OF OREGON**

568.010 Definitions for ORS 568.010 to 568.130. As used in ORS 568.010 to 568.130, unless the context requires otherwise:

(1) "Other states of the United States" includes Alaska, Hawaii, Puerto Rico and all states of the United States of America.

(2) "Person" includes an individual, corporation, partnership, firm, business trust, joint stock company, association, syndicate, group, pool, joint venture and any other unincorporated association or group.

(3) "University" means Oregon State University.

568.020 Acceptance of federal Act; declaration of purpose. (1) It hereby is recognized and declared:

(a) That in this state, soil resources, fertility of the land and economic use thereof, prosperity of the farming population, navigability of the rivers and harbors and prevention of floods are matters affected with a public interest.

(b) That the welfare of this state has been impaired and is in danger of further being impaired by destruction of its soil fertility, by uneconomic use and waste of its land, by exploitation and wasteful and unscientific use of its soil resources, by floods and impairment of its rivers and harbors, and of the navigability of its waters and watercourses as a result of soil erosion and by the decrease in the purchasing power of the net income per person on farms in such state as compared with the net income per person in the state not on farms.

(c) That such evils have been augmented and are likely to be augmented by similar conditions in other states and are so interrelated with such conditions in other states that the remedying of such conditions in this state requires action by this state in cooperation with the governments and agencies of other states and of the United States and requires assistance therein by the Government and agencies of the United States.

(d) That the formulation and effectuation by this state of state plans in conformity with the provisions of section 7 of the Federal Soil Conservation and Domestic Allotment Act is calculated to remedy such conditions and will tend to advance the public welfare of this state.

(2) Therefore, in order to promote the welfare of the people of this state by aiding in preservation and improvement of soil fertility, in promotion of economic use and conservation of land, in diminution of exploitation and wasteful and unscientific use of soil resources, in protection of rivers and harbors against results of soil erosion, and in the reestablishment, at as rapid a rate as is practicable and in the general public interest, of the ratio between the purchasing power of the net income per person on farms and that of the net income per person not on farms that prevailed during the five-year period August 1909 to July 1914, inclusive, as determined from statistics available in the United States Department of Agriculture, and the maintenance of such ratio, the State of Oregon hereby assents to and accepts the provisions of the Federal Soil Conservation and Domestic Allotment Act and adopts the policy and purpose of cooperating with the government and agencies of other states and of the United States in the accomplishment of the policy and purposes specified in section 7 of that Act, subject, however, to the following limitations:

(a) The powers conferred in ORS 568.010 to 568.130 shall be used to assist voluntary action calculated to effectuate such purposes.

(b) Such powers shall not be used to discourage the production of supplies of foods and fibers in this state sufficient, when taken together with the production thereof in other states of the United States, to maintain normal domestic human consumption as determined by the Secretary of Agriculture of the United States from the records of consumption in the years 1920 to 1929, inclusive, taking into consideration increased population, quantities of any commodities that were forced into domestic consumption by a decline in exports of particular commodities and the quantities of substitutes available for domestic consumption within any general class of food commodities.

(c) In carrying out the purposes specified in this section, due regard shall be given to the maintenance of a continuous and stable national supply of agricultural commodities adequate to meet consumer demand at prices fair to both producers and consumers.

568.030 Oregon State University designated to carry out ORS 568.010 to 568.130. (1) Oregon State University is designated and authorized as the state agency to

carry out the policy and purposes of ORS 568.010 to 568.130 and to formulate and administer state plans pursuant to ORS 568.010 to 568.130.

(2) The university shall perform its duties and functions as such agency separately and distinctly from the performance of its duties and functions under any other Act or in any other capacity; except that the university may utilize the services and the assistance of its personnel and facilities normally used in the performance of such other functions, if it finds that the utilization of such services and assistance is necessary to, or is calculated to assist substantially in, the effective administration of ORS 568.010 to 568.130 and that such facilities may be utilized without interference with the effective performance of such other duties and functions.

