498.265 [Repealed by 1955 c.160 §1]

498.268 Fishway required for artificial obstruction across body of water. (1) Except as otherwise provided by law, no person shall construct, operate or maintain any dam or artificial obstruction across any body of water in this state in which game fish exist unless he provides a fishway in such location and of such design as the commission determines will provide adequate upstream and downstream passage for fish at the dam or obstruction.

(2) If the commission determines that a fishway required by subsection (1) of this section does not provide adequate passage for fish, the commission shall so notify the person who constructed or who operates or maintains the dam or obstruction. The notice shall also specify the manner in which the fishway is inadequate, and shall require the person who constructed or who operates or maintains the dam or obstruction to make appropriate alterations, specifying a reasonable time for the completion thereof.

(3) A person required to alter a fishway pursuant to subsection (2) of this section may file with the Water Policy Review Board a protest against the alteration requirements on the grounds that such alterations are not in the public interest. A person who protests pursuant to this subsection must file the protest with the board not later than the 10th day after the date of the notice of alteration requirements from the commission.

(4) Within a reasonable time after receiving a protest, the Water Policy Review Board shall give notice to the protestant and the commission and hold a hearing to determine whether the fishway alterations are in the public interest. In making the determination, the board shall approve, disapprove or approve with modifications the fishway alterations required by the commission. In making the determination, the board shall consider the state water resources policy and the considerations set forth in ORS 536.310.

(5) If the person required by this section to make alterations to a fishway fails to make the alterations in the manner and within the time required by the commission or the Water Policy Review Board, as the case may be, the commission may remove the dam or obstruction, or any parts thereof.

(6) No person who has constructed or who operates or maintains a dam or artificial obstruction for which a fishway is required by this section shall fail to keep the fishway free from obstruction to the passage of fish. However, no prosecution for violation of this subsection shall be commenced unless the violation continues after the commission has given written notice of the violation to the person who is to be prosecuted. Every day of violation of this subsection after the date written notice was given to the person to be prosecuted constitutes a separate offense. [1973 c.723 §101]
