HAZARD ABATEMENT

477.062 Inadequately protected forest land declared nuisance; notice to protect; work at expense of owner; collection of amount expended. (1) All forest land inadequately protected from fire, which by reason of its situation or condition or lack of protection endangers life or property, is declared to be a public nuisance

(2) Whenever the forester learns thereof the forester shall direct the owner or operator of such forest land to take proper steps for its protection and advise the owner or operator of means to that end. In case of refusal or neglect by either to take precautions against fire required by law or directed by the forester within 10 days after written notice has been given, then the forester or any warden, acting with consent of the forester, may have such work done as the forester or warden considers necessary for the protection of life or property, summarily, without the necessity of court action

(3) The cost of work under subsection (2) of this section and the expense of any patrol rendered necessary by the want of adequate protection of such forest land shall be recoverable from

the offender by an action prosecuted in the name of the state

(4) All moneys collected under this section shall be paid into the State Treasury, credited to the State Forestry Department Account and expended as other moneys in that account are expended [Formerly 477 032 1965 c 253 §50]

FIRE ABATEMENT

477.064 Uncontrolled fire declared nuisance. Any fire on any forest land in Oregon burning uncontrolled or without proper action being taken to prevent its spread, notwithstanding its origin, is declared a public nuisance by reason of its menace to life and property. The spread of fire in forest land across an ownership boundary is prima facie evidence of fire burning uncontrolled [Formerly 477 034]

477.066 Duty of owner and operator to abate fire; abatement by authorities. (1) Each owner and operator of forest land on which a fire exists or from which it may have spread, notwithstanding the origin or subsequent spread thereof, shall immediately proceed to control and extinguish such fire when its existence comes to the knowledge of the owner or operator, without awaiting instructions from the forester, and shall continue until the fire is extinguished

(2) If the forester determines the fire is either burning uncontrolled or the owner or operator does not then have readily and immediately available personnel and equipment to control or extinguish the fire, the forester, or any forest protective association or agency under contract or agreement with the board for the protection of forest land against fire, and within whose protection area the fire exists, shall summarily abate the nuisance thus constituted by controlling and extinguishing the fire. [Formerly 477 036 1961 c 603 §7 1965 c 253 §51, 1967 c 429 §1, 1983 c 22 §2]

477.067 Notice of fire. For the purpose of ORS 477 066, notification to the owner or operator of the forest land, is considered sufficient notification to the owner of the existence of a fire [Formerly 477 042 and then 477 071]

477.068 Liability for cost of abatement; interest, lien; foreclosure; attorney fees. (1) In case an owner or operator fails to perform the duty required by ORS 477 066, or is wilful, malicious or negligent in the origin or subsequent spread of the fire, the actual cost incurred by the forester or a forest protective association or agency in controlling or extinguishing the fire shall be paid by the owner or operator within 90 days after the date on which

the first written demand for payment of the actual cost is mailed by the State Forester to the owner or operator. If the actual cost is not paid within such 90-day period, such amount shall bear interest at 10 percent per year from the date on which the first written demand for the payment of the actual costs was mailed by the State Forester and the actual cost together with such interest may be recovered from such owner or operator by an action prosecuted in the name of the State of Oregon, or such forest protective association or agency, or both

(2) An itemized statement of the actual cost incurred by the forester or association or agency, or both, certified to by the forester, shall be accepted as prima facie evidence of the actual cost in any proceeding authorized by this section

(3) The actual cost in cases covered by ORS 477 066 shall constitute a general lien upon the real and personal property of such owner or operator. A written notice of the lien, containing a description of the property and a statement of the actual cost, shall be certified under oath by the forester or any warden and filed in the office of the county clerk of the county in which the lands and personal property are situated within six months after the calendar year within which the fire originated, and may be foreclosed in the manner provided by law for foreclosure of liens for labor and material. In any proceeding to foreclose a lien created under this subsection, recovery for the plaintiff shall include, in addition to the amount of the actual cost, interest on such amount at the rate of 10 percent per year from the date of the filing of the written notice of the lien

(4) Upon request of the forester, the district attorney for the district in which the lands and personal property are situated or the Attorney General shall prosecute such action or foreclose the lien in the name of the State of Oregon or such forest protective association or agency, or both. Liens provided for in this section shall cease to exist unless suit for foreclosure is instituted within six months from the date of filing under subsection (3) of this section