568.040 Formulation and administration of state agricultural plans. (1) The university shall formulate for each calendar year and submit to the Secretary of Agriculture of the United States for and in the name of this state a state agricultural plan for carrying out the purposes of ORS 568.010 to 568.130 during such calendar year. In formulating such plans the university shall consult with other agencies of this state qualified to assist therein.

(2) The university may modify or revise any such plan in whatever manner, consistent with the terms of ORS 568.010 to 568.130, it finds necessary to provide for more substantial furtherance of the accomplishment of the purposes of ORS 568.010 to 568.130.

(3) The university shall provide for such investigations as it finds necessary for formulation and administration of such plans.

568.050 Contents of agricultural plans. Each state agricultural plan shall:

(1) Provide for such participation in its administration by such voluntary county and community committees, or associations of agricultural producers organized for such purposes, as the university determines necessary or proper for the effective administration of the plan.

(2) Provide, through agreements with agricultural producers or through other voluntary methods, for such adjustments in the utilization of land, in farming practices, and in the acreage or in the production for market, or both, of agricultural commodities, as the university determines to be calculated to

effectuate as substantial accomplishment of the purposes of ORS 568.010 to 568.130 as may reasonably be achieved through action of this state, and for payments to agricultural producers in connection with such agreements or methods in such amounts as the university determines to be fair and reasonable and calculated to promote such accomplishment of the purposes of ORS 568.010 to 568.130 without depriving such producers of a voluntary and uncoerced choice of action.

(3) Provide for such educational programs as the university determines necessary or proper to promote the more substantial accomplishment of the purposes of ORS 568.010 to 568.130.

(4) Contain an estimate of expenditures necessary to carry out the plan, together with a statement of such amount as the university determines to be necessary to be paid by the Secretary of Agriculture of the United States as a grant in aid of such agricultural plan under section 7 of the Federal Soil Conservation and Domestic Allotment Act, in order to provide for the effective carrying out of the plan, and shall designate the amount and due date of each instalment of such grant, the period to which such instalment relates and the amount determined by the university to be necessary for carrying out the plan during such period.

568.060 Receipt and disbursement of funds. (1) The university may receive on behalf of this state all grants of money or other aid made available from any source to assist the state in carrying out the policy and purposes of ORS 568.010 to 568.130. All such money or aid, together with any moneys appropriated or other provision made by this state for such purpose, shall be available to the university as the agency of the state, subject, in the case of any funds or other aid received upon conditions, to the conditions upon which such funds or other aid shall have been received, for the purpose of administering ORS 568.010 to 568.130. Such funds shall not be expended or disposed of for any other purpose. No funds made available to the university for purposes other than the administration of the provisions of ORS 568.010 to 568.130 shall be expended or otherwise disposed of in connection with the administration of ORS 568.010

to 568.130 except in providing services and assistance in the administration of ORS 568.010 to 568.130 pursuant to the provisions of ORS 568.030, and in such case only to the extent that such funds are properly available for such purpose and subject in such cases to reimbursement of the funds so expended pursuant to the provisions of ORS 568.080.

(2) Subject to any condition upon which any such money or other aid is made available to the state and to the terms of any applicable agricultural plan made effective pursuant to ORS 568.010 to 568.130, such expenditures may include, but need not be limited to expenditures for administrative expenses, equipment, cost of research and investigation, cost of educational activities, compensation and expenses of members of the State Advisory Board, reimbursement to other state agencies or to voluntary committees or associations of agricultural producers for costs to such agencies, committees or associations of assistance in the administration of ORS 568.010 to 568.130, requested in writing by the university and rendered to the university, reimbursement of any other fund from which it has made expenditures in providing services in the administration of ORS 568.010 to 568.130 pursuant to ORS 568.030, payments to agricultural producers provided for in any agricultural plan made effective pursuant to ORS 568.010 to 568.130, salaries of employes and all other expenditures requisite to carrying out the provisions and purposes of ORS 568.010 to 568.130.

