(3) The plan shall include the location of all known subsurface mineral aggregate deposits situated on lands within the boundaries of the Willamette River Greenway [1973 c 558 §3]

390 320 [1967 c 551 §2, 1973 c 87 §1, repealed by 1973 c 558 §17]

The Department of Transportation may enter into agreements with units of local government and make grants of money from a state highway fund to assist units of local government in acquiring lands or any interest in lands situated within the boundaries of the Willamette River Greenway for exclusive public use for scenic and recreational purposes and to assist units of local government in preserving and restoring historical sites, structures, facilities and objects on lands along the Willamette River as may be determined by the department to be in accordance with the plan approved under ORS 390 322 and to further the purposes of the Willamette River Greenway as set forth in ORS

390 314 Each such agreement shall provide for the transfer by the department to the unit of local government of any scenic or public easement acquired by the department under ORS 390 310 to 390 368 with respect to lands acquired by the unit of local government under this section. The grants of money that may be made by the department for any property or property rights or for the initial preservation and restoration of historical sites, structures, facilities and objects shall not exceed 50 percent of the cost thereof. All remaining costs, including future operation and maintenance, shall be borne by the unit or units of local government in a manner satisfactory to the department. The department may acquire such easements by any method, including but not limited to the exercise of the power of eminent domain.

(2) Each scenic easement acquired under subsection (1) of this section shall

(a) Be designed to preserve the vegetation along the Willamette River and the natural and scenic qualities of the lands subject to such ease-

ments and authorize the department, at its own expense, to engage in natural vegetative landscaping on such lands to enhance the natural and scenic qualities of such lands.

(b) Require the owner of the lands subject to such easement to carry on the use of such lands in a manner to preserve the existing vegetation and natural and scenic qualities of such lands and require the repair by the department, at its own expense, of any damage resulting from natural causes to vegetation on such lands.

(c) Not provide for public access or use of the lands subject to such easement, if such easement was acquired by the department through the exercise of the power of eminent domain.

(d) Provide that any subsequent farm use, as defined in ORS 215 203 (2), of the land subject to such easement is compatible with the purposes of the Willamette River Greenway and that any restrictions on the use of the land under such easement are suspended while such land is devoted to such farm use.

(4) The department may not acquire, through the exercise of the power of eminent domain, scenic easements under subsection (1) of this section on any lands that on October 5, 1973, are devoted to farm use, as defined in ORS 215 203 (2) or are a portion of a larger tract of land under single ownership that is devoted to such use. Upon a change in the use of any such lands from farm use, the department may acquire scenic easements in such lands as provided in ORS 390 334. Nothing in this subsection is intended to limit the power of the department to acquire, by any means other than the exercise of the power of eminent domain, a scenic easement on lands described in this subsection while such lands are devoted to such farm use. [1973 c 558 §5]

390.334 Acquisition of scenic easements in lands subject to development plan; farmlands not to be acquired by condemnation; nature of easement; acquisition of other interests. (3) Each scenic easement acquired under subsection (1) of this section shall

(a) Specify the use of the land existing on the date of the acquisition of the easement and permit the continuation of such use while the land is subject to such easement

(b) With respect to scenic easements acquired through the exercise of the power of eminent domain, not provide for any rights of public access to or use of such lands under such easements

(c) Provide that any subsequent farm use, as defined in ORS 215 203 (2), of the land subject to such easement is compatible with the purposes of the Willamette River Greenway and that any restrictions on the use of the land under such easement are suspended while such land is devoted to such farm use

(d) Prevent the change in use of the lands subject to such easements except with the consent of the department and in accordance with the conditions imposed with such consent The consent of the department and the conditions

imposed therewith shall be in accordance with the intent and purposes of the Willamette River Greenway

(4) In addition to a scenic easement acquired by the department under this section, the department may acquire, by any means other than the exercise of the power of eminent domain, a public easement providing for public access and use of such lands

(5) At any time after the approval of the plan for the Willamette River Greenway or any segment thereof under ORS 390 322, the department may acquire, by any means other than the exercise of the power of eminent domain, lands or interests therein that are situated outside the boundaries of the Willamette River Greenway or the segment thereof as approved. (2) If any land acquired by the department under subsection (1) or (4) of this section is a part of a larger tract of land devoted to farm use on the date of the acquisition of such portion of the tract and such acquisition would render uneconomic an otherwise economic farming unit on the whole tract of land, upon the request of the owner of such tract of land, the department shall purchase the entire tract of land The department shall, whenever practicable, acquire the remainder of any such tract of land with state funds so that the subsequent disposition of any such land will not be subject to restrictions imposed under agreements made for the receipt of nonstate funds otherwise available for the acquisition of such lands

(3) The department may dispose of lands acquired pursuant to subsection (2) of this section that are located outside the boundaries of the Willamette River Greenway as it considers advisable However, the disposition of any such lands must comply with the laws of this state and the applicable provisions of any agreement by which

(c) As a part of the true value and damages, in valuing such lands as a whole, for the appropriation of such lands acquired by award in a condemnation action initiated under ORS 35 245, the estimated market value of economically extractable subsurface mineral aggregate deposits of reasonably foreseeable demand alleged in the answer of the defendant made pursuant to ORS 35 295 and proved by the defendant as a matter of defense to be a part of the true value of such lands so acquired

(6) This section does not apply to the acquisition of any lands or interests therein acquired for state parks or recreation areas prior to October 5, 1973, and to any lands or interests in land subject to a legally enforceable option held by the state on October 5, 1973, for the purposes of the acquisition of such lands or interests for state parks and recreation areas [1973 c 558 §8]

OCEAN SHORES; STATE RECREATION AREAS

(General Provisions)

390.605 "Improvement," "ocean shore," and "state recreation area" defined.

As used in ORS 390 610, 390 620 to 390 660, 390 690, and 390 705 to 390 770, unless the context requires otherwise

(1) An "improvement" includes a structure, appurtenance or other addition, modification or alteration constructed, placed or made on or to the land.