(5) In any action under subsection (1) of this section to recover actual cost and in any proceeding to foreclose any lien created by subsection (3) of this section, the court shall award, in addition to costs and disbursements, reasonable attorney fees at trial and on appeal to the prevailing party [Formerly 477 038 1955 c 218 §1 1959 c 363 §6, 1961 c 603 §8, 1965 c 253 §53, 1965 c 428 §§11 12 1973 c 66 §1 1981 c 897 §54 1983 c 22 §3 1983 c 27 §1]

477.069 Negligence in origin and in failure to control fire may be united in one

complaint. Notwithstanding any other law, in any action authorized by ORS 477 068 to collect the costs incurred, the plaintiff may unite in the same complaint causes of action based upon any or all of the grounds therein mentioned [1957 c 157 §1, 1961 c 603 §9, 1965 c 253 §54]

477 070 [Formerly 477 040, 1955 c 218 §2 1959 c 368 §7, 1961 c 603 §10, 1963 c 107 §4, repealed by 1965 c 253 §46 (477 056 enacted in lieu of 477 070)]

477 071 [Formerly 477 042, 1961 c 603 §11 1965 c 253 §52, renumbered 477 067]

477 072 [Repealed by 1953 c 372 §22]

477 082 [Repealed by 1953 c 372 §22]

477.085 Liability for cost of protecting land in forest protection district. Any person who wilfully or negligently sets a fire or causes a fire to be set, which fire burns on land within the exterior boundaries of a forest protection district or within one-half mile of such boundaries, and for which efforts to control or extinguish the fire in order to protect forest land within the district from fire are exerted by the forester or any forest protective association or agency under contract or agreement with the board, is liable for the actual costs incurred by the forester, association or agency in such efforts. (3) That contains isolated tracts of forest land not so classified or not within a forest protection district, or that is primarily rangeland,

undeveloped land or undeveloped area containing sagebrush, juniper and similar growths [Formerly 177 142]

477.320 Request of rangeland owners for protection; hearings, determination; cooperative agreements for protection (1) Owners of rangeland may request the board to hold a hearing on the subject of providing protection from fire for rangeland. Upon receipt of such request, the board or its authorized representative shall hold one or more public hearings in order to receive from interested persons information relating to the providing of such protection, and shall cause public notice of the time and place of each hearing to be given. The board or its authorized representatives shall keep the records of the proceedings of such hearings as public records.

(2) After the hearing referred to in subsection (1) of this section, the board, in cooperation with interested persons, shall determine the rangeland to be included within a protection system, and the extent and type of protection to be provided. Such protection shall be commensurate with the values and uses of the rangeland to be protected.

(3) After proceedings under subsections (1) and (2) of this section, the forester and the board shall provide protection of the extent and type determined under subsection (2) of this section for rangeland determined to be included within a protection system under subsection (2) of this section. For the purpose of providing such protection, the board may enter into cooperative agreements or contracts with individuals, associations, corporations, road districts, rural fire protection districts or agencies of the Federal Government [Formerly 477 144]

477.325 Budget for rangeland protection; collection of costs; disposition of receipts (1) Before June 1 each year, the owners of rangeland to be protected under ORS 477 320 (3) shall prepare in cooperation with the board or its authorized representative, and submit to the board, a proposed budget for the fiscal year beginning on the next succeeding July 1. The budget shall include the proposed cost of such protection and the pro rata cost per acre of the rangeland to be protected. At the meeting of the board under ORS 477 265, the board shall review the budget, make any changes therein that are proper and consistent with law, and pass final approval thereon and the prorated acreage rate therein.

(2) The cost of protection of rangeland under ORS 477 320 (3) shall be in accordance with the budget approved under subsection (1) of this

section. The cost shall be collected pursuant to the cooperative agreement or contract entered into between the board and the owners of the rangeland under ORS 477 320 (3). All moneys received by the board pursuant to this subsection shall be paid into the State Treasury and credited to the State Forestry Department Account and shall be used exclusively for the purposes of ORS 477 315 to 477 325 [Formerly 477 146]

FIRE PREVENTION

(Closed Seasons)

477.505 State Forester may declare closed season in district. (1) When conditions of fire hazard exist in a forest protection district or any part thereof, the State Forester may designate for that district or any part thereof the date of the beginning of a closed season for that year. The closed season shall continue for that district or part thereof until ended by order of the State Forester when conditions of fire hazard no longer exist in that district or part thereof.

