366.285 Location of highways when in doubt; procedure. (1) The department may locate, relocate, define, establish, reestablish and confirm the extension, location and establishment of primary and secondary state highways where

(a) By reason of loss or destruction of field notes of the original surveys made by the county when such roads or highways were laid out and established by the county, defective or incomplete surveys or records, or destroyed monuments or marks, the exact original location and boundary cannot be found or ascertained

(b) For any reason the exact location and right of way lines are in doubt or are challenged

(2) In exercising the authority under subsection (1) of this section the procedure afforded the county with respect to public roads under ORS 368 201 to 368 221 may be followed by the department [Amended by 1981 c 153 §61]

366.290 Adding to or removing roads from state highway system; responsibility for construction and maintenance. (1) The department may select, locate, establish, designate, improve and maintain out of the highway fund a system of state highways, and for that purpose may, by mutual agreement with several counties, select county roads or public roads. By an appropriate order entered in its records the department may designate and adopt such roads as state highways. Thereafter the construction, improvement, maintenance and repair of such roads shall be under the jurisdiction of the department

(2) In the selection of highways or roads to comprise the state highway system the department shall give consideration to and shall select such county roads or public roads as will contribute to and best promote the completion of an adequate system of state highways

(3) With the written consent of the county in which a particular highway or part thereof is located, the department may, when in its opinion the interests of the state will be best served, eliminate from the state highway system any road or highway or part thereof. Thereafter the road or highway or part thereof eliminated shall become a county road or highway, and the construction, repair, maintenance or improvement, and jurisdiction over such highway shall be exclusively under the county in which such highway or road is located

(4) The construction, maintenance and repair of state highways shall be carried on at the

sole expense of the state or at the expense of the state and the county by mutual agreement between the department and the county in which any particular state highway is located [Amended by 1953 c 252 §2, 1979 c 223 §1]

The Oregon Transportation Commission may make such changes in the location of highways designated and adopted by the commission, as in the judgment and discretion of the commission will result in better alignment, more advantageous and economical highway operation and maintenance, or as will contribute to and afford a more serviceable system of state highways than is possible under the present location [Amended by 1977 c 312 §1]

366.300 Treatment of sections eliminated when highway relocated. (1) Whenever the department relocates or realigns a state highway or a section thereof, and by reason of such relocation or realignment there is eliminated from the original route of the highway a section thereof, the eliminated section shall, if needed for the service of persons living thereon or for a community served thereby, be maintained by the department at state expense, or by the county or by the state and the county on such terms and conditions as may be agreed upon

(2) If such eliminated sections of old right of way, or any part thereof, in the judgment of the department, are needed or valuable for public road use, then the department shall, by appropriate action, declare the purpose of the department to preserve the same for public road use

(3) If the department determines under subsection (2) of this section that the eliminated sections are merely parts of the old right of way which are no longer needed or valuable for highway right of way purposes or any other public road use, then if such eliminated sections are not owned by the department in fee, the department shall abandon such eliminated sections and such sections shall, except as otherwise provided in this section, revert to and title thereto shall vest in the abutting owner or owners

(4) Nothing in this section shall impair vested rights of property owners under existing deeds, easements or contracts whereby the state or any county acquired such rights of way This section shall not prevent the department from contracting for the acquisition of easements or rights of way on such terms and conditions as to abandonment and reverter as it may consider advisable under the conditions then existing [Amended by 1985 c 259 §1]

366.305 Materials, supplies and equipment. The department may select the materials

to be used in the construction, maintenance and operation of state highways It may purchase or contract for, independent of any particular job, improvement or highway project, whether done by contract, force account or otherwise, any material, supplies or equipment deemed necessary for carrying out the provisions and purposes of this Act in such amounts and manner and pursuant to such method as in the judgment of the department will be for the best interests of the state

When the construction, expansion or improvement of a state highway as defined in ORS 366 005 would otherwise clearly and certainly cause the destruction of trees and shrubs which in the judgment of the engineer or the designee of the engineer may be removed in safety, the Highway Division shall

(1) Prior to their destruction, cause notice to be placed in a newspaper of general distribution in the locality in which these trees and shrubs are located that these trees and shrubs may be destroyed, and that application may be made to the division at a specific time and place to remove these trees and shrubs for transplanting, and

(2) Permit the removal of these trees and shrubs by those making application to do so [1975 c 414 §1]

power of eminent domain, real property or any right or interest therein deemed necessary for rights of way, either for original location or for widening, straightening or otherwise changing any highway, road or street. (3) All rights of way owned or held by the several counties over and along any roads adopted as state highways are vested in the state, by and through the department. This subsection does not apply to any rights of way owned by any city for city streets. [Amended by 1953 c 252 §2]

(a) Facilities located in or on the right of way of a state highway under permits issued by the department upon the condition that the permittee would bear the cost of any relocation, or

(b) Facilities located in or on the right of way of a state highway where the municipal corporation, district or authority established under ORS chapter 264, 450, 451 or 545, has placed such facilities in or on the right of way of the state highway without a permit from the commission or has refused to execute a permit as required by law or commission regulations. However, this paragraph shall not apply where such municipal corporation, district or authority has located facilities in or on the right of way of a city street or county road with the permission of the governing body of such city or county before such city street or county road was selected and designated a state highway by the Department of Transportation pursuant to ORS 366 290 or 373 010 [1967 c 272 §1, 1975 c 587 §1, 1975 c 782 §51a]

or more dwelling units, businesses or institutions, the Department of Transportation shall make a study of the persons residing on or maintaining businesses or institutions on property scheduled for highway acquisition. Such studies shall be kept current until the premises required for highway acquisition are vacated. The department shall obtain such other information as it finds appropriate to aid in the relocation of persons displaced by the highway acquisition, and may extend its studies beyond city boundaries when the highway acquisition will involve dwellings, businesses or institutions within three miles of a city boundary. Such information shall be made available to the persons displaced and to other persons who may provide or assist in providing new locations. This section shall apply whether the highway acquisitions will be paid for in whole or in part from state funds either directly or by reimbursement. [1959 c 648 §1, 1963 c 187 §1]

The depart-

ment may acquire by purchase, agreement, donation or exercise of the power of eminent domain, real property contiguous to the cemetery, and may convey such real property to the cemetery association or the owners of the cemetery in exchange for the property sought to be acquired for right of way purposes, but such authority shall not be exercised unless and until the owners of the cemetery agree in writing to the exchange of lands

366.330 Acquisition of land adjoining right of way. The department may, when acquiring real property for right of way purposes, acquire additional real property adjoining the real property sought to be acquired for the particular public project if such additional and adjoining real property is needed for the purpose of moving and establishing thereon buildings or other structures then established on real property required for right of way purposes. The acquisition of the abutting, additional real property may be accomplished by purchase, agreement, donation or exercise of the power of eminent domain. Such real property can be acquired only in the event that the owner of the real property required for right of way purposes and on which there is then located buildings or other structures, has entered into a written agreement with the department providing for and consenting to the removal and reestablishment of the buildings or structures on the additional, abutting real property.

Any unexpended and unobligated balance remaining in any such appropriation heretofore or hereafter made shall, after the expiration of the biennium for which the appropriation was made, be returned to the State Highway Fund and may thereafter be used for any purpose authorized by law [1953 c 84 §1]