(2) "Ocean shore" means the land lying between extreme low tide of the Pacific Ocean and the line of vegetation as established and described by ORS 390 770

(3) "State recreation area" means a land or water area, or combination thereof, under the jurisdiction of the Department of Transportation, pursuant to ORS 366 205 (3), used by the public for recreational purposes [Formerly 274 065 and then 390 710]

390.610 Policy. (1) The Legislative Assembly hereby declares it is the public policy of the State of Oregon to forever preserve and maintain the sovereignty of the state heretofore legally existing over the ocean shore of the state from the Columbia River on the north to the Oregon-California line on the south so that the public may have the free and uninterrupted use thereof

(2) The Legislative Assembly recognizes that over the years the public has made frequent and uninterrupted use of the ocean shore and recognizes, further, that where such use has been legally sufficient to create rights or easements in the public through dedication, prescription, grant or otherwise, that it is in the public interest to protect and preserve such public rights or easements as a permanent part of Oregon's recreational resources

(3) Accordingly, the Legislative Assembly hereby declares that all public rights or easements legally acquired in those lands described in subsection (2) of this section are confirmed and declared vested exclusively in the State of Oregon and shall be held and administered as state recreation areas

(4) The Legislative Assembly further declares that it is in the public interest to do whatever is necessary to preserve and protect scenic and recreational use of Oregon's ocean shore [1967 c 601 §§1, 2(1), (2), (3), 1969 c 601 §4]

390.615 Ownership of Pacific shore; declaration as state recreation area.

Ownership of the shore of the Pacific Ocean between ordinary high tide and extreme low tide, and from the Oregon and Washington state line on the north to the Oregon and California state line on the south, excepting such portions as may have been disposed of by the state prior to July 5, 1947, is vested in the State of Oregon, and is declared to be a state recreation area No portion of such ocean shore shall be alienated by any of the agencies of the state except as provided by law [Formerly 274 070 and then 390 720]

390.620 Pacific shore not to be alienated; judicial confirmation. (1) No portion

of the lands described by ORS 390 610 or any interest either therein now or hereafter acquired by the State of Oregon or any political subdivision thereof shall be alienated except as expressly provided by state law. The Department of Transportation and the State Land Board shall have concurrent jurisdiction to undertake appropriate court proceedings, when necessary, to protect, settle and confirm all such public rights and easements in the State of Oregon.

(2) No portion of the ocean shore declared a state recreation area by ORS 390 610 shall be alienated by any of the agencies of the state except as provided by law.

(3) In carrying out its duties under subsection (1) of this section with respect to lands and interests in land within the ocean shore, the State Land Board shall act with respect to the portion of the tidal submerged lands, as defined in ORS 274 705 (7), and the submersible lands, as defined in ORS 274 005 (8), that are situated within the ocean shore as it does with respect to other state-owned submerged and submersible lands within navigable waters of this state.

(4) In carrying out its duties under subsection (1) of this section with respect to lands and interests in land within the ocean shore, the Department of Transportation shall act with respect to such lands and interests as it does with respect to other lands and interests within state recreation areas [1967 c 601 §2(4), 3, 1969 c 601 §5, 1973 c 364 §1].

390.630 Acquisition along ocean shore for state recreation areas or access. The Department of Transportation, in accordance with ORS 390 110, may acquire ownership of or interests in the ocean shore or lands abutting, adjacent or contiguous to the ocean shore as may be appropriate for state recreation areas or access to such areas where such lands are held in private ownership. However, when acquiring ownership of or interests in lands abutting, adjacent or contiguous to the ocean shore for such recreation areas or access where such lands are held in private ownership, the department shall consider the following:

(1) The availability of other public lands in the vicinity for such recreational use or access.

(2) The land uses, improvements, and density of development in the vicinity.

(3) Existing public recreation areas and accesses in the vicinity.

(4) Any local zoning or use restrictions affecting the area in question [1967 c 601 §4, 1969 c 601 §6].

(Regulating Use of Ocean Shore)

390.635 Jurisdiction of department over recreation areas. Except as provided by

ORS 273 551, 274 710 and 390 620, the Department of Transportation has jurisdiction over the land and interests in land acquired under ORS 390 610, 390 615, 390 620 or 390 630 in order to carry out the purposes of ORS 390 610, 390 620 to 390 660, 390 690 and 390 705 to 390 770 [1969 c 601 §21, 1973 c 364 §2].

390.640 Permit required for improvements on ocean shore; exceptions. (1) In order to promote the public health, safety and welfare, to protect the state recreation areas recognized and declared by ORS 390 610 and 390 615, to protect the safety of the public using such areas, and to preserve values adjacent to and adjoining such areas, the natural beauty of the ocean shore and the public recreational benefit derived therefrom, it is necessary to control and regulate improvements on the ocean shore. Unless a permit therefor is granted as provided by ORS 390 650, no person shall make an improvement on any property that is within the area described by ORS 390 770.

(2) This section does not apply to permits granted pursuant to ORS 390 715, or to rules promulgated or permits granted under ORS 390 725.

(3) This section does not apply to continuous extensions of densely vegetated land areas which are above the 16 foot contour and lying seaward of the line established by ORS 390 770 as of August 22, 1969. The elevation mentioned in this subsection refers to the United States Coast and Geodetic Survey Sea-Level Datum of 1929 through the Pacific Northwest Supplementary Adjustment of 1947 [1967 c 601 §5, 1969 c 601 §7, 1973 c 642 §14].

390.650 Improvement permit procedure. (1) Any person who desires a permit to make an improvement on any property subject to ORS 390 640 shall apply in writing to the Parks and Recreation Division on a form and in a manner prescribed by the division, stating the kind of and reason for the improvement.

(2) Upon receipt of a properly completed application, the Parks and Recreation Division shall cause notice of the application to be posted at or near the location of the proposed improvement. The notice shall include the name of the applicant, a description of the proposed improvement and its location and a statement of the time within which interested persons may file a request with the division for a hearing on the application. The division shall give notice of any application, hearing or decision to any person

who files a written request with the division for such notice

(3) Within 30 days after the date of posting the notice required in subsection (2) of this section, the applicant or 10 or more other interested persons may file a written request with the Parks and Recreation Division for a hearing on the application. If such a request is filed, the division shall set a time for a hearing to be held by the division. The division shall cause notice of the hearing to be posted in the manner provided in subsection (2) of this section. The notice shall include the time and place of the hearing. After the hearing on an application or, if a hearing is not requested, after the time for requesting a hearing has expired, the division shall grant the permit if approval would not be adverse to the public interest. ORS 183 310 to 183 550 does not apply to a hearing or decision under this section.

