PARTICULAR PERSONS

805.100 Disabled veterans. (1) In the absence of just cause for refusal, the division shall provide for registration of any vehicle required to be registered by this state in a manner consistent with this section for persons who qualify as disabled veterans under this section. The special registration provisions under this section are subject to all of the following:

(a) Except as otherwise specifically provided under this section, the division shall register a vehicle and issue registration plates for the vehicle registered under this section without requiring the payment of any fee other than the one-time registration fee established for registration under this section by ORS 803.420.

(b) Upon registration of a vehicle under this section, the division shall issue to the applicant special registration plates described in this section for the vehicle registered.

(c) The division shall not register a vehicle under this section or issue special registration plates under this section if another vehicle owned by the applicant or a member of the applicant's household has been registered under this section and issued special registration plates under this section.

(d) The division shall not register any commercial vehicle under this section.

(e) Any fee for replacement of a registration plate under ORS 803.575.

(4) Registration issued under this section is valid as provided in ORS 803.415. However, if any owner would be required to comply with ORS 815.310 upon issuance or renewal of regular registration for the vehicle, the owner must comply with ORS 815.310 in the same manner as for other vehicles or the division may suspend the registration of the vehicle and require the return of the registration plates until the owner submits proof of compliance.

(5) The division shall issue registration plates that comply with ORS 805.200 for vehicles registered under this section. Registration plates issued under this section are subject to the following:

The holder of the plates may transfer the plates to other qualifying vehicles owned by the person without payment of the registration plate transfer fee under ORS 803.575.

(d) Registration stickers of a type described under ORS 803.555 shall not be required for the registration plate to be valid.

(7) The division may suspend or revoke any registration and registration plates issued under this section if the division determines that registration plates issued under this section are being used for purposes not permitted under this section. Upon revocation or suspension under this subsection, a person to whom such registration plates are issued shall surrender the plates to the division. A person who fails to surrender registration plates to the division when required under this section is subject to the penalties for failure to return suspended or revoked registration plates under the vehicle code. [1983 c.338 §247, 1985 c.16 §92]

805.110 Former prisoners of war. (1) In the absence of just cause for refusal, the division shall provide for registration of any motor vehicle required to be registered by this state in a manner consistent with this section for persons who qualify as former prisoners of war under this section. The special registration provisions under this section are subject to all of the following:

(a) Except as otherwise specifically provided under this section, the division shall issue or renew registration and registration plates for motor vehicles registered under this section upon payment of the regular registration fee for the vehicle and shall not require the payment of any fee under ORS 803.570 or 805.250 for issuance of the registration plates.

(b) Upon registration of a motor vehicle under this section, the division shall issue to the

applicant special registration plates described in this section for the vehicle registered.

(d) The division shall not register any commercial vehicle under this section or any motor vehicle with a combined weight in excess of 8,000 pounds.

(e) If a mobile home, camper, travel trailer, special use trailer, motor home, moped or motorcycle is registered under this section, the fee for the registration shall be the same as the general registration fee for vehicles and not the fee established for mobile homes under ORS 820.580, or for motorcycles, campers, travel trailers, special use trailers, motor homes or mopeds under ORS 803.420.

(2) A person is a former prisoner of war who qualifies for registration of a vehicle under this section if the person, while serving in the active military, naval or air service of the United States or any of its Allies, was forcibly detained or interned in line of duty:

(a) By an enemy government or its agents, or a hostile force, during a period of war; or

(b) By a foreign government or its agents, or a hostile force during a period other than a period of war in which such person was held under circumstances which the division finds to have been comparable to the circumstances under which persons have generally been forcibly detained or interned by enemy governments during periods of war.

If the holder of the registration plates does not transfer the plates to another vehicle upon change of ownership, the plates must be surrendered to the division.

(c) The division shall assign the registration plates to a specific vehicle in lieu of other registration plates for the vehicle and the plates may not be transferred from vehicle to vehicle except as provided for the transfer of registration plates under ORS 803.530. The holder of the plates may transfer the plates to other qualifying vehicles owned by the person without payment of the registration plate transfer fee under ORS 803.575.

(5) The division may suspend or revoke any registration and registration plates issued under this section if the division determines that registration plates issued under this section are being used for purposes not permitted under this section. Upon revocation or suspension under this subsection, a person to whom such registration plates are issued shall surrender the plates to the division. Failure to surrender registration plates to the division when required under this section is subject to the penalties for failure to return suspended or revoked registration plates under the vehicle code. [1985 c.16 §94]

FLEETS

805.120 Effect of fleet registration; requirements; rules. (1) The owner of a fleet of vehicles may register the vehicles under this section as a fleet in lieu of registering the vehicles individually.

