HARDWOOD FOREST PRODUCTS RESOURCES COMMITTEE

Note: Sections 2 to 7, chapter 316, Oregon Laws 1987, provide.

Sec. 2. The Legislative Assembly finds that:

(1) The hardwood industry is a significant and growing part of the forest industry of this state.

(2) As a result of the growth patterns, dispersion and special silvicultural requirements of the hardwood resource, there is a lack of accurate inventory or other systematic assembly of information describing the location, class of ownership and quantities of hardwood resources.

(3) The people of this state have a significant interest in assuring that the hardwood industry not be limited in growth and development by high resource costs caused by lack of information regarding the resource. [1987 c.316 §2]

Sec. 3. (1) There is created the Hardwood Forest Products Resources Committee consisting of seven members appointed by the State Board of Forestry. The board shall appoint members to the committee in such manner as to represent a cross section of the hardwood industry. A majority of the members of the committee must be members of the Western Hardwood Association. A member serves at the pleasure of the board, for such term as the board may prescribe.

(2) A member of the committee is entitled to compensation and expenses as provided in ORS 292.495, payable from such moneys as may be available therefor in the Hardwood Forest Products Subaccount or from such other moneys as may be available therefor in the State Forestry Department Account.

(3) The committee shall select such officers as the committee determines for such terms and with such duties and powers necessary for the performance of the functions of those offices as the committee determines proper.

(4) A majority of the members of the committee constitutes a quorum for the transaction of business.

(5) The committee shall meet at such times and places as are specified by the call of the chairperson or of a majority of the members of the committee [1987 c.316 §3]

Sec. 4. (1) The Hardwood Forest Products Resources Committee shall act in an advisory capacity to the State Board of Forestry.

(2) The committee may:

(a) Collect and analyze information relating to the inventory of hardwood species, with emphasis on red alder, in all classes of land ownership.

(b) Collect and analyze information relating to harvest and other silvicultural alternatives, requirements and techniques for hardwood resources.

(c) Apply for and accept gifts or grants from whatever source to carry out the functions of the committee.

(d) Take all other action the committee considers necessary to develop adequately the hardwood resource data base.

(e) Determine and make recommendations as to whether a permanent hardwood resource commission should be established to promote the growth and development of the hardwood industry. [1987 c.316 §4]

Sec. 5. The Hardwood Forest Products Resources Committee annually shall report its findings and recommendations to the State Board of Forestry. On or before November 15 of each even-numbered calendar year, the committee also shall prepare such a report, including any legislative proposals, for submission to the Legislative Assembly. [1987 c.316 §5]

Sec. 6. (1) The Hardwood Forest Products Subaccount is created in the State Forestry Department Account referred to in ORS 526.060.

(2) The subaccount shall consist of all moneys received for the purposes of sections 2 to 6 of this 1987 Act, and any interest earned on the investment of such moneys.

(3) Notwithstanding ORS 291.238, moneys deposited in the subaccount are appropriated continuously to the Hardwood Forest Products Resources Committee to carry out the provisions of sections 2 to 6 of this 1987 Act. [1987 c.316 §6]

Sec. 7. Sections 1 to 6 of this Act are repealed July 1, 1991. [1987 c.316 §7]

526.135 Leasing departmental equipment to federal agency. The forester, with the approval of the board, may lease equipment that is under the jurisdiction and control of the forester and board to any agency of the United States. However:

(1) The lease must include a reasonable rental fee and require the lessee to maintain the equipment during the lease period; and

(2) The federal agency must be a cooperator with the forester and board in common activities and programs for which the equipment is leased. [1965 c.87 §2]

526.140 [Repealed by 1953 c.327 §6]

526.144 Equipment pool; participation.

(1) The equipment pool operated by the forester and the board, which furnishes transportation and equipment for the various activities and programs of the board, is for the acquisition, operation, storage, maintenance and replacement of equipment. Notwithstanding any other law, the forester, under the direction of the board, may:

(a) Determine each activity or program of the board that shall participate in the equipment pool, and in so doing, cause the transfer of moneys from the account representing such activity or program in an amount determined advisable for equipment

pool purposes. However, in each instance the transfer of moneys must be based on the proportionate use of the equipment pool, or the proposed use thereof, by the activity or program.

(b) Transfer equipment to the equipment pool, which items of transfer are owned by the State of Oregon and under the jurisdiction of the board or forester. In such event the records shall reveal the cash value of the transferred items as of the date of the transfer.

(2) Forest protective associations or agencies under contract or cooperative agreement with the board pursuant to ORS 477.406 may, with the approval of the board, participate in the equipment pool for the purposes of the contract or agreement. Participation by such an association or agency shall be on the same basis as an activity or program of the board that participates in the equipment pool. [1965 c.253 §22]

526.146 Charges. (1) All items transferred under ORS 526.144, together with any equipment purchased from moneys transferred to the equipment pool, are available for all activities or programs participating in the equipment pool. However, upon use of such equipment for any activity or program, a reasonable use charge shall be made against such activity or program. The charge shall be based upon the maintenance and replacement costs for the equipment used, including operational expenses.