(4) In acting on an application, the Parks and Recreation Division shall take into consideration the matters described by ORS 390 655. The division shall act on an application within 60 days after the date of receipt or, if a hearing is held, within 45 days after the date of the hearing.

(a) If the permit is denied upon the grounds that the same would be adverse to the public interest, the division shall make written findings setting forth the specific reasons for the denial.

(b) A copy of the written findings shall be furnished to the applicant within 30 days following denial of the application as provided in this subsection.

(5) Subsections (2) and (3) of this section do not apply to an application for a permit for the repair, replacement or restoration, in the same location, of an authorized improvement or improvement existing on or before May 1, 1967, if the repair, replacement or restoration is commenced within three years after the damage to or destruction of the improvement being repaired, replaced or restored occurs.

(6) The Parks and Recreation Division may, upon application therefor, either written or oral, grant an emergency permit for a new improvement, dike, revetment, or for the repair, replacement or restoration of an existing, or authorized improvement where property or property boundaries are in imminent peril of being destroyed or damaged by action of the Pacific Ocean or the waters of any bay or river of this state. Said permit may be granted by the division without regard to the provisions of subsections (1), (2), (3), (4) and (5) of this section. Any emergency permit granted hereunder shall be reduced to writing by the division within 10 days after

granting the same with a copy thereof furnished to the applicant [1967 c 601 §6, 1969 c 601 §10, 1979 c 186 §21]

390.655 Standards for improvement permits. The Parks and Recreation Division shall consider applications and issue permits under ORS 390 650 in accordance with standards designed to promote the public health, safety and welfare and carry out the policy of ORS 390 610, 390 620 to 390 660, 390 690, and 390 705 to 390 770. The standards shall be based on the following considerations, among others:

(1) The public need for healthful, safe, esthetic surroundings and conditions, the natural scenic, recreational and other resources of the area, and the present and prospective need for conservation and development of those resources.

(2) The physical characteristics or the changes in the physical characteristics of the area and suitability of the area for particular uses and improvements.

(3) The land uses, including public recreational use if any, and the improvements in the area, the trends in land uses and improvements, the density of development and the property values in the area.

(4) The need for recreation and other facilities and enterprises in the future development of the area and the need for access to particular sites in the area [1969 c 601 §11, 1979 c 186 §22]

390.658 Judicial review of division action on improvement permit application.

Any person aggrieved by the decision of the Parks and Recreation Division under ORS 390 650 is entitled to petition the circuit court of the county where the property is located for a judicial review, de novo as in equity, of the action or failure to act by the division. A petition filed under this section shall be filed within 60 days after the entry of the findings provided for in ORS 390 650 (4) or after the expiration of the period prescribed for action, by the division under ORS 390 650 [1969 c 601 §12, 1979 c 186 §23]

390.660 Regulation of use of lands adjoining ocean shores. The Department of Transportation is hereby directed to protect, to maintain and to promulgate rules governing use of the public of property that is subject to ORS 390 640, property subject to public rights or easements declared by ORS 390 610 and property abutting, adjacent or contiguous to those lands described by ORS 390 615 that is available for public use, whether such public right or easement to use is obtained by dedication, prescription, grant, state-ownership, permission of a private owner or otherwise [1967 c 601 §7, 1969 c 601 §16]

390.665 [Formerly 274 100 and then 390 740, repealed by 1971 c 743 §432]

390.668 Motor vehicles and aircraft use regulated in certain zones; zone markers; proceedings to establish zones. (1) The Department of Transportation may establish zones on the ocean shore where travel by motor vehicles or landing of any aircraft except for an emergency shall be restricted or prohibited. After the establishment of a zone and the erection of signs or markers thereon, no such use shall be made of such areas except in conformity with the rules of the department.

(2) Proceedings to establish a zone

(a) May be initiated by the department on its own motion, or

(b) Shall be initiated upon the request of 20 or more landowners or residents or upon request of the governing body of a county or city contiguous to the proposed zone

(3) A zone shall not be established unless the department first holds a public hearing in the vicinity of the proposed zone. The department shall cause notice of the hearing to be given by publication, not less than seven days prior to the hearing, by at least one insertion in a newspaper of general circulation in the vicinity of the zone.

(4) Before establishing a zone, the department shall seek the approval of the local government whose lands are adjacent or contiguous to the proposed zone. [Formerly 274 090 and then 390 730]

390.670 [1967 c 601 §8, 1969 c 601 §13, repealed by 1971 c 780 §7]

390.685 Effect of ORS 390.605, 390.615, 390.668 and 390.685. Nothing in ORS 390 605, 390 615, 390 668 and 390 685 is intended to repeal ORS 492 780 to 492 810 [Formerly 274 110 and then 390 750]

390.690 Title and rights of state unimpaired. Nothing in ORS 390 610, 390 620 to 390 660, 390 690 and 390 705 to 390 770 shall be construed to relinquish, impair or limit the sovereign title or rights of the State of Oregon in the shores of the Pacific Ocean as the same may exist before or after July 6, 1967 [1967 c 601 §10]

(Special Permits)

390.705 Prohibition against placing certain conduits across recreation area and against removal of natural products. No person shall

(1) Place any pipeline, cable line or other conduit across and under the state recreation areas described by ORS 390 635 or the submerged lands adjacent to the ocean shore, except as provided by ORS 390 715

(2) Remove any natural product from the ocean shore, other than fish or wildlife, agates or souvenirs, except as provided by ORS 390 725 [1969 c 601 §20]

390.710 [Formerly 274 065, 1969 c 601 §2, renumbered 390 605]

390.715 Permits for pipe, cable or conduit across ocean shore and submerged lands. (1) The Department of Transportation may issue permits under ORS 390 650 to 390 658 for pipelines, cable lines and other conduits across and under the ocean shore and the submerged lands adjacent to the ocean shore, upon payment of just compensation by the permittee. Such permit is not a sale or lease of tide and overflow lands within the scope of ORS 274 040.

(2) Whenever the issuance of a permit under subsection (1) hereof will affect lands owned privately, the Department of Transportation shall withhold the issuance of such permit until such time as the permittee shall have obtained an easement, license or other written authorization from the private owner, which easement, license or other written authority must meet the approval of the Department of Transportation, except as to the compensation to be paid to the private owner.