(2) The State Forester may, during the same year and for the same district under circumstances similar to those described in subsection (1) of this section, designate one or more subsequent closed seasons [1965 c 253 §93 1969 c 204 §3]

477.510 Acts prohibited during closed season. It is unlawful, during a closed season in a forest protection district, to

(1) Smoke while working in or traveling through any operation area in the district

(2) Use fuse and caps for blasting in the district unless approval is granted by the forester

(1) It is unlawful to set or cause to be set on fire any forest land, including flammable forest growth, forest refuse, slashing or forest debris, or any grass, grain, stubble, debris or other such flammable material, within the boundaries of a forest protection district or within one-eighth of one mile of a forest protection district for which a closed season has been designated under ORS 477 505, or when required under rules promulgated pursuant to subsection (3) of this section either on one's own land or on the land of another, without first securing a written permit from the forester or a warden and complying with the conditions of the permit. The forester may waive the requirement that the permit referred to in this section be secured prior to burning whenever conditions are such as to justify oral permission.

(2) In granting permits, the forester or any warden may prescribe conditions necessary to be observed in setting a fire and preventing it from spreading. Any permit obtained through wilful misrepresentation is void.

(3)(a) For the purpose of maintaining air quality the State Forester and the Department of Environmental Quality shall approve a plan for the purpose of managing smoke in areas they shall designate. The plan shall delineate restricted areas to which this subsection applies. The plan shall also include but not be limited to considerations of weather, volume of material to be burned, distance of the burning from designated areas, burning techniques, and provisions for cessation of further burning under adverse air quality conditions. All burning permitted within the restricted areas shall be according to the plan. The plan shall be developed by the State Forestry Department in cooperation with federal and state agencies, landowners and organizations which will be affected by the plan. The approved plan shall be filed with the Secretary of State and may thereafter be amended in the same manner as its formation.

(b) The State Forester shall promulgate rules to carry out the provisions of the smoke management plan approved under this subsection.

(4) The requirements of this section do not apply to lands protected pursuant to ORS 476 010 to 476 730 and 476 990 or ORS chapter 478, or lands protected within a city and for which lands a burning permit is required under such author-

ity [1965 c 253 §95, 1969 c 204 §204, 1969 c 680 §1, 1971 c 297 §1]

477.520 Suspension or revocation of permits. (1) The forester or any warden may refuse, suspend or revoke a permit authorized by or issued under ORS 477 515 (1), when necessary in the judgment of the forester or warden to prevent danger to life, health or property. The forester or warden may also refuse, suspend or revoke a permit authorized by or issued under ORS 477 515 (1), when necessary in the judgment of the forester or warden, and after consultation with the Environmental Quality Commission to prevent air pollution, as defined in ORS 468 275.

(2) On the advice of the forester that conditions in a forest protection district, or part thereof, so require, the Governor may suspend any or all such permits and prohibit the use of fire therein [1965 c 253 §96, 1969 c 680 §2]

477 525 [1965 c 253 §97, repealed by 1967 c 429 §14 (477 526 enacted in lieu of 477 525)]

477.530 Fire permits in federal grazing districts. (1) It is unlawful during a closed season to set or cause to be set on fire any forest land, grass, grain or stubble within the area inclosed by the outside boundaries of a federal grazing district established by the United States Department of the Interior, for which area a closed season has been designated, either on one's own land or on the land of another, without first securing a written permit from a fire warden appointed for the grazing district pursuant to ORS 477 355 (1)(b).

(2) In granting permits, a warden in a federal grazing district may prescribe conditions necessary to be observed in setting a fire and preventing it from spreading. The warden may refuse, suspend or revoke a permit when necessary in the judgment of the warden to prevent danger to life or property, and may prescribe conditions under which permits are not required. Any permit obtained through wilful misrepresentation is void.