(2) Except as otherwise provided under this section, vehicles registered in a fleet under this section are subject to the same taxes, fees, qualifications, provisions, conditions, prohibitions and penalties applicable to similar vehicles otherwise registered under the vehicle code.

(3) The following apply to fleets registered under this section:

(a) The registered owner of the fleet must maintain the number of vehicles registered in the fleet that the division determines by rule to be

required for participation in the fleet registration program.

(b) Fleet registration or renewal of fleet registration under this section may be annual or biennial registration as determined by the division by rule.

(c) The registration of individual vehicles in a fleet registered under this section does not expire as long as the fleet registration is valid.

(d) The division shall assign identification to the fleet and, upon payment of appropriate fees, shall issue to the registered owner of the fleet permanent fleet tags, stickers, plates or other identification the division determines appropriate for the vehicles that the owner and the division have agreed to place in the fleet. The division may establish the use of any appropriate form of identification under this paragraph as the division determines convenient for its own operation.

(e) The tags, stickers, plates or other appropriate identification issued under this section shall be displayed on any vehicle to which it has been assigned by the division.

(f) Registration cards issued by the division for vehicles registered under this section are only required to individually describe the vehicles in the fleet to the extent the division determines necessary and to identify the fleet in which the vehicles are registered.

(g) Application for registration under this section shall be in the manner determined by the division by rule.

(h) The fleet owner shall maintain records and provide information to the division as required by the division by rule and shall allow the division to audit the records of the owner and conduct inspections at any reasonable time to determine compliance with requirements for fleet registration.

(i) Vehicles shall be added to the fleet and transferred from the fleet according to procedures established by the division by rule.

(j) The vehicles in the fleet shall be marked in compliance with any requirement for vehicle markings the division determines necessary for identification of fleet vehicles.

(k) The division may adjust fee payments and registration periods for individual vehicles added to a fleet registered under this section as the division determines necessary for administration of the fleet registration.

(L) The fees and taxes for a fleet registered under this section are the same as the fees and taxes required if the vehicles in the fleet are individually registered under the vehicle code.

(m) The division may charge a service charge for each vehicle entered into a fleet and a fleet vehicle renewal charge for each vehicle in the fleet at the time of renewal. Fees described in this paragraph are established under ORS 803.420.

(n) The division may schedule the time for payment of fleet registration fees in any manner convenient to the division or the fleet owner.

(o) The fleet owner shall comply with any rules the division establishes for the registration of vehicles in fleets under this section.

(p) The division shall cancel any registration under this section if the division determines that the owner of the vehicles registered is not complying with any requirements for fleet registration established under this section or by the division.

(q) A fleet owner may certify compliance with pollution control requirements under ORS 815.310 in the manner provided under ORS 815.310 for vehicles registered under this section.

(r) The division shall establish procedures for the reporting of the odometer readings of the vehicles in the fleet on a regular basis and for vehicles that are withdrawn from the fleet. The reports shall provide substantially the same information required for an odometer reading under ORS 815.400. The division may establish any reporting time the division considers convenient, but shall attempt to establish periods with a frequency roughly equivalent to those for renewal of vehicle registration. The division shall retain the odometer information submitted under this section but need not print it on certificates of title or registration cards.

(4) A fleet owner may request that the registration of all vehicles in the fleet expire in the same month. Notwithstanding ORS 803.405 or any other provision of this section, if such a request is made the division shall:

(a) Adjust the registration expiration date of all vehicles in the fleet.

(b) When a vehicle that is already registered in this state is added to the fleet, adjust the registration expiration date of the vehicle to correspond to that of other vehicles in the fleet.

(c) When a vehicle that has never before been registered in this state is added to the fleet, assign a registration expiration date to the vehicle that corresponds to that of other vehicles in the fleet.

(5) When the division adjusts or assigns registration expiration dates in accordance with subsection (4) of this section, the division shall prorate all registration fees to reflect the adjustment or assignment.

(6) The division shall adopt rules necessary for the administration of this section. The rules may include any rules that increase the convenience of administration or the convenience of the registration process under this section. [1983 c 338 §249; 1985 c.16 §95, 1985 c 245 §1; 1985 c 251 §23; 1985 c.668 §8]

805.130 Fleets of small trailers operated for hire. If trailers that are in a fleet of trailers are registered as described in this section, other trailers that are in the fleet may be operated for hire within this state without registration under the exemption in ORS 803.305 for trailers that are part of a fleet registered under this section. All of the following apply to registration of trailers under this section:

(1) To qualify for registration under this section a trailer must meet all of the following requirements:

(a) The trailer must be part of a fleet of two or more trailers that are for hire that are operated in this state and other jurisdictions.

