(Administration)

448.131 Water quality, construction and installation standards; effect on existing facilities. (1) The Health Division shall adopt water quality standards that are necessary to protect the public health through insuring safe drinking water within a water system.

(2) In order to insure safe drinking water, the division shall prescribe:

(a) Construction standards governing the performance of a water system insofar as they relate to the safety of drinking water.

(b) Standards for the operation of water systems in so far as they relate to the delivery of safe drinking water.

(c) Other standards and requirements considered necessary by the division to insure safe drinking water.

(3) The division shall require that construction and installation plans be submitted and approved before construction begins on new systems or substantial improvements are made to old systems. The division may adopt rules exempting certain water systems from the plan review process.

(4) The division may impose and collect a fee from a water supplier for reviewing construction and installation plans.

(5) Nothing in this section authorizes the division to require alterations of existing facilities unless alterations are necessary to insure safe drinking water. [1981 c.749 §6]

448.135 Variances; notice to customers; compliance schedules; notice; hearing. The division may grant variances from standards if:

(1) There is no unreasonable risk to health;

(2) The water supplier has provided sufficient evidence to confirm that the best available treatment techniques are unable to treat the water in question so that it meets maximum contaminant levels;

(3) The water supplier agrees to notify the customers of the water supplier at appropriate intervals, as determined by the division, why the water system is, or remains, out of compliance with standards;

(4) The water supplier agrees to adhere to a compliance schedule, if the division prescribes one, which outlines how the water supplier intends to achieve compliance with standards. If a schedule is prescribed, it must be reviewed and evaluated every three years; and

(5) The division has announced its intention to grant a variance and has either:

(a) Held a public hearing in the affected area prior to granting the variance; or

(b) Served notice of intent to grant the variance either personally, or by registered or certified mail to all customers connected to the water system, or by publication in a newspaper in general circulation in the area. If no hearing is requested within 10 days of the date that notice is given, the division may grant the variance. [1981 c.749 §7; 1983 c.271 §5]

448.140 Operation on permit. A water system that does not comply with the rules and standards of the division shall be operated only after the water supplier has received a permit for the system from the division if:

(1) The division has not granted a variance from standards as provided under ORS 448.135 to the water supplier; and

(2) The water system is providing water that does not meet maximum contaminant standards as determined by an investigation conducted by the division under ORS 448.150. [1981 c.749 §8]

448.145 When permit may be issued; compliance schedule; hearing; notice. (1) A permit shall be issued by the division

when there are economic or other compelling factors such that the water supplier is unable to install the water treatment facilities or to meet the maximum contaminant levels.

(2) The division shall prescribe a compliance schedule, including interim measures to eliminate the risk to health, which sets a specific time limit for the water supplier operating on a permit to install the water treatment facilities or to meet the maximum contaminant levels.

(3) For so long as the water supplier operates on a permit, it must notify its customers at least once every three months why the water system is, or remains, out of compliance.

(4) When the division announces its intention to grant a permit, it shall:

(a) Hold a public hearing in the affected area prior to granting the permit; or

(b) Serve notice of intent to issue the permit either personally, or by registered or certified mail to all customers connected to the water system, or by publication in a newspaper in general circulation in the area. If no hearing is requested within 10 days of the date that notice is given, the division may finalize the permit.

(5) The document evidencing the permit shall contain a statement of the conditions under which the water system may operate. [1981 c 749 §9, 1983 c 271 §6]

448.150 Duties of division. (1) The division shall:

(a) Conduct periodic sanitary surveys of drinking water systems and sources, take water samples and inspect records to insure the system is not creating an unreasonable risk to health. The division shall provide written reports of such examinations to the local health administrator and to the water supplier.

(b) Require regular water sampling by water suppliers. These samples shall be analyzed in a laboratory approved by the division. The results of the laboratory analysis shall be reported to the division by the water supplier, unless direct laboratory reporting is authorized by the water supplier.

(c) Investigate any water system that fails to meet the water quality standards established by the division.

(d) Require every water supplier that provides drinking water that is from a surface water source to conduct sanitary surveys of the watershed as may be considered necessary by the division for the protection of public health. The water supplier shall make written reports of such sanitary surveys of watersheds promptly to the division and to the local health department.

(e) Investigate reports of waterborne disease pursuant to its authority under ORS 431.110 and take necessary actions as provided for in ORS 446.310, 448.030, 448.115 to 448.285, 454.235, 454.255, 455.680 and 757.005 to protect the public health and safety.