(3) This section does not apply to any land within the boundaries of a city or that does not border or corner on the federal range [1965 c 253 §98]

477.532 Regional air quality authority's functions limited. None of the functions of the Environmental Quality Commission under ORS 477 515 and 477 520 shall be performed by any regional air quality authority established pursuant to ORS 468 505 [1969 c 680 §5]

(Restricted Uses)

477 535 Forester may proclaim forest land subject to restricted uses. (1) If the forester determines that any forest land is particularly exposed to fire danger, by proclamation the forester may designate such forest land as an extra fire hazard and may restrict the use of such forest land

(2) The proclamation shall designate the area to which and the period during which the restrictions apply, and require that the area be subject to use only upon the condition that entrants comply with all the restrictions for the area

(3) The proclamation shall designate the type of closure as

(a) Regulated closure,

(b) Permit closure or

(c) Absolute closure [Formerly 477 156 1967 c 429 §45]

477 540 Notice of proclamation; suspension or termination; reinstatement. (1) The forester shall cause a notice of the type, restrictions and effective date of closure proclaimed under ORS 477 535 and the manner in which permits may be secured if the area is subject to permit closure, to be posted on the main traveled roads entering the designated areas. The forester shall also cause a notice of each proclamation to be published in at least one newspaper of general circulation in the state and, if the forester considers it practicable, one newspaper published in each forest protection district containing the designated areas. Each published notice shall describe the area, type restrictions and effective date of closure, and the manner in which permits may be secured if the area is subject to a permit closure

(2) The proclamation shall remain in force until the time designated therein expires or until the forester finds that the restricted use is no longer requisite and by order suspends or terminates it. A reinstatement of a closure after a suspension does not require the notices described in subsection (1) of this section [Formerly 477 160 1967 c 429 §46 1969 c 204 §5]

477.545 Restricted uses during closure. (1) Regulated closures require entrants into designated areas to comply with the requirements set forth in the proclamation under ORS 477 535, which requirements in the judgment of the forester are necessary to prevent danger to life or property

(2) Permit closures make the area subject to entry only through permit issued by the forester or a warden. The permit shall contain requirements which in the judgment of the forester are necessary to prevent danger to life or property. The forester may, during periods of fire hazard conditions, refuse, suspend, revoke or restrict such permits

(3) Absolute closures restrict the areas to all forms of use and shall be designated only during periods of extreme fire hazard conditions endangering life or property [Formerly 477 158, 1967 c 429 §47 1969 c 204 §6]

477.550 Violation of restrictions; access for fire fighting permitted. (1) Except as provided in subsection (2) of this section, it is unlawful to enter any restricted area except in compliance with ORS 477 535 and 477 545, or to violate any of the requirements or restrictions under such sections

(2) Nothing in this section applies to an owner's right of entry upon the land of the owner or prohibits free access to any area by anyone for the sole purpose of preventing or extinguishing fires [Formerly 477 162 1967 c 429 §48]

SNAGS; SLASHING AND OTHER DEBRIS**477.565 Felling dead trees and snags.**

(1) In an operation on forest land

(a) If power-driven equipment is used at any location to load and assemble forest products, the operator shall fell all dead trees and snags of such size and within such distance of the equipment as may be required by rules promulgated by the forester

(b) On forest land west of the summit of the Cascade Mountains, the operator shall fell all dead trees and snags within the operation area of such size, at such times and in such manner as may be required by rules promulgated by the forester

(2) Rules promulgated under this section shall prescribe such felling as reasonably is necessary to prevent the spread of fire [Formerly 477 217 1967 c 429 §49]

477 570 [Formerly 477 242, repealed by 1973 c 46 §8]

477 575 [Formerly 477 244, 1969 c 680 §3 1973 c 46 §4 repealed by 1987 c 154 §1]

477.580 Determination of additional fire hazards, notice to landowner; plan for reducing hazard; release from liability. (1) Following notice pursuant to ORS 527 670 by the landowner or operator to the forester of the intent

to start an operation, and after slashing has been created by the operation, the forester shall make a determination if such slashing and debris exists on the area in sufficient quantity and arrangement as to constitute an additional fire hazard that endangers life, property or adjacent lands, and if such area is in need of additional work or protection to reduce, abate or offset the additional fire hazard. Whenever practical, the forester shall make the determination referred to in this subsection during the administration and enforcement of the Oregon Forest Practices Act.

(2) If the forester determines that an additional fire hazard exists on the area sufficient to endanger life, property or adjacent lands, and that such area is in need of additional work or protection to reduce, abate or offset the additional fire hazard, the forester shall so notify the landowner and operator or their representatives in writing of such determination. Pursuant to rules promulgated by the forester, the notice to the landowner or operator shall contain provisions for offsetting the additional fire hazard by burning or extra work, improvements, extra protection or other means. The notice shall also specify a reasonable time for completion of the provisions contained therein.