(b) The trailer must be equipped with pneumatic tires made of an elastic material.

(c) The fleet of which the trailer is a part must be operated by an individual, association or group of owners.

(e) None of the trailers in the fleet may be operated on the highways of this state with a loaded weight of more than 8,000 pounds whether or not a particular trailer of the fleet is registered under this section.

(f) A number of trailers from the fleet equal to the average number of trailers operated in and through Oregon during the preceding registration year must be registered with the division under this section.

(2) To qualify for registration of trailers under this section, an owner or authorized representative of the fleet must file with the division, in certified form, verifiable data as to the average number of such trailers operating in and through the State of Oregon.

(4) Any owner whose application for registration under this section has been accepted by the division:

(a) Shall preserve the records on which the application is based for a period of four years following the year or period upon which the application is based; and

(b) Upon request of the division, shall make such records available to the division at its office for audit as to accuracy of number of vehicles, computations and payments or shall pay the reasonable costs of an audit at the home office of the owner by a duly appointed representative of the division.

(5) If the division determines that the applicant under this section should have registered more trailers in this state under the provisions of this section, the division may deny any further benefits to the fleet until the additional trailers have been registered.

(6) The division may make arrangements with agencies of this state or other jurisdictions administering motor vehicle registration laws for joint audits of any owner having trailers registered under this section. [1983 c 338 §248; 1985 c.401 §7]

PROPORTIONAL REGISTRATION

805.140 Proportional registration; qualifications; fees; indicia; records; telegraphic authority; expiration; effect; suspension. Proportional registration allows commercial vehicles to comply with registration requirements of more than one jurisdiction and to have registration fees, taxes or other fixed fees apportioned among the jurisdictions in which the vehicles are being operated. A vehicle may be registered under proportional registration if the vehicle qualifies for proportional registration under an agreement entered into under ORS 802.510. If a vehicle is going to be proportionally registered as part of a fleet, ORS 805.150 must be complied with in addition to this section. A vehicle is registered in this state if the vehicle is proportionally registered under this section. The following apply to proportional registration:

(1) The terms of an agreement established under ORS 802.510 control all of the provisions of proportional registration, including but not limited to the following, except as otherwise provided by this section:

(a) Qualification.

(b) Apportionment of fees, taxes and other fixed fees.

(c) Application and information required.

(d) Requirements for type, manner of display, number or any other provision relating to registration plates, registration cards and other proof of registration.

(e) Any other provision relating to the registration or titling of proportionally registered vehicles.

(2) When initially registered the registration fees for vehicles registered under this section, may be reduced according to the schedule provided for the proration of proportionally registered vehicle registration fees under ORS 803.410. This section does not allow proportionally registered vehicles to be registered under quarterly registration.

(3) The registration period for proportionally registered vehicles is as provided under ORS 803.415.

(4) The division may issue appropriate registration cards, stickers, permits, tabs, plates or other suitable identification devices the division considers convenient for proportionally registered vehicles. The design for such stickers, permits, tabs or plates shall be as provided under ORS 805.200, and the fees for such stickers, permits, tabs or plates are as provided under ORS 805.250.

(5) Any owner whose application for proportional registration under this section has been accepted by the division shall preserve the records on which the application is based for a period of four years following the year or the period upon which said application is based. Upon request of the division, the owner shall make such records available to the division at its office for audit as to accuracy of mileage, number of vehicles, weights, computations and payment of fees or shall pay the reasonable costs of an audit at the home office of the owner by a duly appointed representative of the division. An owner shall comply with any audit provisions under the agreement allowing the registration.

(6) If a provision concerning the registration of vehicles is not provided under the agreement or under this section, other provisions of the vehicle code applicable to registration shall be applicable to proportionally registered vehicles.

(8) All vehicles registered under this section may continue to operate on expired registration plates and registration until March 15 of the year following the expiration of the registration and registration plates if, the renewal application has been submitted and the required fees for registration have been paid on or before the last day of the registration period for the vehicles.

(9) Vehicles registered and identified under this section shall be deemed to be fully registered in this state for any type of movement or operation, except that in these instances in which a grant of authority is required for intrastate movement or operation, no such vehicle shall be operated in intrastate commerce in this state unless the owner thereof has been granted intrastate authority or right by the Public Utility Commissioner and unless said vehicle is being operated in conformity with such authority and rights.