(3) All permits issued under this section are subject to conditions that will assure safety of the public and the preservation of economic, scenic and recreational values and to rules promulgated by state agencies having jurisdiction over the activities of the grantee or permittee [1969 c 601 §22]

390.720 [Formerly 274 070, renumbered 390 615]

390.725 Permits for removal of products along ocean shore. (1) No sand, rock, mineral, marine growth or other natural product of the ocean shore, other than fish or wildlife, agates or souvenirs, shall be taken from the state recreation areas described by ORS 390 635, except in compliance with a rule of or permit from the Department of Transportation as provided by this section. Permits shall provide for the payment of just compensation by the permittee as provided in subsection (5) of this section.

(2) Rules or permits shall be made or granted by the Department of Transportation only after consultation with the State Fish and Wildlife Commission, the State Department of Geology

and Mineral Industries and the Division of State Lands Rules and permits shall contain provisions necessary to protect the areas from any use, activity or practice inimicable to the conservation of natural resources or public recreation

(3) On request of the governing body of any coastal city or county, the Department of Transportation may grant a permit for the removal of sand or rock from the area at designated locations on the ocean shore to supply the reasonable needs for essential construction uses in such localities if it appears sand and rock for such construction are not otherwise obtainable at reasonable cost, and if such removal will not materially alter the physical characteristics of the area or adjacent areas, nor lead to such changes in subsequent seasons. Before issuing a permit the department shall likewise take into consideration the standards described by ORS 390 655. The department may grant a permit to take and remove sand, rock, mineral or marine growth from the area at designated locations. The department shall also issue permits to coastal cities or counties to remove or authorize removal of sand from the ocean shore, under the standards provided by ORS 390 655, if the city or county determines that the sand accumulation on the ocean shore constitutes a hazard or maintenance problem to the city or county.

(4) The terms, royalty and duration of a permit under this section are at the discretion of the department. A permit is revocable at any time in the discretion of the department without liability to the permittee.

(5) Whenever the issuance of a permit under this section will affect lands owned privately, the Department of Transportation shall withhold the issuance of such permit until such time as the permittee shall have obtained an easement, license or other written authorization from the private owner, which easement, license or other written authority must meet the approval of the department, except as to the compensation to be paid to the private owner [1969 c 601 §23]

(Vegetation Line)

390.755 Periodical reexamination of vegetation line; division recommendations for adjustment. (1) The Parks and Recreation

Division is directed to periodically reexamine the line of vegetation as established and described by ORS 390 770 for the purpose of obtaining information and material suitable for a re-evaluation and re-definition, if necessary, of such line so that the private and public rights and interest in the ocean shore shall be preserved.

(2) The Department of Transportation may, from time to time, recommend to the Legislative Assembly adjustment of the line described in ORS 390 770 [1969 c 601 §27, 1979 c 186 §24]

390.760 Exceptions from vegetation line. ORS 390 640 does not apply to any state-owned land or to headlands and other lands located at an elevation of more than 16 feet and seaward of a line running between the following designated and numbered points which are more particularly described by ORS 390 770. The elevation mentioned in this section refers to the United States Coast and Geodetic Survey Sea-Level Datum of 1929 through the Pacific Northwest Supplementary Adjustment of 1947.

SCENIC WATERWAYS

390.805 Definitions for ORS 390.805 to 390.925. As used in ORS 390 805 to 390 925, unless the context requires otherwise

(1) "Department" means the Department of Transportation

(2) "Scenic waterway" means Waldo Lake, river or segment of river that has been designated as such in accordance with ORS 390 805 to 390 925 or any subsequent Act, and includes related adjacent land

(3) "Related adjacent land" means all land within one-fourth of one mile of the bank on the side of Waldo Lake, river or segment of river within a scenic waterway, except land that, in the department's judgment, does not affect the view from the waters within a scenic waterway

(4) "Scenic easement" means the right to control the use of related adjacent land, including air space above such land, for the purpose of protecting the scenic view from waters within a scenic waterway, but such control does not affect, without the owner's consent, any regular use exercised prior to the acquisition of the easement, and the landowner retains the right to uses of the land not specifically restricted by the easement [1971 c 1 §2, 1981 c 787 §55, 1983 c 334 §1, 1983 c 642 §10]

390.815 Policy; establishment of system. The people of Oregon find that many of the

free-flowing rivers of Oregon and Waldo Lake and lands adjacent to such lake and rivers possess outstanding scenic, fish, wildlife, geological, botanical, historic, archeologic, and outdoor recreation values of present and future benefit to the public. The people of Oregon also find that the policy of permitting construction of dams and other impoundment facilities at appropriate sections of the rivers of Oregon and Waldo Lake needs to be complemented by a policy that would preserve Waldo Lake and selected rivers or sections thereof in a free-flowing condition and would protect and preserve the natural setting and water quality of the lake and such rivers and fulfill other conservation purposes. It is therefore the policy of Oregon to preserve for the benefit of the public Waldo Lake and selected parts of the state's free-flowing rivers. For these purposes there is established an Oregon Scenic Waterways System to be composed of areas designated in accordance with ORS 390.805 to 390.925 and any subsequent Acts [1971 c 1 §1, 1983 c 334 §2]

390.825 Designated scenic waterways.

The following lakes or rivers, or segments of rivers, and related adjacent land, are designated as scenic waterways

(1) The segment of the Rogue River extending from the confluence with the Applegate River downstream a distance of approximately 88 miles to Lobster Creek Bridge

(2) The segment of the Illinois River from the confluence with Deer Creek downstream a distance of approximately 46 miles to its confluence with the Rogue River

(3) The segment of the Deschutes River from immediately below the existing Pelton reregulating dam downstream approximately 100 miles to its confluence with the Columbia River, excluding the City of Maupin as its boundaries are constituted on October 4, 1977.

(10) The segment of the Little North Fork of the Santiam River from the confluence of Battle Ax Creek and Opal Creek downstream to the point at which the Little North Fork of the Santiam River reaches the boundary of the Willamette National Forest as constituted on September 20, 1985 [1971 c 1 §3, 1975 c 612 §1, 1977 c 671 §1, 1983 c 334 §3, 1985 c 781 §§1, 2]

Note The amendment to 390.825 by section 2, chapter 781, Oregon Laws 1985, takes effect July 1, 1987. See section 3, chapter 781, Oregon Laws 1985. 390.825 as amended is set forth for the users' convenience.