(1) The adoption of the ordinance prescribing land-use regulations, the failure of the defendant landowner or occupier to observe such regulations and to perform particular work, operations or avoidance as required thereby.

(2) That such nonobservance tends to increase erosion on such lands and is interfering with the prevention or control of erosion on other lands within the district, and praying the court to require the defendant to perform the work, operations or avoidances within a reasonable time and to order that if the defendant fails so to perform the directors may go on the land, perform the work or other operations or otherwise bring the condition of such lands into conformity with the requirements of such regulations, and recover the costs and expenses thereof with interest, from the owner or occupier of such land.

568.710 Hearing and decree; court may appoint referee; joinder of owner and occupant. (2) The court may dismiss the petition; or it may require the defendant to perform the work, operations or avoidances, and may provide that upon the failure of the defendant to initiate such performance within the time specified in the order of the court and to prosecute the same to completion with reasonable diligence, the directors may enter upon the lands involved and perform the work or operations or otherwise bring the condition of such lands into conformity with the requirements of the regulations and recover the costs and expenses thereof, with interest at the rate of

(3) Any member of a board of adjustment who in the judgment of the commission is personally or financially interested in any

matter brought before the board of which he is a member shall be disqualified by the commission from participation on the board of adjustment in such matter; and the commission, with the advice and consent of the governing body of the district, shall appoint a member pro tempore who shall serve on the board of adjustment in its consideration of such matter until such matter is finally disposed of by the board of adjustment. Copies of such petition shall be served by the petitioner upon the chairman of the directors of the district within which his lands are located and upon the chairman of the commission.

(2) The board of adjustment shall fix a time for the hearing of the petition and cause due notice of such hearing to be given. The directors of the district and the commission shall have the right to appear and be heard at such hearing. Any party to the hearing before the board may appear in person, by agent or by attorney. If, upon the facts presented at such hearing, the board determines that there are great practical difficulties or unnecessary hardship in the way of applying the strict letter of any of the land-use regulations upon the lands of the petitioner, it shall make and record such determination and shall make and record findings of fact in reference thereto.

(3) Upon the basis of such findings and determination, the board shall have power by order to authorize such variance from the terms of the land-use regulations in their application to the lands of the petitioner, and

such order shall be in accordance with substantial justice.

(1) The purpose of ORS 568.810 to 568.890 is to effectuate the control of wind erosion by forming districts in which all land owners affected shall carry out wind erosion control measures whenever serious wind erosion conditions prevail.

(2) Two types of wind erosion conditions shall be recognized:

(b) Conditions which will result in a noticeable movement of the topsoil by wind action.

568.820 Designation of areas by county court upon petition; description of boundaries. (1) The county court of any county east of the summit of the Cascade Mountains may designate areas as wind erosion districts when presented with a duly certified petition adequately describing the boundaries or area included in such districts and when the petition bears the signatures of two-thirds of the landowners or qualified representatives in the described district. Five such signatures shall be a minimum requirement.

(2) Boundaries described by metes and bounds or areas described by quarter sections shall be deemed adequately described.

568.830 Publication and posting of notices describing districts; when regulations are enforced. (1) The county court shall within 10 days after declaring a wind erosion district cause to be published an official notice adequately describing the district.

(2) Each notice shall be posted in a prominent place in the county courthouse and shall be published in one or more newspapers serving the district, for two consecutive issues if weekly or two times at an interval of one week if daily or semiweekly.

Two members of the initial board shall be elected to serve for one year and two shall be elected to serve for two years. Vacancies in the advisory board shall be filled by appointment by the board.

(2) As soon as 20 percent or more of the farm operators of the district have assembled pursuant to such notice they shall constitute a quorum to do business. Such meeting shall organize by the election of a chairman and secretary of the meeting and then may proceed to elect four members of the advisory board. In either January or February in each year following the initial meeting, the chairman of the advisory board shall call an annual meeting of the farm operators of the wind erosion district. At least five days before the meeting, notice of the meeting shall be given by posting in three public places in the wind erosion district a written or printed notice notifying the farm operators thereof to assemble at some designated convenient place at the appointed time for the annual meeting. At the meeting two members of the advisory board to serve for two years shall be elected. All members of the advisory board shall be farm operators of the district in which they are elected.