805.150 Proportional fleet registration; qualifications; fees; application; indicia; after-acquired vehicles; withdrawn vehicles; denial. Any owner of a fleet of commercial vehicles that are operated in this state and in other jurisdictions may register the fleet under proportional fleet registration under this section in lieu of registering the vehicles as otherwise provided under the vehicle code if the fleet qualifies for proportional fleet registration under this section. Proportional fleet registration allows fleets of commercial vehicles to comply with registration requirements of more than one

jurisdiction and to have registration fees, taxes or other fixed fees apportioned among the jurisdictions in which vehicles from the fleet are being operated. The following apply to proportional fleet registration:

(1) A vehicle may be registered under proportional fleet registration if the vehicle qualifies for proportional registration under an agreement entered into under ORS 802.510 and if the vehicle is part of a fleet that qualifies under this section.

(2) Except as provided in this section, the terms of an agreement established under ORS 802.510 and the provisions of ORS 805.140 control all of the provisions of proportional fleet registration, including but not limited to, the following:

(a) Qualification.

(b) Apportionment of fees, taxes and other fixed fees.

(c) Application and information required.

(d) Requirements for type, manner of display, number or any other provision relating to registration plates, registration cards and other proof of registration.

(e) Any other provision relating to the registration or titling of proportionally registered vehicles.

(3) In order to register vehicles under proportional fleet registration under this section, the vehicles must be part of a fleet that includes one or more commercial vehicles as designated by the division.

(4) The initial application for proportional fleet registration shall state the mileage data, for this and other jurisdictions, that is required under this section with respect to such fleet. The mileage data will be data with respect to such fleet for any period of 12 consecutive months fixed by the division that is within the 18 months immediately preceding the commencement of the registration period for which proportional fleet registration is sought. In fixing the period required under this section, the division shall make it conform to the terms, conditions and requirements of any applicable agreement for the proportional registration of vehicles under ORS 802.510. If no operations were conducted during the period determined by the division, the application shall contain a full statement of the proposed method of operation and estimates of annual mileage in this state and other jurisdictions. The division shall determine the in-state and total fleet miles to be used in computing the fee payment for the fleet. The division may evaluate and adjust the estimate on the application if

the division is not satisfied as to the correctness thereof.

(5) An application for proportional fleet registration shall contain such information pertinent to vehicle registration as the division may require and shall contain the following:

(a) Information necessary to compute the fee under this section.

(b) A description and identification of each vehicle of the fleet which is to be operated in this state during the registration period for which proportional fleet registration is requested.

(6) The application for proportional fleet registration shall be accompanied by a fee payment for each fleet and by such information as the division may require. The application shall contain information necessary to compute the fee. The following establishes the procedure for determining the fee under this subsection:

(a) Determine the number of in-state miles by determining the total number of miles operated in this state by the vehicles in the fleet during the period established by the division under subsection (4) of this section;

(b) Determine the number of total fleet miles by determining the total number of miles operated by vehicles in the fleet in all jurisdictions during the period established by the division under subsection (4) of this section;

(c) Divide in-state miles by total fleet miles;

(d) Determine the total amount necessary to register each and every vehicle in the fleet for which registration is requested based on regular registration fees prescribed under ORS 803.420 but as adjusted for the registration period for proportional fleet registration; and

(e) Multiply the sum obtained under paragraph (d) of this subsection by the fraction obtained under paragraph (c) of this subsection.

(7) The division may issue any distinctive proof of registration under this section the division considers convenient. Registration plates, stickers or other suitable identification devices issued under this subsection shall comply with design requirements under ORS 805.200. The fee for the issuance of plates, stickers or other suitable identification for proportionally registered fleets is as provided under ORS 805.250.

(8) Vehicles acquired by the owner after the commencement of the registration period and subsequently added to a proportionally registered fleet shall be proportionally registered by applying the mileage percentage used in the original application for the fleet for registration to the

regular registration fees due with respect to such vehicle for the remainder of the registration period.

(9) If any vehicle is withdrawn from a proportionally registered fleet, the owner of such fleet shall so notify the division on appropriate forms to be prescribed by the division. The division may require the owner to surrender proportional registration cards and such other identification devices issued with respect to such vehicle as the division may deem advisable. Procedures for obtaining credit for fees paid on vehicles that are withdrawn from a proportionally registered fleet are provided under ORS 803.590.

(10) In addition to any grounds for denial of proportional registration benefits under ORS 805.140 or an agreement under ORS 802.510, the division may deny the owner of a proportionally registered fleet the right of any further benefits under proportional registration if the division determines that the person should have prorated more vehicles in this state. The denial under this subsection may continue until the fees for such additional vehicle or vehicles, which have been prorated, have been paid. [1983 c.338 §253; 1985 c.16 §98, 1985 c.668 §10]