(f) Notify the Department of Environmental Quality of a potential ground water management area if, as a result of its water sampling under paragraphs (a) to (e) of this subsection, the division detects the presence in ground water of:

(A) Nitrate contaminants at levels greater than 70 percent of the levels established pursuant to ORS 468.694; or

(B) Any other contaminants at levels greater than 50 percent of the levels established pursuant to ORS 468.694.

(2) The notification required under paragraph (f) of subsection (1) of this section shall identify the substances detected in the ground water and all ground water aquifers that may be affected. [1981 c.749 §10, 1989 c.833 §51; 1989 c 946 §1]

448.160 Emergency plans. (1) The division shall maintain a plan outlining actions to be taken by the division during emergencies relating to water systems.

(2) The division may require that a water supplier compile an emergency plan if it appears necessary to the assistant director. [1981 c.749 §12]

448.165 Local government water service plans. (1) Counties may develop water service plans. These plans should encourage small water systems to combine management functions and to consolidate where possible. Water service plans must be in keeping with county land use plans.

(2) Cities or counties, whichever have authority to issue building permits, must

certify that the division has approved the construction and installation plans of a proposed water system development and the development plan does not violate city or county water service plans before issuing a building permit.

(3) Counties or boundary commissions are authorized to approve the formation, consolidation and expansion of water systems not owned by cities in keeping with county and city plans. In doing so, counties or boundary commissions should consider whether water service is extended in a logical fashion and water systems have a financial base sufficient for operation and maintenance. [1981 c.749 §13]

448.170 Division agreement to authorize local government to exercise duties.

Whenever a water system or part thereof presents or threatens to present a public health hazard requiring immediate action to protect the public health, safety and welfare, the assistant director may request the district attorney of the county wherein the system is located to institute an action. The action may be commenced without the necessity of prior administrative procedures or hearing and entry of an order or at any time during such administrative proceedings, if such proceedings have been commenced. The action may petition for a mandatory injunction compelling the water supplier to cease and desist operation or to make such improvements and corrections as are necessary to remove the public health hazard or threat thereof.

(2)(a) If the water supplier refuses to comply with the order of the court, in addition to other remedies, the court may appoint a special master to operate the water system. Costs of operation and improvement during operation by the special master are to be charged to the water supplier and may be collected by impounding revenue due to the water supplier from customers of the supplier; or, if those funds are insufficient, from other revenues due to the water supplier.

(b) The court may require sale of a water system under a special master to a responsible party if the water supplier refuses to comply with the standards and requirements of the division.

(3) Cases filed under provisions of this section or any appeal therefrom shall be given preference on the docket over all other civil cases except those given an equal preference by statute.

(4) Nothing in this section is intended to prevent the maintenance of actions for legal or equitable remedies relating to private or public nuisance or for recovery of damages brought by private persons or by the state on relation of any person. [Formerly 449.247, 1975 c.254 §10; 1979 c.284 §145; 1981 c.749 §15]

(2) The notice required under subsection (1) of this section shall include the following:

- (a) Citation of the rule allegedly violated;
- (b) The manner and extent of the alleged violation; and
- (c) A statement of the party's right to request a hearing.

(3) The notice shall be served personally or by registered or certified mail and shall be accompanied by an order of the assistant director requiring remedial action which, if taken within the time specified in the order, will effect compliance with the rule allegedly violated. The order shall become final unless request for hearing is made by the party receiving the notice within 10 days from the date of personal service or the date of mailing of the notice.

(4) The form of petition for hearing and the procedures employed in the hearing shall be consistent with the requirements of ORS 183.310 to 183.550 and shall be in accordance with rules adopted by the division.

- (b) Deposit or maintain any uncleanly or unwholesome substance.

(2) Violation of paragraph (a) or (b) of subsection (1) of this section is a public nuisance and may be abated as other nuisances under the laws of this state. [Formerly 449.320; 1975 c.254 §12, 1981 c.749 §18]

448.268 Area of ground water concern; declaration. If, as a result of its activities under ORS 448.150, the Health Division confirms the presence in ground water drinking water supplies of contaminants resulting at least in part from suspected nonpoint source activities, the division shall declare an area of ground water concern. The declaration shall identify the substances confirmed in the ground water and all ground water aquifers that may be affected. [1989 c.833 §32]

The Health Division also may require additional tests for specific contaminants in an area of ground water concern or ground water management area. The seller shall submit the results of the test required under this section to the Health Division.

(2) The failure of a seller to comply with the provisions of this section does not invalidate an instrument of conveyance executed in the transaction. [1989 c.833 §30]

Note: See note under 448.268.