(2) At the end of each month the forester, under the supervision and direction of the board, shall render a statement on a basis of mileage or rental against each activity or program for transportation or equipment used or furnished for such activity or program. Administrative costs in connection with the operation of the equipment pool shall be included in the computation of the mileage or rental statement. The forester shall at all times keep records showing the mileage and rental charges, and against which activity or program the charges are a claim. The amount specified in the statement shall be a charge against the moneys available for such activity or program. All amounts so charged shall be credited to the State Forestry Department Account and, notwithstanding ORS 291.238, are available and shall be used exclusively for:

(a) The acquisition, operation, storage, maintenance, repair and replacement of equipment by the forester;

(b) Administrative expenses of the forester and the board in connection therewith; and

(c) The payment of insurance premiums for such equipment. [1965 c.253 §23]

However, the communication equipment may be used only for purposes of the forest protection system designated in ORS 477.005. Any lease so made must provide for a rental at the current rates established for the equipment pool. All amounts so charged shall be credited as provided in ORS 526.146.

(2) At the option of the board, the lease agreements made under this section may be merged under the equipment pool administration and equities set forth in ORS 526.152. [1965 c.253 §24]

526.152 Disposition of equipment; termination of pool. (1) Any proceeds from the sale or other disposition of equipment of the equipment pool shall be credited to the State Forestry Department Account for equipment pool purposes.

(2) Should the equipment pool be terminated by the board, each activity or program shall have an equity in the moneys of the pool and in the cash value of the equipment and personalty of the pool. The equity shall be in proportion to the amount of moneys and value of the equipment and personalty transferred to the pool under ORS 526.144. By this subsection, each activity or program participating in the equipment pool has a continuing and recognized interest in the total value of the pool so long as the equipment pool exists unless otherwise such equity is purchased. (1) The governing body of each county containing forest land may establish a county forest land classification committee of five persons, of whom one shall be appointed by the forester, one by the Director of Oregon Agricultural Experiment Station and three by the governing body. Of the members appointed by the governing body, one must be an owner of forest land or a representative thereof, and one must be an owner of grazing land or a representative thereof. Each appointing authority shall file with the forester the name of its appointee or appointees, and the persons so named shall constitute the committee for the county. Each member of the committee at all times is subject to replacement by the appointing authority, effective upon the filing with the forester by that authority of written notice of removal and the name of the new appointee.

(2) The committee shall elect from among its members a chairman and a secretary and may elect or employ other officers, agents and employees, as it finds advisable. It shall adopt rules governing its organization and proceedings and the performance of its duties, and shall keep written minutes of all its meetings.

(3) The governing body of the county may provide for the committee and its employees such accommodations and supplies and such county funds not otherwise appropriated as the governing body finds necessary for the proper performance of the committee's functions. [Amended by 1965 c.253 §34; 1967 c.429 §30]

526.320 Investigation of forest lands by committees; determination of adaptability for particular uses. Upon establishment of a committee under ORS 526.310, the committee shall investigate and study all forest land within its county and determine which of the land is suitable primarily for the production of timber, which is suitable primarily for joint use for timber production and the grazing of livestock, and which is suitable primarily for grazing or other agricultural use. Such determination shall take into consideration climate, topography, elevation, rainfall, soil conditions, roads, extent of fire hazards, recreation needs, scenic values, and other physical, economic and social factors and conditions relating to the land involved. [Amended by 1965 c.253 §35, 1967 c.429 §31]

526.324 Classification of forest land by committee; publication. (1) Upon the basis of its investigation and determination under

ORS 526.320, a committee shall assign all forest land within its county to one of the following classes:

(a) Class 1, timber class, includes all forest land primarily suitable for the production of timber.

(b) Class 2, timber and grazing class, includes all forest land primarily suitable for joint use for timber production and the grazing of livestock, as a permanent or semipermanent joint use, or as a temporary joint use during the interim between logging and reforestation.

(c) Class 3, agricultural class, includes all forest land primarily suitable for grazing or other agricultural use.

(2) The committee first shall adopt a preliminary classification and upon its completion shall cause notice thereof to be published once a week for two consecutive weeks in a newspaper of general circulation in the county and to be posted in three public places within the county. The notice shall state the time and place for hearing or receiving objections, remonstrances or suggestions as to the proposed classification and the place where a statement of the preliminary classification may be inspected. [1965 c.253 §37; 1967 c.429 §32]

526.328 Hearing; final classification; reclassification. (1) The committee shall hold a public hearing at the time and place stated in the notice published under ORS 526.324 (2), or at such other time and place as the hearing may then be adjourned to, to receive from any interested persons objections, remonstrances or suggestions relating to the proposed classification. Following the hearing the committee may make such changes in the preliminary classification as it finds to be proper, and thereafter shall make its final classification.