(a) To recommend to the county court a person or persons for the position of wind erosion inspector.

(b) To consult and advise with the inspector as to the most feasible methods of effectuating wind erosion control in the district.

(c) To act as a board of appeal when disputes arise between the wind erosion inspector and the owner or occupant of land within the district, concerning action relating to the enforcement of ORS 568.810 to 568.890.

[Amended by 1959 c.278 §1]

(c) When necessary, control or supervise control of wind erosion or conditions which may allow wind erosion to occur on lands where the owners or occupants thereof fail or refuse to do so.

(2) The inspector shall be the sole judge of whether serious wind erosion conditions do or do not prevail, except that appeal from his decisions may be made to the advisory board as provided in ORS 568.840. In case of appeal to the advisory board, the inspector shall abide by a majority decision of the advisory board.

(3) The persons appointed wind erosion inspectors by the county court may receive for services reasonable wages, as determined by the county court, for the time actually employed in the performance of duty under the provisions of ORS 568.810 to 568.890 and may be reimbursed for actual expenses incurred in carrying out those provisions. All wages and expenses paid wind erosion inspectors shall be paid by the county court from funds set aside for this purpose, as provided in ORS 568.880.

of such land, or where unable to serve such notice personally, shall post the same and two copies thereof in three conspicuous places on the land where the provisions of ORS 568.810 to 568.890 are not being complied with, bearing date of service on posting of same and a statement setting forth that work on the control of wind erosion must be commenced within five days; except that when serious blowing is actually occurring, four hours from the date of service is sufficient notice.

(2) A copy of the notice or notices, each showing the period of grace allowed, together with proof of service indorsed thereon, shall be filed with the county court.

568.870 County court may authorize inspector to control erosion; expenses of control. (1) If the owner or occupant of the land fails or refuses to control wind erosion in accordance with ORS 568.810 to 568.890, the wind erosion inspector shall at once notify the county court, and the county court shall authorize the wind erosion inspector or such assistants as he may employ to go upon the land and control the wind erosion, using the most effective and practical methods which will operate with the least injury to the land or the crops thereon.

(2) Verbal authorization by telephone from one or more members of the county court is sufficient authority for commencing wind erosion control work when actual wind erosion is occurring and when an official four-hour notice, as provided in ORS 568.860 has been served on the owner or occupant of the land.

(3) Upon completion of the work the wind erosion inspector shall file with the county clerk an itemized statement of the expenses necessarily incurred in the control of the wind erosion, including his own wage, if any, verified by his oath. When the statement is filed, the county clerk shall cause the same to be entered upon a lien docket prepared for that purpose.

(4) If such charges and expenses are not paid to the county clerk and the lien dis-

charged by the owner or occupant of the lands within 90 days from the date the lien is docketed, the county clerk shall certify the same to the tax collector of the county, who shall extend the amount thereof upon the current tax roll, and when so extended the same shall constitute a valid lien against the premises and shall be collected by the tax collector in the same manner as taxes are collected.

(5) If within 10 days from the date of filing and docketing the lien no objections have been filed thereto, the county court shall pay the amount thereof out of the general fund of the county to the claimants.

568.880 Tax levy for wind erosion control. The county courts of the several counties may levy a tax and create a fund for the control of wind erosion on county land within the wind erosion districts and for expenses of erosion control which cannot fairly be charged to the individual landowners. The amount estimated by the county court as being sufficient for such purposes may be placed in the county budget; and after consideration at the meeting held for the purpose of passing upon the tax levy of the voters of the county, may become one of the items for which expenditure may be made during the ensuing year.

568.890 District may be dissolved; disposition of district funds; change of district boundaries. (1) Any wind erosion district may be enlarged, contracted or dissolved by the county court when a petition is filed bearing the signatures of two-thirds of the landowners of the district and stating the changes in the district boundaries that are desired.