(Federal Safe Drinking Water Act Administration)

448.273 Federal Safe Drinking Water Act administration. The Legislative Assembly finds that an agreement between this state and the Federal Government to assume primary enforcement responsibility in this state for the federal Safe Drinking Water Act

is in the best interest of this state, subject to the following assumptions:

(1) The Federal Government provides an annual program grant in an amount no less than that allocated for the state in the 1984 fiscal year.

(2) The Federal Government provides technical assistance to this state, as requested, in emergency situations and during outbreaks of waterborne diseases.

(3) The Federal Government must negotiate an annual work plan for the Health Division of the Department of Human Resources, in cooperation with the division, that can be accomplished within the amount of program grant funding available.

(4) The Health Division adopts standards no less stringent than the National Primary Drinking Water Regulations of the United States Environmental Protection Agency.

(5) The Health Division provides engineering assistance through regional offices in at least four geographically distributed areas in this state.

(6) In cooperation with representatives of local health departments, the Health Division develops an equitable formula for distribution of available funds to support local health department water programs.

(7) The primacy agreement may be canceled by the Health Division, upon 90 days notice, if at any time the federal requirements exceed the amount of federal funding and the cancellation is approved by the legislative review agency as defined in ORS 291.371 (1).

(8) The Federal Government can impose financial sanctions against this state if the state fails to meet the objectives of the annual negotiated work plan without reasonable explanation by tying the next annual funding to specific state production and by withholding of funds a possibility if continued unexplained failures occur but no sanction exists to interfere with other types of federal funding in this state.

(9) The Federal Government may seek to enforce the safe drinking water standards if this state fails to take timely compliance action against a public water system that violates such standards.

(10) Enforcement under subsection (9) of this section may be by injunctive relief or, in the case of wilful violation, civil penalties authorized by 42 U.S.C. 300g-3 (a) and (b). [1985 c.178 §1]

448.275 [1973 c.835 §173; repealed by 1981 c.749 §28]

448.277 Health Division as administrator: The Health Division is authorized to enter into an agreement with the Federal

Government to administer the federal Safe Drinking Water Act in this state. The agreement is subject to the legislative assumption stated in ORS 448.273. The agreement shall remain in effect subject to annual renegotiation of the duties to be performed and the remuneration to be received by the division except that it may be canceled by the division, upon 90 days notice, if at any time the federal requirements exceed the amount of federal funding and the cancellation is approved by the legislative review agency as defined in ORS 291.371 (1). [1985 c.178 §2]

(Civil Penalties)

448.280 Civil penalties; notice. (1) In addition to any other penalty provided by law, any person who violates any rule of the division relating to the construction, operation or maintenance of a water system or part thereof shall incur a civil penalty not to exceed \$500 for each day of violation.

(2) No civil penalty prescribed under subsection (1) of this section shall be imposed until the person incurring the penalty has received five days' advance notice in writing from the division or unless the person incurring the penalty shall otherwise have received actual notice of the violation not less than five days prior to the violation for which a penalty is imposed. [1973 c.835 §174; 1975 c.254 §13; 1981 c.749 §19]

448.285 Penalty schedule; factors to be considered in imposing penalty. (1) The assistant director of the division shall adopt by rule a schedule or schedules establishing the amount of civil penalty that may be imposed for a particular violation. No civil penalty shall exceed \$500 per day.

(2) The assistant director may impose the penalty without hearing but only after the notice required by ORS 448.280 (2). In imposing a penalty pursuant to the schedule or schedules adopted pursuant to this section, the assistant director shall consider the following factors:

(a) The past history of the person incurring a penalty in taking all feasible steps or procedures necessary or appropriate to correct any violation.

(b) Any prior violations of statutes, rules, orders and permits pertaining to the water system.

(c) The economic and financial conditions of the person incurring the penalty.

(3) The penalty imposed under this section may be remitted or mitigated upon such terms and conditions as the division considers proper and consistent with the public health and safety. [1973 c.835 §175; 1975 c.254 §14; 1981 c.749 §20]

448.290 When penalty due; notice; hearing; recording order. (1) Any civil penalty imposed under ORS 448.285 shall become due and payable when the person incurring the penalty receives a notice in writing from the assistant director of the division. The notice shall be sent by registered or certified mail, shall conform to the requirements of ORS 183.415 and shall include a statement of the amount of the penalty.

(2) The person to whom the notice is addressed shall have 20 days from the date of mailing of the notice in which to make written application for a hearing before the division.

(3) All hearings shall be conducted pursuant to the provisions of ORS 183.310 to 183.550 applicable to a contested case.

(4) When an order assessing a civil penalty under this section becomes final by operation of law or on appeal, and the amount of penalty is not paid within 10 days after the order becomes final, the order may be recorded with the county clerk in any county of this state. The clerk shall thereupon record the name of the person incurring the penalty and the amount of the penalty in the County Clerk Lien Record.