(2) All action by the committee in classifying or reclassifying forest land shall be by formal written order which must include a statement of findings of fact on the basis of which the order is made, and must include a map showing the classifications or reclassifications made. The original of the order shall be filed immediately with the county clerk of the county, who shall maintain it available for public inspection. A copy of the order certified by the secretary of the committee shall be sent to the board. [1965 c.253 §38]

The appeal shall be taken by serving the notice of appeal on the secretary

of the committee or, if the classification was made under ORS 526.340, on the State Forester, and by filing such a notice with the county clerk.

(2) The appeal shall be tried by the circuit court as an action not triable by right to a jury. [1965 c.253 §39; 1979 c.284 §163]

526.340 Classification by State Forester. (1) In the event no classification of forest land is made by a committee within a county in which such land is situated because no committee was appointed or, if appointed, a committee did not act or acted in a manner inconsistent with law, the board may authorize the forester to make the study, investigation and determinations and to make the preliminary and final classifications that were otherwise to be made by a committee, and in the manner provided for a committee, including formal written order and findings of fact.

(2) Classifications by the forester have the same force and effect as though made by a committee for that county. However, classifications made by the forester cease to be effective if replaced by classifications made pursuant to ORS 526.328 by the appropriate committee. [Amended by 1965 c.253 §40]

526.350 Policy in administering forest and fire laws; contracts for care of forest land; fire control; burning permits. (1) All forest laws relating to forest land classified pursuant to ORS 526.328 or 526.340, and all rules promulgated under such laws, shall be so administered as best to promote the primary use for which that land is classified. Any contract by the board or the State Forester with any forest protective association or agency for the care of any such forest land shall provide that the care shall be in accord with the provisions of this section relating to that land.

(2) It shall be the policy of the board and the forester as to all forest land classified in:

(a) Class 1, to give primary consideration to timber production and reforestation, in preference to grazing or agricultural uses, not excluding, however, recreation needs or scenic values.

(b) Class 2, to give equal consideration and value to timber production and the development or maintenance of grazing, either as a temporary use for the interim between logging and reforestation or as a permanent or semipermanent joint use.

(c) Class 3, to give primary consideration to the development of grazing or agriculture, in preference to timber production.

(3) The forester, on forest land classified pursuant to ORS 526.328 or 526.340, shall administer the forest laws of this state in

accordance with the policy stated in this section as it applies to the land involved. [Amended by 1965 c.253 §41]

(1) The board and the forester shall assist to the extent possible in developing, for grazing or agricultural uses, all forest land classified pursuant to ORS 526.328 or 526.340 for such uses, including the burning of brush or other flammable material for the purpose of:

(a) Removing a fire hazard to any property;

(b) Preparing seed beds; or

(c) Removing obstructions to or interference with the proper seeding or agricultural or grazing development or use of that land.

(2) Upon request of the owner or the agent of the owner of any forest land classified as class 2 or 3, the forester shall supervise burning operations thereon for any of the purposes stated in subsection (1) of this section. The owner or the agent of the owner shall supply such assistance as the forester may require while there is danger of the fire spreading. The forester may, however, refuse to supervise burning or to issue any burning permit when such burning would create an unwarranted hazard.

(3) When any burning for any of the purposes stated in subsection (1) of this section on forest land classified as class 2 or 3 is started under the supervision of and supervised by the forester, no person shall be liable for property damage resulting from that burning unless the damage is caused by the negligence of the person. [Amended by 1965 c.253 §42; 1967 c.429 §33]

526.370 Seeding agreements as condition of supervision of burning on certain lands; seeding at owner's expense on breach; lien; foreclosure. (1) The forester may, as a condition precedent to supervising of any burning of class 2 or 3 lands, as provided in ORS 526.360, require the owner or the agent of the owner in control of the land involved to agree in writing to seed properly the land over which the burning operation is to be conducted, with such seed or seed mixtures as may be suitable for that area.

(2) In the event of failure by the owner or agent of the owner to seed the property in accordance with such agreement, the governing body of that county may cause the seeding to be done and the cost thereof may be recovered by the governing body from the owner or the agent of the owner by legal action. The cost shall constitute a lien upon

the land seeded. The governing body shall cause a written statement and notice of such lien, describing the land and stating the amount of the cost, to be certified under oath and filed in the office of the county clerk within 90 days following the completion of reseeded. The lien may be foreclosed, within six months after such filing, by suit, in the manner provided by law for foreclosure of liens for labor and material. [Amended by 1965 c.253 §43]

Economic benefits provided include a large tax base, substantial employment and wood products for a world market. The environmental benefits include maintenance of a forest cover and soil, air and water resources. Other benefits provided are habitats for wildlife and aquatic life, recreation and forest range. Management of all forest lands in Oregon should be encouraged to provide continuous production of all forest benefits.