390.835 Highest and best use of waters within scenic waterways; authority of State Fish and Wildlife Commission, Water Resources Commission, Division of State Lands and State Land Board. (1) It is declared that the highest and best uses of the waters within scenic waterways are recreation, fish and wildlife uses. The free-flowing character of these waters shall be maintained in quantities necessary for recreation, fish and wildlife uses. No dam, or reservoir, or other water impoundment facility shall be constructed or placer mining permitted on waters within scenic waterways. No water diversion facility shall be constructed or used except by right previously established or as permitted by the Water Resources Commission, upon a finding that such diversion is necessary to uses designated in ORS 536 310 (12), and in a manner consistent with the policies set forth under ORS 390 805 to 390 925. The Water Resources Commission shall administer and enforce the provisions of this subsection.

(2) Filling of the beds or removal of material from or other alteration of the beds or banks of scenic waterways shall be prohibited, except as permitted by the Director of the Division of State Lands upon a finding that such activity would be consistent with the policies set forth under ORS 390 805 to 390 925 for scenic waterways, and approved by the State Land Board and in a manner consistent with the policies set forth under ORS 541 605 to 541 625 and 541 630 to 541 660 for removal of material from the beds and banks and filling of any waters of this state. The Director of the Division of State Lands shall administer and enforce the provisions of this subsection.

(3) Nothing in ORS 390 805 to 390 925 affects the authority of the State Fish and Wildlife Commission to construct facilities or make improvements to facilitate the passage or propagation of fish or to exercise other responsibilities in managing fish and wildlife resources. Nothing in ORS 390 805 to 390 925 affects the authority of the Water Resources Commission to construct and maintain stream gauge stations and other facilities related to the commission's duties in administration of the water laws.

(4) The Water Resources Commission shall carry out its responsibilities under ORS 536 220

to 536 590 with respect to the waters within scenic waterways in conformity with the provisions of this section [1971 c 1 §4, 1973 c 756 §1, 1977 c 671 §2, 1985 c 673 §177]

390.845 Functions of the department; use of adjacent lands. (1) Except as provided in ORS 390 835, scenic waterways shall be administered by the department, each in such manner as to protect and enhance the values which caused such scenic waterway to be included in the system. In such administration primary emphasis shall be given to protecting the esthetic, scenic, fish and wildlife, scientific and recreation features, based on the special attributes of each area.

(2) After consultation with the State Board of Forestry, the State Department of Agriculture and the affected counties and with the concurrence of the Water Resources Commission, the department shall adopt rules governing the management of related adjacent land. Such rules shall be adopted in accordance with ORS 183 310 to 183 550. Such rules shall reflect management principles, standards and plans applicable to scenic waterways, their shore lines and related adjacent land and, if necessary, establish varying intensities of protection or development based on special attributes of each area. Such management principles, standards and plans shall protect or enhance the esthetic and scenic values of the scenic waterways and permit compatible agricultural, forestry and other land uses. Specifically, and not in limitation of the foregoing, such rules shall provide that

(a) No roads, railroads or utilities shall be constructed within any scenic waterway except where necessary to serve the permissible uses, as defined in subsection (2) of this section and in the rules of the department, of the related adjacent land or unless department approval of such use is obtained as provided in subsection (4) or (5) of this section. The department wherever practicable shall require the sharing of land and air space by such roads, railroads and utilities. All permissible roads, railroads and utilities shall be located in such a manner as to minimize the disturbance of the natural beauty of a scenic waterway.

(b) Forest crops shall be harvested in such manner as to maintain as nearly as reasonably is practicable the natural beauty of the scenic waterway.

(c) Occupants of related adjacent land shall avoid pollution of waters within a scenic waterway.

(d) The surface of related adjacent land shall not be disturbed for prospecting or mining unless

the department's approval is obtained under subsection (4) or (5) of this section, and

(e) Unless department approval of the proposed use is obtained under subsection (4) or (5) of this section, no commercial, business or industrial structures or buildings other than structures or buildings erected in connection with an existing use shall be erected or placed on related adjacent land. All structures and buildings erected or placed on such land shall be in harmony with the natural beauty of the scenic waterway and shall be placed a sufficient distance from other structures or buildings so as not to impair substantially such natural beauty. No signs or other forms of outdoor advertising that are visible from waters within a scenic waterway shall be constructed or maintained.

(3) No person shall put related adjacent land to uses that violate ORS 390 805 to 390 925 or the rules of the department adopted under ORS 390 805 to 390 925 or to uses to which the land was not being put before December 3, 1970, or engage in the cutting of trees, or mining, or prospecting on such lands or construct roads, railroads, utilities, buildings or other structures on such lands, unless the owner of the land has given to the department written notice of such proposed use at least one year prior thereto and has submitted to the department with the notice a specific and detailed description of such proposed use or has entered into agreement for such use with the department under subsection (5) of this section. The owner may, however, act in emergencies without the notice required by ORS 390 805 to 390 925 when necessary in the interests of public safety.

(4) Upon receipt of the written notice provided in subsection (3) of this section, the department shall first determine whether in its judgment the proposed use would impair substantially the natural beauty of a scenic waterway. If the department determines that the proposal, if put into effect, would not impair substantially the natural beauty of the scenic waterway, the department shall notify in writing the owner of the related adjacent land that the owner may immediately proceed with the proposed use as described to the department. If the department determines that the proposal, if put into effect, would impair substantially the natural beauty of the scenic waterway, the department shall notify in writing the owner of the related adjacent land of such determination and no steps shall be taken to carry out such proposal until at least one year after the original notice to the department. During such period

(a) The department and the owner of the land involved may agree upon modifications or alterations of the proposal so that implementation thereof would not in the judgment of the department impair substantially the natural beauty of the scenic waterway, or

(b) The department may acquire by purchase, gift or exchange, the land involved or interests therein, including scenic easements, for the purpose of preserving the natural beauty of the scenic waterway.

(5) The department, upon written request from an owner of related adjacent land, shall enter into negotiations and endeavor to reach agreement with such owner establishing for the use of such land a plan that would not impair substantially the natural beauty of the scenic waterway. At the time of such request for negotiations, the owner may submit a plan in writing setting forth in detail proposed uses. Three months after the owner makes such a request for negotiations with respect to use of land, either the department or the owner may give written notice that the negotiations are terminated without agreement. Nine months after the notice of termination of negotiations the owner may use land in conformity with any specific written plan submitted by the owner prior to or during negotiations. In the event the department and the owner reach agreement establishing a plan for land use, such agreement is terminable upon at least one year's written notice by either the department or the owner.