(5) All amounts recovered under this section shall be paid into the State Treasury and credited to the General Fund. [1973 c.835 §176; 1989 c.706 §15]

(Jurisdiction of Cities)

448.295 Jurisdiction of cities over property used for system or sources. Subject to the authority of the Health Division, for the purpose of protecting from pollution their domestic water supply sources, cities shall have jurisdiction over all property:

(1) Occupied by the distribution system or by the domestic water supply sources by and from which the city or any person or corporation provides water to the inhabitants of the city.

(2) Acquired, owned or occupied for the purpose of preserving or protecting the purity of the domestic water supply source.

(3) Acquired, owned or occupied by cities within the areas draining into the domestic water supply sources. [Formerly 449.305; 1983 c 740 §170]

448.300 City ordinance authority. Cities may prescribe by ordinance what acts constitute offenses against the purity of the water supply and the punishment or penalties therefor and may enforce those ordinances within their corporate limits and on property described in ORS 448.295. [Formerly 449.310]

(3) An ordinance adopted by any city pursuant to this section shall include a penalty clause providing for a penalty upon conviction of a fine of not more than \$100 or imprisonment for not more than 30 days, or both such fine and imprisonment.

(4) After adoption of an ordinance pursuant to subsection (1) of this section, a city shall post the area with suitable signs setting forth the prohibition of access or the conditions of limited access imposed by the ordinance. Failure to post the area as required in this subsection shall be a defense in any prosecution under an ordinance adopted by any city under authority of this section. [Formerly 449.327]

448.310 Investigation of complaints. The officer in charge of the domestic water supply source or the community water supply system serving the city shall investigate complaints made concerning purity of the source or system and if the complaint appears to be well founded, file a complaint against the person violating ordinances of the city and cause arrest and prosecution. [Formerly 449.335]

448.320 Jurisdiction over violations of city ordinances. The municipal or recorder's court of any city passing an ordinance under authority of ORS 448.300 or 448.305 and the justice of the peace court or district court of the county wherein such city is located or in which the watershed area is located shall have concurrent jurisdiction to try and determine any prosecution brought under such ordinance. If prosecution is had in a justice of the peace court or a district court, the court shall remit to the city, after deducting court costs, the amount of any fine collected, except as otherwise provided by ORS 46.045 (2). If a jail term is imposed, the convicted person shall be confined in the city jail or in the county jail and if confined in the county jail the county shall be entitled to recover from the city the actual costs of such incarceration. [Formerly 449.328]

448.325 Injunction to enforce city ordinances. In cases of violation of any ordinance adopted under ORS 448.300 or 448.305 any city or any corporation owning a domestic water supply source or the community water supply system for the purpose of supplying any city or its inhabitants with water may have the nuisance enjoined by civil action in the circuit court of the proper county. The injunction may be perpetual. [Formerly 449.340]

(1) The Assistant Director for Health may prohibit the sale of water pipe used to carry potable water and solders, fillers or brazing material used in making up joints and fittings in this state and the installation or use of water pipe used to carry potable water and solders, fillers or brazing material used in making up joints and fittings in any private or public potable water supply system or individual water user's lines until such time as the assistant director determines that adequate standards

exist and are practiced in the manufacture of water pipe used to carry potable water and solders, fillers or brazing material used in making up joints and fittings to insure that the pipe and solder do not present a present or potential threat to the public health in this state.

(2) The Assistant Director for Health shall adopt, by rule, product acceptability criteria for water pipe used to carry potable water and solders, fillers or brazing material used in making up joints and fittings for water supply purposes which insure that the pipe and solder do not present a threat to the public health in this state. The Health Division shall be responsible for the monitoring of the sale and use of water pipe used to carry potable water and solders, fillers or brazing material used in making up joints and fittings for compliance with the product acceptability criteria. The Building Codes Agency shall cooperate with, and assist, the Health Division in its monitoring efforts.

(3) No water pipe used to carry potable water or solders, fillers or brazing material used in making up joints and fittings which does not conform to the product acceptability criteria adopted under subsection (2) of this section shall be sold in this state or installed in any part of any public or private potable water supply system or individual water user's lines.

(4) Notwithstanding subsection (1) or (3) of this section, the Assistant Director for Health may grant exemptions from any prohibition of the sale or use of water pipe used to carry potable water for the emergency repair or replacement of any existing part of a water supply system, or for the necessary use by a well driller in the installation of a well. The assistant director may require any person using water pipe used to carry potable water under this subsection to notify the Health Division of the date and location of that use.
