denied with notice to the requesting person or governmental entity of the denial.

(3) The findings of the municipal appeals board shall include the estimated building costs and the additional cost of construction to conform to the requirements of ORS 447.210 to 447.280 over the cost of a nonconforming feature or any other special reason or circumstance that, in the judgment of the board justify the decision.

(4) Any person aggrieved by the final decision of a municipal appeals board may within 30 days of the decision appeal to the director. In the case where no municipal appeals board has been created the director shall have original jurisdiction of an application for a waiver. The applicant for a waiver or an appeal shall submit a fee of \$20 payable to the director with the request for waiver or appeal. In determining an appeal or an original application, the procedures and standards of subsections (1) to (3) of this section shall apply to the director. [1971 c.320 §5; 1973 c.539 §7; 1979 c.133 §4]

**447.260 Rule adoption.** The Director of Commerce or the director's designated representative may promulgate rules reasonably necessary to implement and enforce ORS 447.210 to 447.280 as part of the structural code including, but not limited to, rules authorizing the director to waive or modify any standards and specifications with respect to work on government buildings and their related facilities and work on public buildings and their related facilities where the director determines, with respect to emergency or temporary construction, that compliance with such standards or specifications would not be necessary to fulfill the objectives of ORS 447.210 to 447.280 or would be impractical. [1971 c.320 §6; 1973 c.539 §8; 1979 c.133 §5]

**447.270 Cooperation with public officials and agencies required.** The Director of Commerce or his designated representative shall cooperate with and receive the assistance of all persons, all appropriate elective or appointive public officials and all state or governmental agencies in carrying out his responsibilities under ORS 447.210 to 447.280. [1971 c.320 §7; 1973 c.539 §9]

**447.275 Nonliability for emergency exit deficiencies.** Architects, engineers or other persons designing buildings; contractors

and other persons erecting buildings; building officials, plans examiners, inspectors, the director, the State Fire Marshal, State Fire Marshal deputies, municipal fire marshals or municipal deputies inspecting buildings; the architectural barriers advisory committee; or a municipal appeals board shall be relieved of any personal or financial liability from persons suffering injury or death or those persons' heirs as the result of exiting deficiencies during emergencies resulting from handicap access required by ORS 447.210 to 447.280 or standards adopted under them. [1979 c.133 §8]

**447.280 Enforcement powers.** The provisions of ORS 447.210 to 447.280 and rules adopted under them shall be considered part of the state building code and violations shall be subject to the provisions of ORS 456.885. [1971 c.320 §8; 1973 c.539 §10; 1979 c. 133 §6]

**447.310 Standards for curbing.** (1) The standard for construction of curbs on each side of any city street, county road or state highway, or any connecting street, road or highway for which curbs and sidewalks have been prescribed by the governing body of the city or county or Department of Transportation having jurisdiction thereover, shall require not less than two curb cuts or ramps per lineal block to be located on or near the crosswalks at intersections. Each curb cut or ramp shall be at least 48 inches wide, where possible, and a minimum of 36 inches wide where a 48-inch width will not fit, at a slope not to exceed one-inch rise per 12-inch run. If a 12:1 slope will not fit, an 8:1 slope is acceptable if so constructed as to allow reasonable access to the crosswalk for physically handicapped persons.

(2) Standards set for curb cuts and ramps under subsection (1) of this section shall apply whenever a curb or sidewalk is constructed or replaced at any point in a block which gives reasonable access to a crosswalk. [1973 c.176 §1; 1975 c.468 §1]

**447.805 Purpose.** (1) The Legislative Assembly finds that many individuals are unaware and unable to obtain information about state agency permit requirements and processes.

(2) The Legislative Assembly further finds that state agency processes in making decisions regarding issuance of permits for projects may impose unnecessary costs on project developers and deny citizens the opportunity for effective participation in the decision-making process.

(3) The purposes of ORS 447.800 to 447.865 are to simplify the permit issuance procedure, accelerate decision-making, make available permit application information for state government at one place, encourage federal and local government agency participation in a coordinated procedure of permit issuance and provide more effective notice to affected or concerned citizens. [1975 c.677 §2]

**447.810 Department employment of staff; rules.** (1) The department shall provide such staff as it determines necessary to accomplish the purposes of ORS 447.800 to 447.865. (4) Each notified state agency shall respond in writing to the department within the specified date in subsection (3) of this section, not exceeding 30 days from receipt of the notice. The notified state agency shall advise the department:

(a) Whether the state agency has an interest in the application; and

(b) The permit programs under the state agency's jurisdiction to which the project described in the application is pertinent.

(5) Each notified state agency which responds within the specified date that it does not have an interest in the application, or does not respond by the date specified in subsection (3) of this section shall not require a permit of the applicant for the project described in the application.

(6) The restrictions provided in subsection (5) of this section shall not apply if the application provided the notified state agency contained false, misleading or deceptive information, or failed to include pertinent information, the lack of which would reasonably lead a state agency to misjudge its interest in the application.

(7) The department shall submit specific application forms to applicants for permits required, with a direction to the applicant to complete and return the application to the designated state agency.

(8) Upon receipt of the completed specific application forms each agency shall forward one copy to the department. [1975 c.677 §3]

Notice shall also be sent by registered mail to the applicant and all affected agencies, and by regular mail to persons who have requested that their names be placed on mailing lists maintained by the

department and any affected agency for such purposes. The department may broadcast notice of a consolidated public informational hearing as provided in ORS 193.310 to 193.360. Both the published and mailed notice shall describe the project proposed, the project's location, the state agencies having jurisdiction over the project, all state permits applied for, the state permits which will be considered at the hearing, and the time, place and purpose of the hearing. The notice shall also state that relevant public testimony will be taken in oral or written form at the hearing, that a copy of the application is available for public inspection at the department and that copies of all specific applications are available for public inspection at the department and the affected state agencies.

(3) If the department determines to hold a consolidated contested case hearing, it shall cause notice of the hearing to be given in accordance with subsections (1) and (2) of ORS 183.415. [1975 c.677 §4; 1977 c.58 §2]

The notice, parties, procedures, record and appeal of a consolidated contested case hearing shall be consistent with the provisions of ORS 183.310 to 183.500 relating to contested cases. At his discretion, the direc-

tor may allow intervention in all or a part of the consolidated proceedings of the hearing and shall have the authority to adopt rules of procedure for the conduct of the consolidated contested case hearing.

(2) Prior to a consolidated contested case hearing, the director may, in his discretion, require that all parties to all hearings subject to the consolidation appear at a prehearings conference to consider:

(a) The type, time, place, parties and issues of the hearing or hearings which will be held;

(b) The necessity of special procedures;

(c) The simplification of the issues;

(d) The possibility of obtaining admissions of fact and of documents, and the limitation of repetitious or immaterial testimony; and

The parties to the hearing, excluding affected agencies, shall be given the opportunity to file exceptions to the proposed order with the appropriate affected agency or agencies issuing the final orders.

(2) An extension of time for forwarding of the proposed order may be granted by the department, up to an additional 30 days. [1975 c.677 §6; 1977 c.58 §6]

**447.860 Permit procedure under ORS 447.800 to 447.865 optional.** (1) No person shall be required to obtain permit approval through the method provided by ORS 447.800 to 447.865.

(2) An applicant may, in lieu of procedures established by ORS 447.800 to 447.865, proceed with permit approval procedures established by individual state agencies.