(6) With the concurrence of the Water Resources Commission, the department may institute condemnation proceedings and by condemnation acquire related adjacent land.

(a) At any time subsequent to nine months after the receipt of notice of a proposal for the use of such land that the department determines would, if carried out, impair substantially the natural beauty of a scenic waterway unless the department and the owner of such land have entered into an agreement as contemplated by subsection (4) or (5) of this section or the owner shall have notified the department of the abandonment of such proposal; or

(b) At any time related adjacent land is used in a manner violating ORS 390 805 to 390 925, the rules of the department or any agreement entered into by the department pursuant to subsection (4) or (5) of this section; or

(c) At any time related adjacent land is used in a manner which, in the judgment of the department, impairs substantially the natural beauty of a scenic waterway, if the department has not been

given at least one year's advance written notice of such use and if there is not in effect department approval of such use pursuant to subsection (4) or (5) of this section

(7) In such condemnation the owner of the land shall not receive any award for the value of any structure, utility, road or other improvement constructed or erected upon the land after December 3, 1970, unless the department has received written notice of such proposed structure, utility, road or other improvement at least one year prior to commencement of construction or erection of such structure, utility, road or other improvement or unless the department has given approval for such improvement under subsection (4) or (5) of this section. If the person owned the land on December 3, 1970, and for a continuous period of not less than two years immediately prior thereto, the person shall receive no less for the land than its value on December 3, 1970. The department shall not acquire by condemnation a scenic easement in land. When the department acquires any related adjacent land that is located between a lake or river and other land that is owned by a person having the right to the beneficial use of waters in the river by virtue of ownership of the other land

(a) The right to the beneficial use of such waters shall not be affected by such condemnation, and

(b) The owner of the other land shall retain a right of access to the lake or river necessary to use, store or divert such waters as the owner has a right to use, consistent with concurrent use of the land so condemned as a part of the Oregon Scenic Waterways System

(8) Any owner of related adjacent land, upon written request to the department, shall be provided copies of rules then in effect or thereafter adopted by the department pursuant to ORS 390 805 to 390 925

(9) The department shall furnish to any member of the public upon written request and at expense of the member a copy of any notice filed pursuant to subsection (3) of this section

(10) If a scenic waterway contains lands or interests therein owned by or under the jurisdiction of an Indian tribe, the United States, another state agency or local governmental agency, the department may enter into agreement with the tribe or the federal, state or local agency for the administration of such lands or interests therein in furtherance of the purposes of ORS 390 805 to 390 925 [1971 c 1 §5, 1971 c 459 §1, 1973 c 756 §2, 1981 c 236 §3, 1983 c 334 §4]

390.848 Passes for use of parts of Deschutes River; fee; exemption from fee; disposition of moneys. (1) The department shall establish, by rule, a system for issuing passes necessary to comply with the requirements under ORS 390 851. The department shall establish a reasonable fee for issuance of a pass under this section. The department may establish any form of proof of payment of the user fees that it deems appropriate

(2) The system for issuance of passes established by the department under this section may include issuance of the passes by governmental entities or private persons who have entered into appropriate agreements with the department for issuance of the passes. Agreements under this subsection may include, but are not limited to, terms providing for locations for the collection of fees, methods the department determines appropriate to assure payment of moneys collected and provisions for the distribution of river-user information

The designation of a river or segment of a river and related adjacent land, pursuant to ORS 390 855, shall not become effective until the day following the adjournment sine die of the regular session of the Legislative Assembly next following the date of the designation or that was in session when the designation was made The Legislative Assembly by joint resolution may disapprove any such designation or a part thereof, and in that event the designation, or part thereof so disapproved, shall not become effective [1971 c 1 §7]

390.905 Effect of ORS 390.805 to 390 925 on other state agencies. Nothing in ORS 390 805 to 390 925 affects the jurisdiction or responsibility of other state agencies with respect to boating, fishing, hunting, water pollution, health or fire control, except that such state agencies shall endeavor to perform their responsibilities in a manner consistent with the purposes of ORS 390 805 to 390 925 [1971 c 1 §11]

RECREATION TRAILS

390.950 Short title. ORS 390 950 to 390 989 and 390 990 (4) may be cited as the

Oregon Recreation Trails System Act [1971 c 614 §1]

390.953 "Department" defined. As used in ORS 390 950 to 390 989, unless the context requires otherwise, "department" means the Department of Transportation [1971 c 614 §2]

390.956 Policy. (1) In order to provide for the ever-increasing outdoor recreation needs of an expanding resident and tourist population and in order to promote public access to, travel within and enjoyment and appreciation of, the open-air, outdoor areas of Oregon, trails should be established both near the urban areas of this state and within, adjacent to or connecting highly scenic areas more remotely located

(2) The purpose of ORS 390 950 to 390 989 and 390 990 (4) is to provide the means for attaining these objectives by instituting a system of recreation trails in this state, by designating certain trails as the initial components of that system, and by prescribing the methods of which, and standards according to which, additional components may be added to the system [1971 c 614 §3]

390.959 Composition of trails system; establishment of markers. The system of Oregon recreation trails shall be composed of trails established as provided in ORS 390 962 and 390 965. The department, in consultation with appropriate federal, state and local governmental agencies and public and private organizations, shall establish a uniform marker for the system of Oregon recreation trails [1971 c 614 §4]

390.962 Criteria for establishing trails; location; statutes authorizing trails for motorized vehicles unaffected. (1) Upon finding that such trails will meet the criteria established in ORS 390 950 to 390 989 and 390 990 (4) and such supplementary criteria as the department may prescribe, the department is encouraged and empowered to establish and designate Oregon recreation trails

(a) Over lands owned by the State of Oregon, by the Federal Government or by any county, municipality or other local governmental body, with the consent of the state agency, federal agency, county, municipality or other local governmental body having jurisdiction over the lands involved, or

(b) Over lands owned by private persons, in the manner and subject to the limitations provided in ORS 390 950 to 390 989 and 390 990 (4)