(3) When the forester finds that the provisions set forth in subsection (2) of this section have been complied with or that the additional hazard has been, in the opinion of the forester, sufficiently reduced by other means to offset the hazard, the forester shall immediately issue to the operator or landowner a release from all obligations imposed by ORS 477.120 (2)(c).

(4) If the forester determines that an additional fire hazard exists, the forester shall at the request of the owner or operator, with the approval of the owner, grant a release upon payment by the owner or operator of such sum of money as the forester finds necessary to provide additional protection or means necessary to reduce or offset the additional hazard created by such slashing and other debris. In no event may this sum exceed (a) \$3 for each 1,000 board feet of timber harvested in a commercial operation, or (b) the forester's estimated cost of reducing or providing other means to offset the additional hazard, or (c) \$5 for each acre in a stand improvement operation where no timber is harvested, whichever amount is the lesser. Moneys received under this subsection shall be placed in the State Treasury, credited to the State Forestry Department Account and used exclusively for the purposes of forest protection within the district.

(5) Any owner of forest land may make written request to the forester to assume all obliga-

tions for the disposal or reduction of any additional fire hazard determined to exist thereon. If the forester then determines that the owner can comply with such obligation, the forester shall immediately issue to all other persons involved a written release of such obligations.

(6) Any order or determination made by the forester pursuant to this section is final unless modified or vacated in an appeal to the board taken within 30 days after issuance of the order [1965 c 253 §121, 1965 c 428 §16, 1967 c 429 §54, 1973 c 46 §5, 1975 c 74 §1, 1979 c 222 §1]

PLANT, MACHINERY AND EQUIPMENT REGULATIONS

(Enjoining Violations)

477.605 Enjoining violations of ORS 477.615 and 477.645 to 477.655 Any person violating any provisions of ORS 477.615 and 477.645 to 477.655 may be enjoined in an appropriate judicial proceeding from the further use of such logging equipment, mill or plant until the person complies with these sections [Formerly 477.218]

477.610 Standardization of fire-fighting equipment used to protect forest land.

(1) Notwithstanding any other law, the forester, in cooperation with other forest protection associations and agencies, shall carry on a continuous program for the standardization of equipment used for the protection of forest land from fire, and from time to time shall issue rules, with the approval of the board, for such standardization where it is the finding of the forester and board that such standardization is economically feasible and permits greater utility in the use of such equipment.

(2) The provisions of ORS 476.410 to 476.440 shall not apply to equipment used for the protection of forest land from fire [1965 c 76 §§2-3]

(General Regulations)

477.615 Additional water supply. (1) When, in the judgment of the forester, a logging operation is of sufficient size and so planned and operated as to justify additional protection from fire, the owner or operator, within 30 days after having been so directed by the forester in writing, shall provide additional water supply, and equipment for its use in fire suppression, that is in conformity with rules promulgated by the forester.

(2) All such equipment, during a closed season, shall be kept in constant readiness for

instant use in fighting forest fires. However, nothing in this section prohibits the use of the equipment by the operator for sprinkling roads or other uses within the operation area.

(3) Rules promulgated under this section shall prescribe such water supply and equipment as reasonably are necessary to provide immediate and effective suppression of fires on forest land [Formerly 477.212 1967 c.429 §17]

477.620 Requirements concerning installation or operation of mill or plant.

(1) Any person operating a mill or plant from which refuse is burned in or within one-eighth of one mile of forest land shall provide and maintain a closed refuse burner of a type and size which, in the judgment of the forester, is adequate to prevent the spread of fire, unless the forester specifies other measures as equally adequate to prevent the spread of fire. The ground around the mill or plant, including the required refuse burner, shall be cleared for a distance of not less than 200 feet unless a lesser distance is specified by the forester.

(2) Any person operating a mill or plant for the prefabrication or manufacture of forest products, from which refuse is disposed of in forest land without burning, shall clear the ground around the mill or plant for a distance of not less than 200 feet, unless a lesser distance is specified by the forester. The forester, during a closed season affecting such forest land, shall require a cleared fire line around such refuse which in the judgment of the forester is adequate to reduce fire hazard conditions.

(3) Any person who constructs or installs a mill or plant for the prefabrication or manufacture of forest products in or within one-eighth of one mile of forest land shall first obtain a written permit from the forester. The permit shall contain requirements which in the judgment of the forester are adequate to prevent the spread of fire from the mill or plant or refuse [Formerly 477.215]