(2) In establishing such trails, the department shall give special recognition to the need for the establishment of recreation trails in or near,

or reasonably accessible to, urban areas Upon the establishment of any such trail, the department shall designate the primary kind of trail it is to be, based upon the mode or modes of travel to be permitted on such trail, including one or more of the following

- (a) Footpath
- (b) Horseback riding trail
- (c) Bicycle path

(3) Nothing in ORS 390 950 to 390 989 and 390 990 (4) affects any other statute authorizing trails for motorized vehicles which is not inconsistent with ORS 390 950 to 390 989 and 390 990 (4) [1971 c 614 §5]

390.965 Hearing required; information to be considered. (1) The department may establish trails after public meetings in the areas of the state where trails are planned and only in accordance with the following criteria

- (a) Emphasis shall be given to the development of trails across public lands
- (b) No trails shall cross private land occupied by a residential dwelling, or upon which a residential dwelling is under construction, within 300 feet of such residential dwelling, without the consent of the owner
- (c) Trails shall be selected to minimize the adverse effects on adjacent landowners or users and their operations
- (d) Development and management of trails shall be designed to harmonize with and complement any established forest, agricultural, or other use plan that is compatible with the purposes of ORS 390 950 to 390 989 and 390 990 (4)

(2) Before establishing a trail the department shall consider at a public meeting the following information

- (a) The proposed route of such trail (including maps and illustrations) and the recommended mode or modes of travel to be permitted thereon,
- (b) The areas adjacent to such trails, to be utilized for scenic, historic, natural, cultural or developmental purposes,
- (c) The characteristics that, in the judgment of the department, make the proposed trail suitable as an Oregon recreation trail,
- (d) The current status of land ownership and current and potential use along the designated route,
- (e) The estimated cost of acquisition of lands or interest in lands, if any;
- (f) The plans for developing and maintaining the trail and the cost thereof,

(g) Any anticipated problems of policing the use of such trail and any anticipated hazards to the use of any privately owned lands adjacent to such trail, and

(h) The extent to which the state or its political subdivisions and public and private organizations might reasonably be expected to participate in acquiring the necessary lands and in the administration thereof [1971 c 614 §6]

390.968 Selection of rights of way for trails. (1) The department shall select the rights of way for trails designated as Oregon Recreation Trails by ORS 390 962 (1)(a) and (b) Such rights of way shall be

(a) Of sufficient width and so located as to protect natural conditions, scenic and historic features, and any primitive character of the trail area, to provide campsites, shelters, and related public-use facilities along trails in more remote areas, and to provide reasonable public access

(b) Located to avoid, in so far as reasonably practicable, established highways, motor roads, mining areas, power transmission lines, existing commercial and industrial developments, range fences and improvements, private logging operations, and any other activities that would be incompatible with the protection of the trailside environment in its natural condition and the use of the trail for outdoor recreation

(2) Notwithstanding subsection (1) of this section, it is recognized that in many instances (especially in urban areas and for some types of trails across or near private land) it may be advisable to locate segments of trails in or near existing rights of way for roads, highways, or public utilities, excluding power transmission lines, and it is recognized that trail rights of way on occasion may be located, or from time to time relocated, through, or adjacent to, lands used for private timber (including logging), agriculture, commercial or industrial operations and that such location or relocation of a trail right of way, of itself, shall not impose any limitation upon an otherwise lawful use of the adjacent private land except to the extent of the terms of any agreement with the private landowner as provided in ORS 390 971 (1) and except as may be provided by any zoning ordinance, law or regulation

(3) The location and width of an Oregon recreation trail right of way across federal lands under the jurisdiction of a federal agency shall be by agreement between that agency and the department.

(4) In selecting a right of way, the department shall endeavor to obtain the advice and assistance

of the local governments, private organizations, landowners, the land users concerned, and the advisory council established under ORS 390 977

(5) The department shall hold a public hearing in the area of the state where the selection of such right of way is to be made. Subject to ORS 390 971, after public hearing, the department may revise the location and width of a right of way from time to time as required by circumstances, with the consent of the head of any federal agency involved, and with such advice and assistance of the local governments, private organizations, landowners, land users, and the advisory council, as the department considers necessary or advisable [1971 c 614 §7]

390.971 Department duties and powers, generally. (1) Within the exterior boundaries of areas under its administration that are included in the right of way selected for an Oregon recreation trail as provided in ORS 390 950 to 390 989 and 390 990 (4), the department may

(a) Enter into written cooperative agreements with landowners, federal agencies, other state agencies, local governments, private organizations and individuals, in order to provide for the development, operation, maintenance, location and relocation of the trail, where the trail crosses commercial forest land, such agreement shall make reasonable provision for temporary relocation reasonably required for commercial forest management, and

(b) Subject to limitations set forth in ORS 390 950 to 390 989 and 390 990 (4), acquire lands or interests in lands by donation, purchase with donated or appropriated funds or exchange, or with funds obtained under ORS 390 980

(2) The department, in the exercise of its exchange authority, may accept title to any nonstate-owned property within a trail right of way, and in exchange therefor it may convey to the grantor of such property any state-owned property under its jurisdiction (or the jurisdiction of any state agency consenting to such exchange) and which it (or the applicable consenting state agency) classifies as suitable for exchange or other disposal. The values of the properties so exchanged either shall be approximately equal, or if they are not approximately equal the values shall be equalized by the payment of cash to the grantor or to the department (or applicable consenting state agency) as the circumstances require

(3) If lands included in an Oregon recreation trail right of way are outside the exterior boundaries of state or federally administered areas, the

department shall attempt, and any local governments involved shall be encouraged, to enter into written cooperative agreements with landowners, local government, private organizations, and individuals in order to develop, administer, and maintain the trails, and to acquire, develop, and administer such lands or interests therein. However

(a) If the department or local governments fail or are unable to enter into such agreements or to acquire such lands or interests therein within one year after the selection of the right of way, the department may acquire private lands or interests therein by donation, exchange, or purchase with donated or appropriated funds, and may develop and administer such lands or interests therein

(b) Exchanges shall be governed by the provisions of subsection (2) of this section

(4) Oregon recreation trails shall be administered, protected, developed and maintained by the department, or as provided under paragraph (a) of subsection (1) of this section, to retain their natural, scenic and historic features. Along trails in more remote areas provision may be made for campsites, shelters and related public-use facilities, and other uses, including reasonable crossings (for motor vehicles, public utilities and water pipes and ditches), that will not substantially interfere with the nature and purposes of the trails may be permitted or authorized, as appropriate. The use of motorized vehicles by the general public along any such Oregon recreation trail is prohibited. However, the department shall authorize the use of motorized vehicles when, in its judgment, such vehicles are necessary to meet emergencies, trail construction and maintenance needs or to enable adjacent landowners or land users to have reasonable access to their lands or timber rights. The fact that private lands are included in an Oregon recreation trail by cooperative agreement of a landowner does not preclude the owner of such lands or agents of the owner from using motorized vehicles on or across such trails or adjacent lands from time to time in accordance with such agreement. Except to the extent otherwise provided by law, the state laws, rules and regulations applicable to lands or areas included in any Oregon recreation trail shall continue to apply. Nothing in ORS 390 950 to 390 989 and 390 990 (4) prohibits the use of roads existing on private lands on September 9, 1971, which may cross or traverse portions of the trail right of way, nor shall ORS 390 950 to 390 989 and 390 990 (4) prevent trails from crossing such roads

(5) The department shall endeavor to induce agreements with appropriate state and federal agencies to provide for youth work projects to assist in the construction and maintenance of trails that are part of the Oregon recreation trails system

(6) The department shall endeavor, when it considers such to be appropriate, to develop and enhance the educational values and opportunities of Oregon recreation trails, and in this connection it shall cooperate with schools, educators and other interested persons or groups in developing and utilizing techniques and materials to demonstrate to and inform the trail-using public of various scenic and natural features visible along or from such trails (including geological, botanical, historical, zoological and similar features)

(7) The department shall place and endeavor to maintain signs at such places as it considers appropriate along Oregon recreation trails advising users of the Oregon laws of criminal trespass and encouraging users to protect the trails and the rights and property of adjacent landowners

(8) The department, with the concurrence of any federal agency administering lands through which an Oregon recreation trail passes, and after consultation with the local governments, private organizations and landowners which the department knows or believes to be concerned, and the advisory council established under ORS 390 977, may adopt rules that may be revised from time to time governing protection, management, use, development and administration of an Oregon recreation trail

(9) The department, on lands not within a forest protection district, upon recommendation of the State Forester, shall have the authority to close trails during periods of high fire danger. The department shall also have the authority to close trails if it deems it necessary to protect the safety of the public

(10) Notwithstanding the provisions of ORS chapter 477, forest land on which a fire exists which was caused by a person using, for recreational purposes, a trail established pursuant to ORS 390 950 to 390 989, shall not be considered an operation as defined by ORS 477 001, if the fire did not start within an operation [1971 c 614 §9, 1973 c 46 §7, 1983 c 740 §123]

390.974 Intergovernmental cooperation to obtain property for use in trail system. The department is authorized and encouraged to consult and to cooperate with any state, federal or local governmental agency or body and with any privately owned utility having jurisdiction or control over or information con-

cerning the use, abandonment or disposition of roadways, utility rights of way or other properties suitable for the purpose of improving or expanding the Oregon recreation trails system in order to assure, to the extent practicable, that any such properties having value for Oregon recreation trail purposes may be made available for such use [1971 c 614 §11]

390.977 Oregon Recreation Trails Advisory Council; members; appointment; expenses. (1) The department shall establish an Oregon Recreation Trails Advisory Council and shall consult with such council from time to time with respect to matters relating to Oregon recreation trails, including the designation and establishment of Oregon recreation trails, the selection of rights of way, the selection, erection and maintenance of markers along the trail routes, and the administration of the trails. The council shall consist of eight members, at least one from each congressional district in the state. However, not less than two of such members shall be from separate counties bordering upon the ocean shore, as defined in ORS 390 605 (2), having a population of less than 150,000. Members of the council shall be appointed by the Governor and shall serve for terms of three years. Any vacancy in the council shall be filled in the same manner as the original appointment

(2) Members of the council shall serve without compensation, but the department may pay the expenses reasonably incurred by the council in the performance of its functions upon presentation of vouchers signed by the chairman of the council [1971 c 614 §8, 1981 c 545 §7]

390.980 Funds for purposes of ORS 390.950 to 390.989; acceptance, use of donated funds; indemnity to owners of land damaged by trail users. In addition to State of Oregon funds available for the purposes of ORS 390 950 to 390 989 and 390 990 (4), the department may use such portion of moneys made available to it by any federal agency which may be used for such purposes, including matching funds, as the department determines are necessary or desirable to carry out the purposes of ORS 390 950 to 390 989 and 390 990 (4). In addition to the foregoing, the department may receive and may encourage the receipt of donated funds or property from individuals, groups or organizations (including trail users) for specified or non-specified uses in connection with the acquisition, development, maintenance and administration of Oregon recreation trails. The department if it considers it advisable, may provide under its rules and regulations, for the use of a portion of any such donated funds received for nonspecified pur-

poses to grant to an owner of private land adjacent to an Oregon recreation trail, funds indemnifying such owner for damage clearly caused to the land of the owner, and property therein, by users of such trail and which such landowner has not been able to recover from the user causing such damage [1971 c 614 §12]

390.983 Trail property tax assessment.

For ad valorem tax purposes, real property that is subject to an easement, or a written cooperative agreement, for purposes of ORS 390 950 to 390 989 and 390 990 (4) shall be valued at its true cash value, less any reduction in value caused by the easement or the written cooperative agreement, and assessed in accordance with ORS 308 232. The easement shall be exempt from assessment and taxation the same as any other property owned by the state [1971 c 614 §13, 1981 c 804 §100]

390.986 Injunctive relief for violation of ORS 390.950 to 390.989. The department has power to obtain injunctions against violations of any provisions of ORS 390 950 to 390 989 and 390 990 (4) and any rules and regulations adopted under ORS 390 950 to 390 989 and 390 990 (4) and agreements made under ORS 390 950 to 390 989 and 390 990 (4) [1971 c 614 §14]

390.989 Eminent domain does not apply to department powers or duties under ORS 390.950 to 390.989. Any power of eminent domain otherwise vested in the Department of Transportation does not apply to any power or duty vested in the department by

ORS 390 950 to 390 989 and 390 990 (4) [1971 c 614 §16]
